

2017 E-Class Sedan & Wagon

A masterpiece of technology. A working work of art.

Mercedes-Benz
The best or nothing.

“Sensual purity”

The 10th generation E-Class takes on a new shape that's roomier inside, sleeker outside and stronger all over. With 6.5 cm more wheelbase and classic proportions, sculpted elegance takes on a sporty stance. Expressive LED headlamps flow seamlessly into the side profile, which culminates in muscular rear shoulders and glistening LED taillamps.

Sport or Luxury styling

The wide grille integrates the iconic Star as its centerpiece. Standard AMG body styling includes a deep front apron with large mesh air intakes, flared side sills, and a rear valance with dual tailpipes. You can also opt for the Luxury Package for the E 300 4MATIC and E 400 4MATIC sedans and wagon, with a fresh rendering of the classic Mercedes-Benz grille and stand-up Star. Chrome accents highlight the elegant lower body.

Artfully crafted cabin

The three-dimensional flow of the E-Class cabin is more than a visual achievement. It's fluid in every experience, from the natural feel of the controls to the clarity of information and entertainment. A single floating panel houses the instruments and COMAND widescreen display, while aluminum-ringed air vents and switchgear punctuate the wave-formed dash and any of its eight available wood or metal trims.

New Mercedes-AMG sport sedan

The new Mercedes-AMG E 43 4MATIC Sedan asserts its performance on every surface. AMG lower bodywork enhances both aesthetics and aerodynamics. Brilliant chrome accents the front air dam and diamond-block grille, while a lip spoiler crowns the trunklid. Gloss Black side-mirror and side-window trim adds sporty contrast.

New E-Class Wagon

Accelerating a tradition of innovation, luxury and eminent practicality, the new E 400 4MATIC Wagon is arguably the most technologically advanced wagon on the road. Along with the countless groundbreaking systems of the new E-Class, it offers a flexible cabin with a rear-facing 3rd-row seat or up to 1,820 litres of cargo space with the second and third rows folded.

