We are all adventure seekers in our own right, so it's only fitting that we'd seek out a vehicle that's not only built for our adventurous spirit, but named for it too. EXPLORER.

Whether you're an extreme-adventure enthusiast, or the "get out there and see the world with the family" type, the 2021 Ford Explorer® – America's all-time best-selling SUV,[1] and a 2020 IIHS Top Safety Pick Plus winner for vehicles built after May 2020 – is ready for almost anything. Convenient features like multiple USB ports, an LCD touchscreen, and an available wireless charging pad[2] help keep you in touch along the way. And, with 4 powerful engine choices and 87.8 cu. ft. of cargo space behind the front seat with the 2nd- and 3rd-row seats folded down, Ford Explorer helps get you where you want to go – with almost anything you want to take with you.[3]

In Explorer, your adventures are ready and waiting.

1. Based on IHS Markit, 1946-Current U.S. Total New Cumulative Registrations, for all vehicles identified as SUVs. **2.** Qi wireless charging may not be compatible with all mobile phones. **3.** Cargo and load capacity limited by weight and weight distribution.

Getting away doesn't have to mean being disconnected, thanks to some convenient features right at your fingertips. Like the available 10.1" LCD Capacitive Portrait Touchscreen that responds quickly to your voice or touch prompts, making it easy to view navigation map details. Maps (with pinch-to-zoom capability) can fill the entire screen, or the space can be split with audio or incoming call information.

A simple turn of the finely calibrated rotary gear shift dial for the 10-speed automatic transmission lets you easily switch from Park to Reverse to Drive, while the available 12.3" digital instrument cluster lets you configure the look and function of the gauges you use most frequently. And in here, we take the phrase "staying connected" literally. The 8 available powerpoints help, as does the ability to connect up to 10 devices at a time[1] through standard FordPass™ Connect[2] with 4G LTE Wi-Fi hotspot capability.[3]

ST. Ebony leather-trimmed seating.

1. Don't drive distracted or while using handheld devices. Use voice controls. **2.** FordPass Connect, the FordPass App, and complimentary Connected Service are required for remote features (see FordPass Terms for details). Connected service and features depend on compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. Connected service excludes Wi-Fi hotspot. **3.** Wi-Fi hotspot includes complimentary wireless data trial that begins upon AT&T activation and expires at the end of 3 months or when 3GB of data is used, whichever comes first, but cannot extend beyond the complimentary subscription period for remote features. To activate, go to www.att.com/ford.

Settle in to one of the 1st- or 2nd-row seats and you'll quickly see that Ford Explorer® is as big on space as it is on comfort. With room for up to 7, passengers will appreciate the expansive space on long trips – or on quick spins around the block. A simple button press on the available multicontour front seats with Active Motion® starts a gentle massage with 5 different themes – each with 3 levels of intensity. And with up to 8 available powerpoints, including 2 USB-A and 2 USB-C outlets, located throughout the interior, everyone can take comfort in knowing that their devices can stay charged and ready for wherever Explorer takes you.