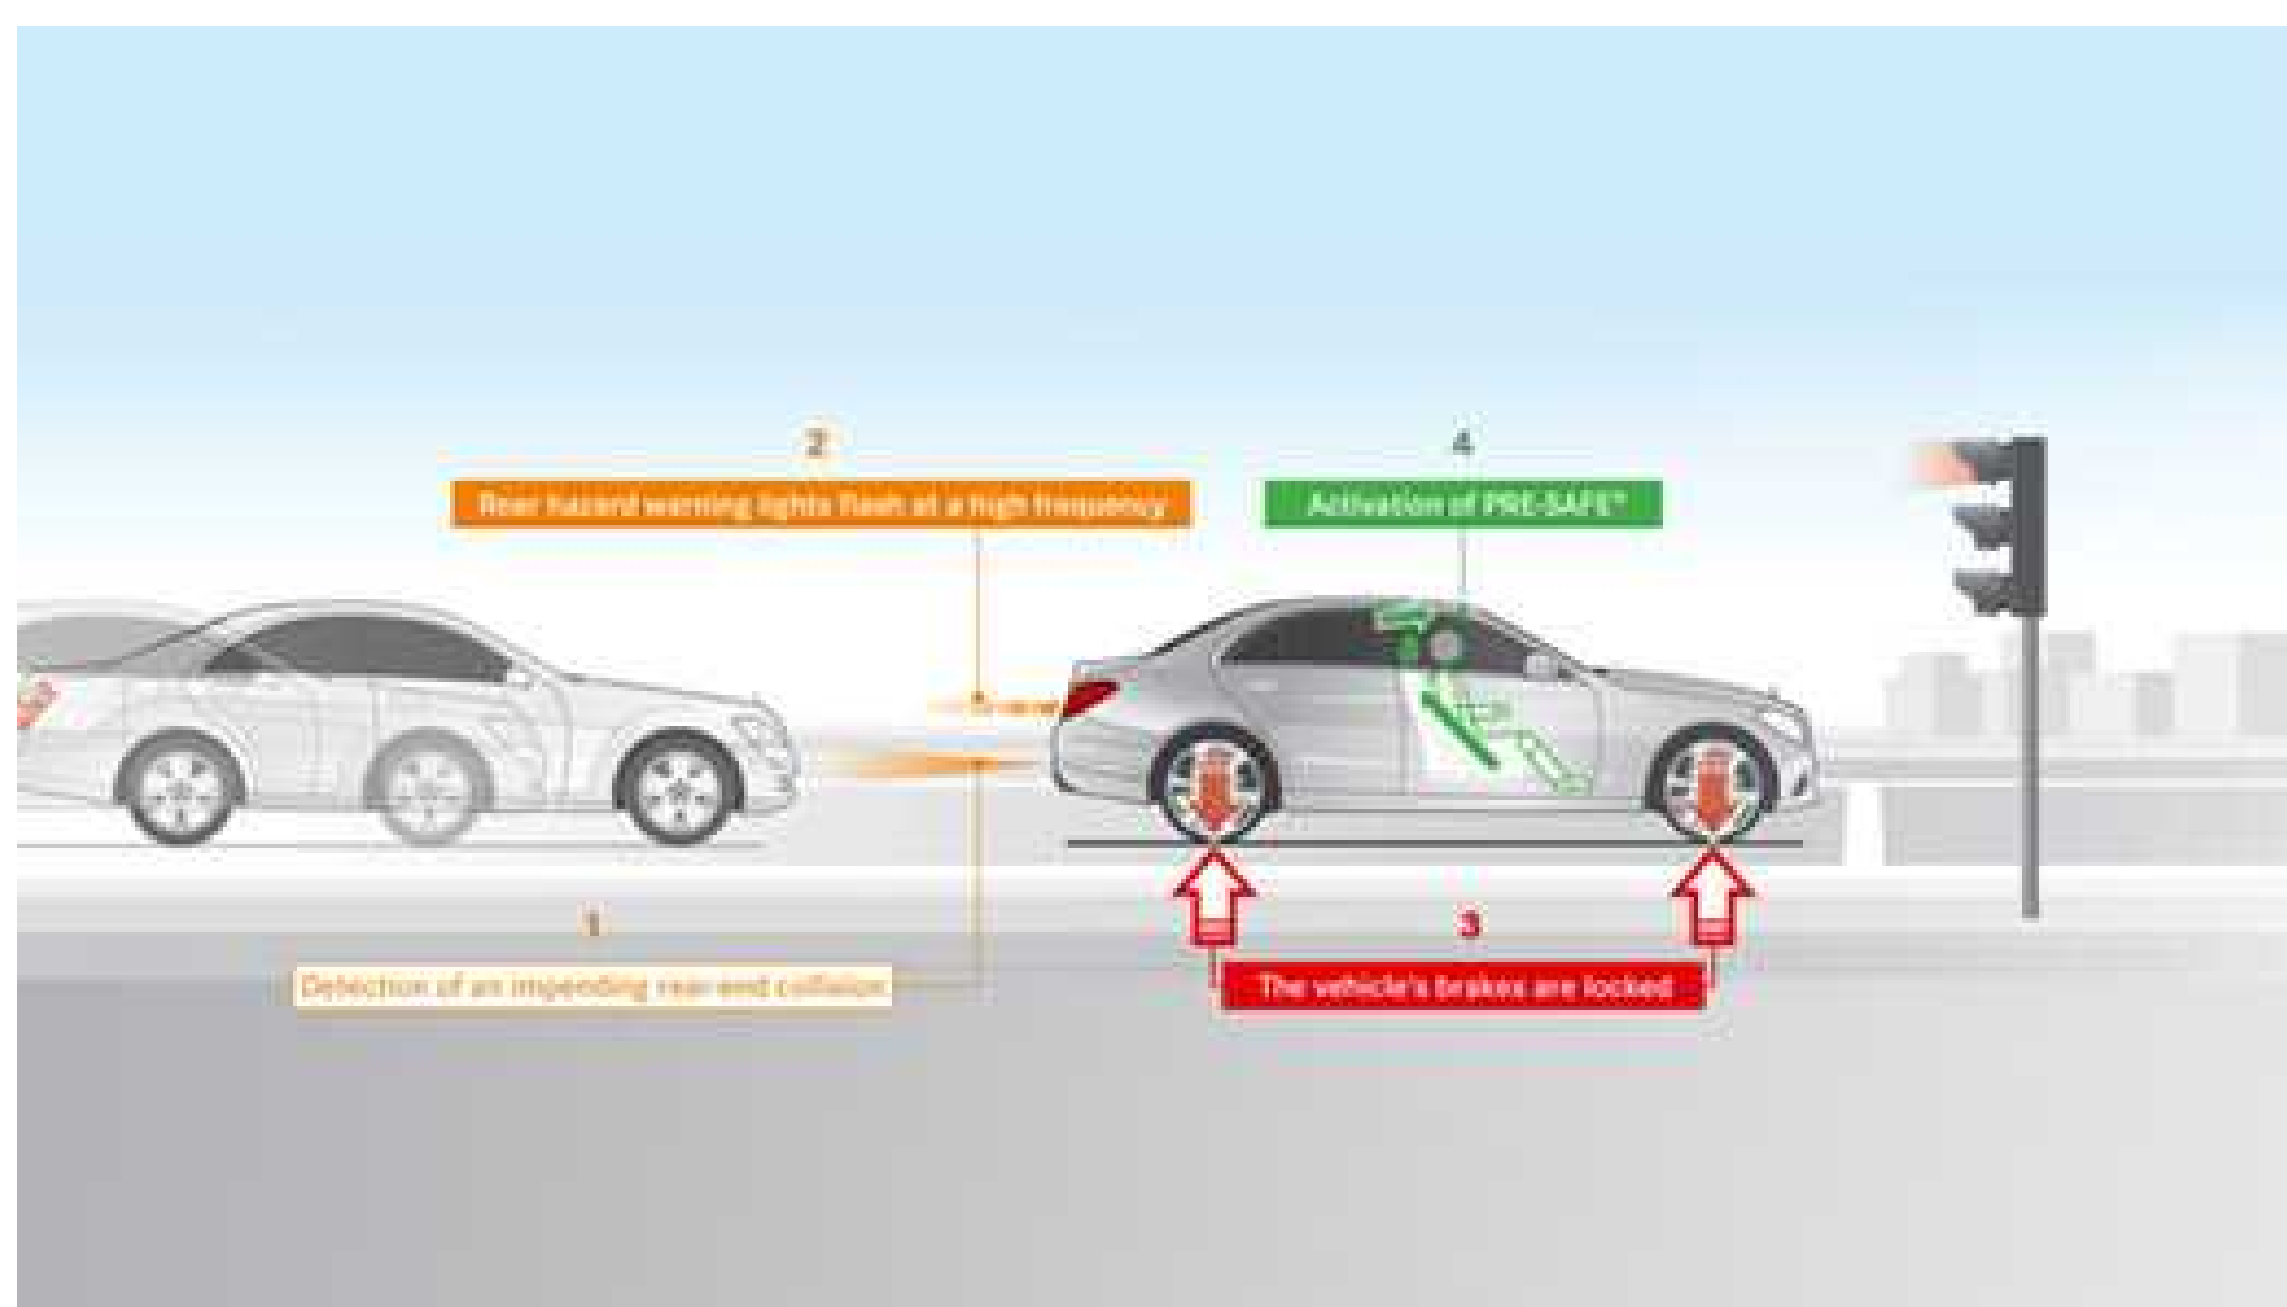

LED lighting

In addition to standard LED Daytime Running Lamps and fibre-optic LED taillamps, standard LED headlamps offer brilliant performance with distinctive style. Also available are active MULTIBEAMLED headlamps, with Adaptive Highbeam Assist and Active Curve Illumination to help shine the most light where and when you need it most.

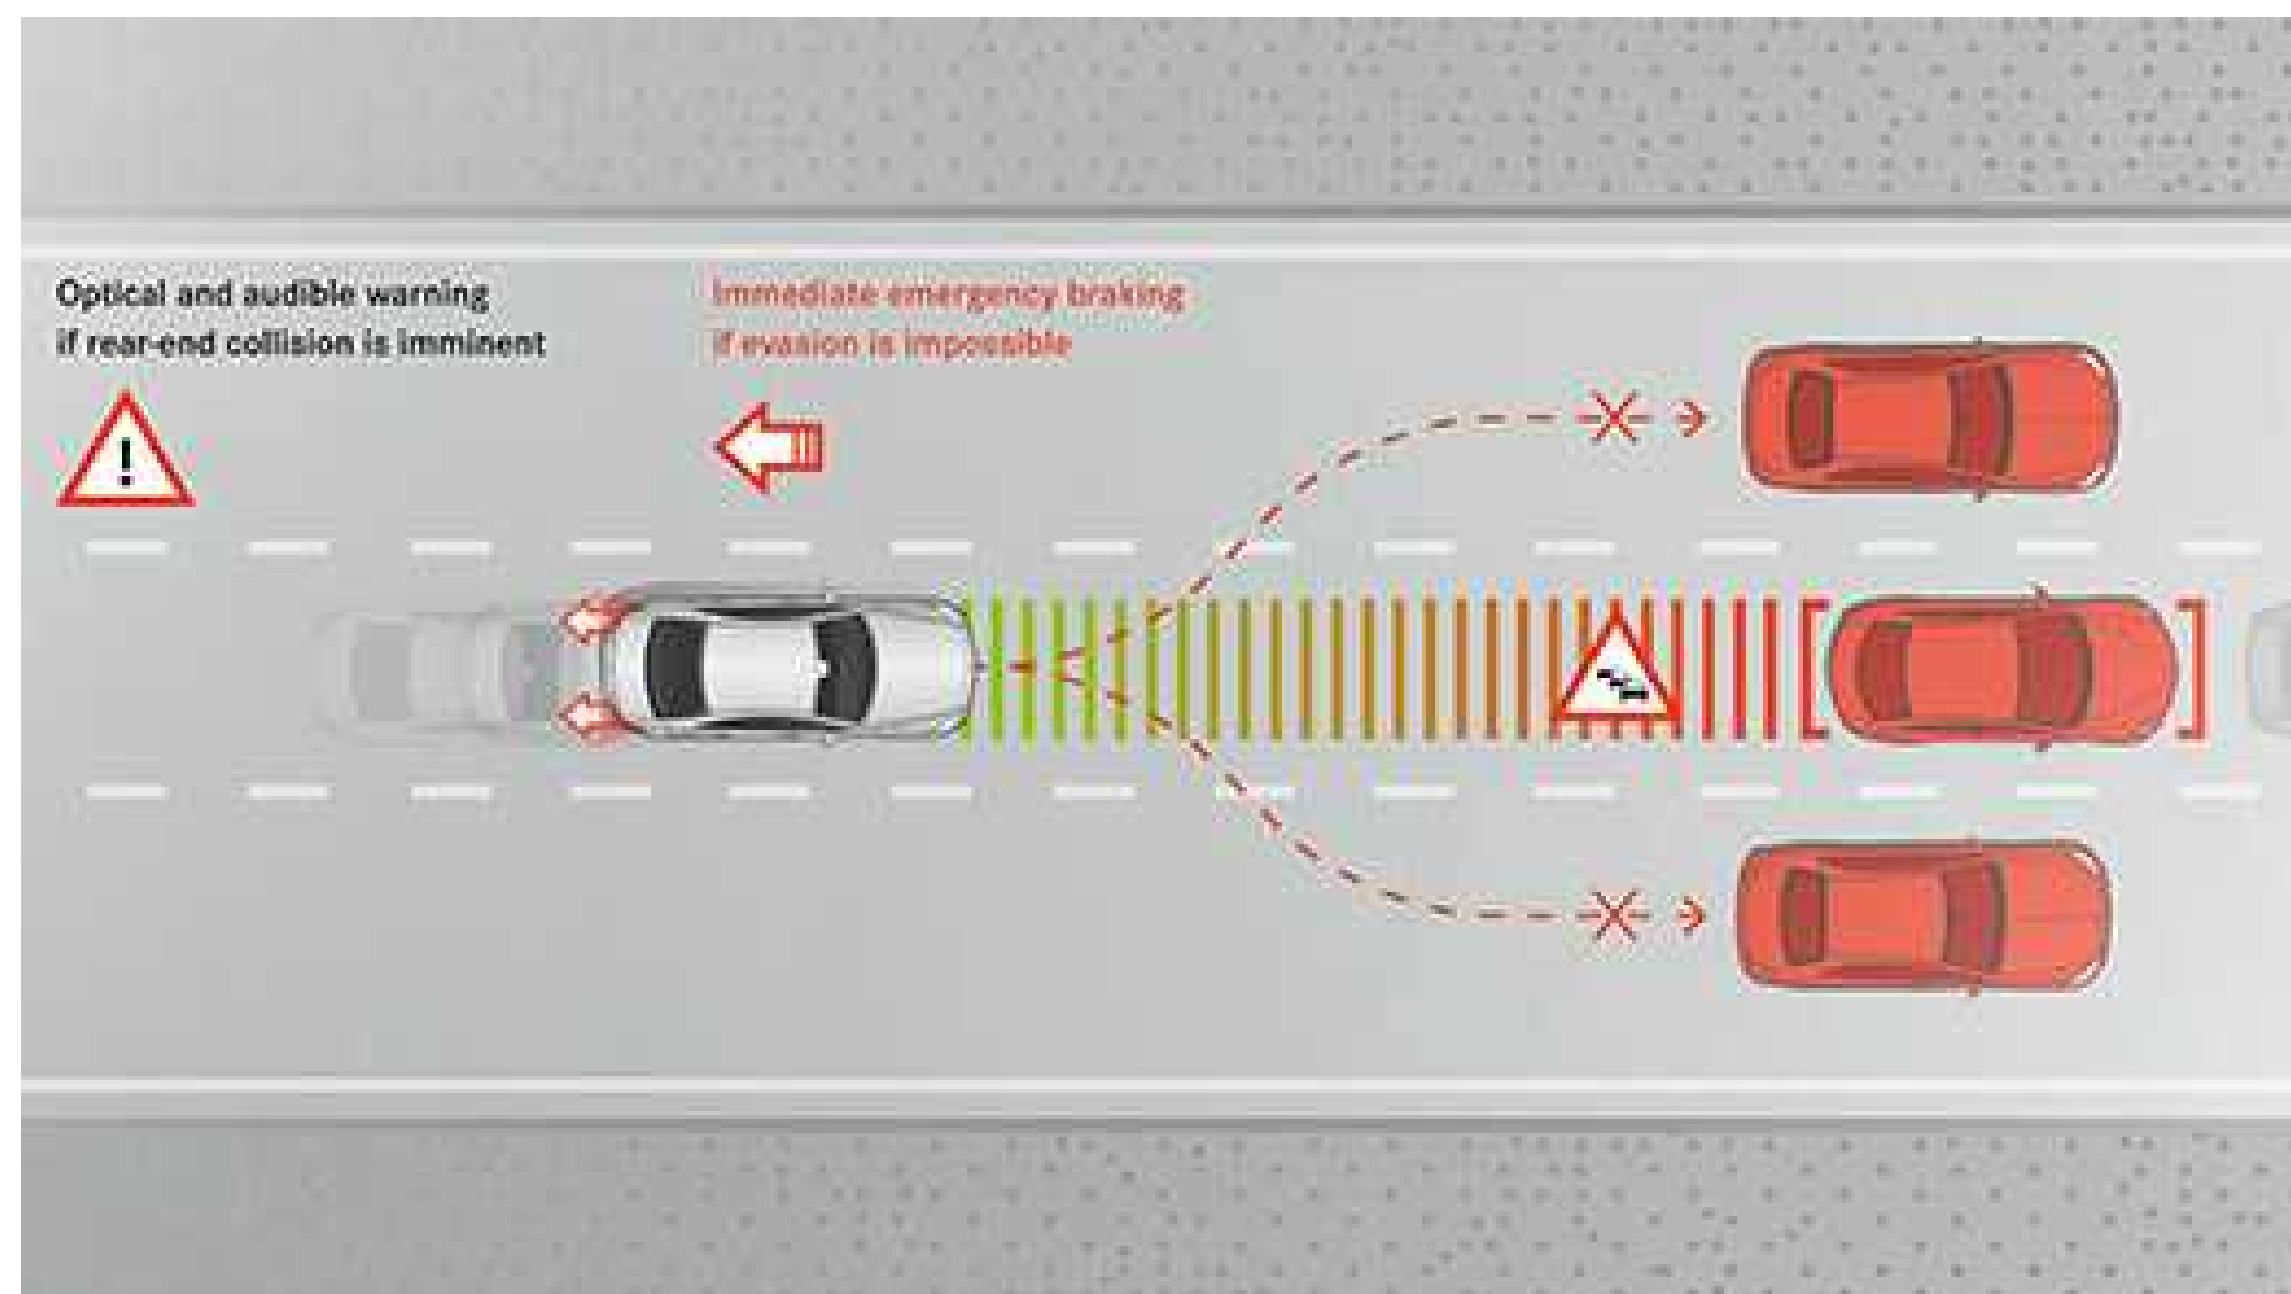

Available advanced Widescreen Cockpit

In addition to the standard 12.3" central display, a 12.3" widescreen instrument cluster is also available. It lets the driver select any of three gauge designs, each with its own combination of analogue-style readouts and animated graphics. An available Head-Up Display projects useful information in the driver's natural field of vision by "floating" over the hood. The full-colour graphical display can show navigation info, driving speed and more.

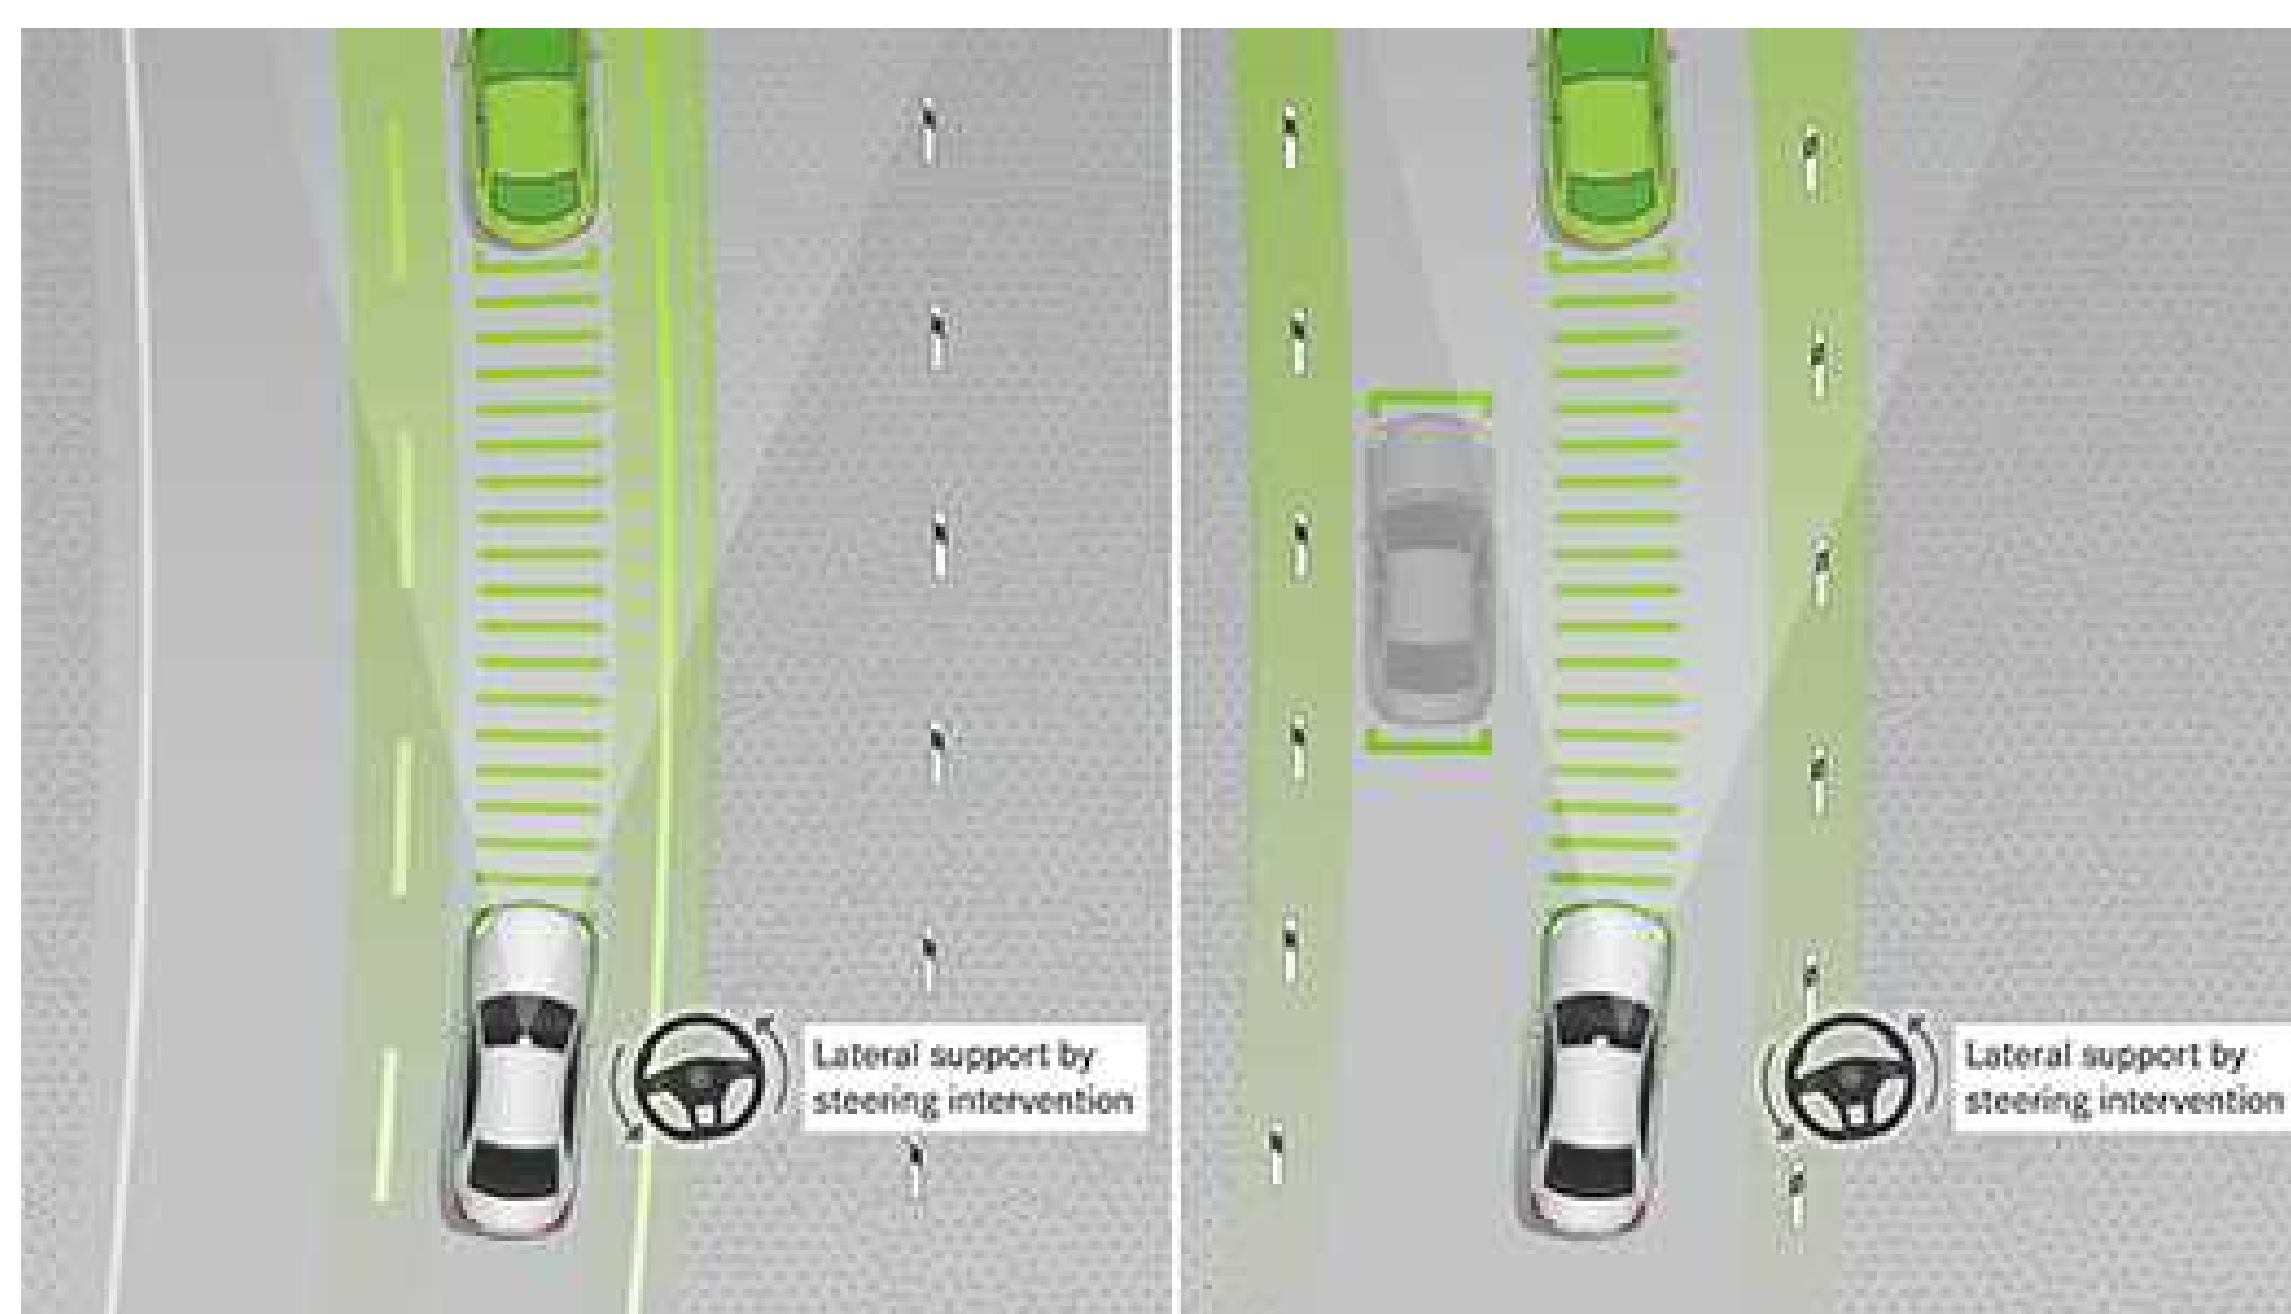

PRE-SAFE predictive occupant protection

A Mercedes-Benz innovation, PRE-SAFE can help detect instability during certain vehicle manoeuvres which suggest a collision or rollover is imminent. It can then tighten the front seat belts, and close the windows and sunroof – all in an effort to better prepare the occupants and their restraint systems in the moments before a possible collision. Available PRE-SAFE PLUS helps prepare the restraints and brakes for a possible rear-end impact.

Advanced collision avoidance

Radar-based Active Brake Assist can alert you to a potential collision with a vehicle ahead, and apply up to 100% braking force autonomously from speeds up to 105 km/h, to help prevent a collision or reduce its severity. ATTENTION ASSIST can automatically alert you if it detects signs of drowsiness on long trips. It continuously monitors up to 70 parameters of driving behavior, and can even help you navigate to a rest area.

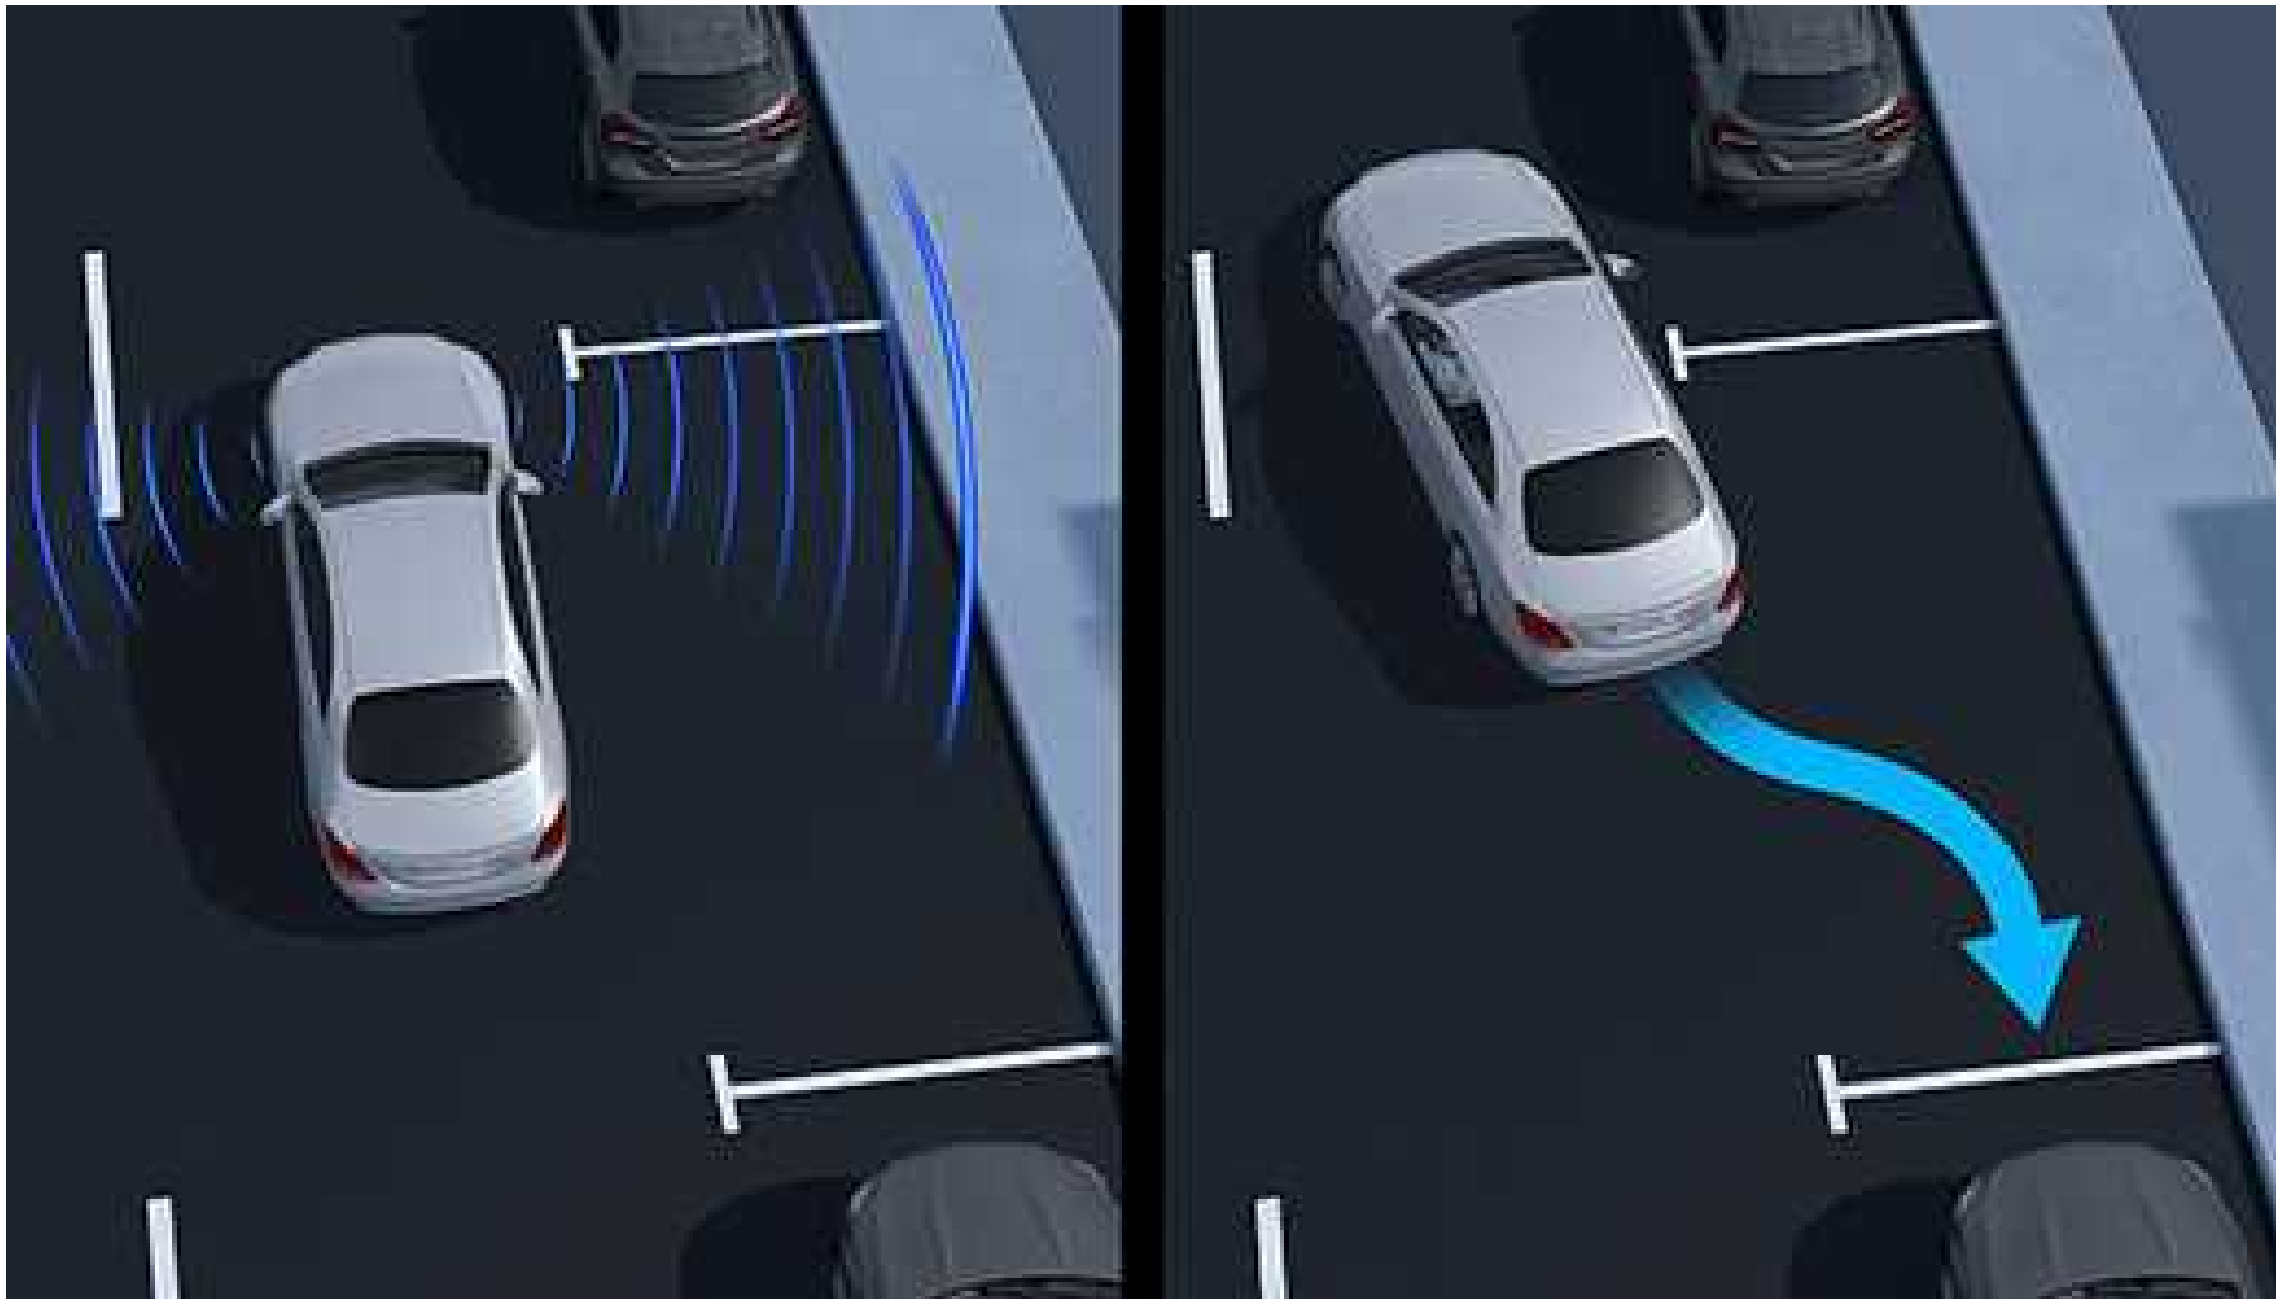

Innovative driving assists

The Intelligent Drive Package helps ease your every move. The radar-based DRIVE PILOT system including Distance Pilot adapts your cruising speed to the traffic flow, even stop-and-go, while Steering Pilot helps keep you centred in your lane. Active Lane Keeping, Blind Spot and new Active Lane Change Assists ease driving on multilane roads. Cross-Traffic Assist and Pedestrian Recognition watch for vehicles and people in your path.

First-of-their-kind advancements

The new E-Class pioneers numerous breakthroughs to help you avoid accidents or lessen their effects. The Intelligent Drive Package adds new Evasive Steering Assist and PRE-SAFE IMPULSE Side – front-seat bolsters that help reduce the effects of a side impact. PRE-SAFE Sound helps prevent hearing damage by preconditioning your ears' natural defenses right before a collision occurs.

Automated parking assists

Parking Assist's ultrasonic sensors help detect obstacles while you're negotiating tight spaces, alerting you with audiovisual indicators in the cabin. Parking Pilot can help you find a parking spot, then expertly steer you in hands-free — like a virtual valet. An available rearview camera shows a live colour view of the area behind your E-Class on the in-dash screen, or take a virtual birds-eye view with the available 360° camera.

Luxurious seating

Heated power front seats include power lumbar support and 3-position memory, along with sensuous tailoring that follows the sculpture of the human form. Available luxuries include Climate Comfort ventilation and Drive-Dynamic multicontour support whose soothing massage feature now includes several “hot stone” treatments. The steering wheel and even the front armrests are available heated as well.

THERMATIC climate control

Dual digital temperature controls allow the driver and front passenger to enjoy personalized comfort. Available dual charcoal filters team with an ionizer to virtually eliminate impurities and odours from the cabin air. An available fragrance atomizer introduces any of five distinctive yet subtle aromas via an LED-backlit vial in the glovebox and special ductwork. The scent won't linger on cabin surfaces or your clothes.

Advanced locking and starting features

From its standard pushbutton KEYLESS-START to its available locking innovations, the E-Class makes getaways easier. Available KEYLESS-GO lets you unlock and lock the car with a touch of a door handle. The available power trunk closer or standard wagon power tailgate can be further enhanced with HANDS-FREE ACCESS, so you can open or close them with just a gentle kick of your foot under the bumper — ideal when your arms are full.

New Touch Control steering wheel

Innovative touchpads elevate the multifunction steering wheel to a new level of user-friendliness. In addition to the familiar fingertip buttons for features like audio and Bluetooth®, smartphone-like pads offer direct control of nearly every cockpit feature. Swiping through menus is easy: Your left thumb operates the menu screen in the gauge cluster, and your right thumb controls the large central display, without taking your hands from the wheel.

COMAND Online navigation with M-B Apps

A stunning 12.3" high-resolution colour display teams with a new touchpad controller on the console to give you intuitive control of audio, navigation, hands-free calling, and more. Standard audio features include Bluetooth® wireless streaming and SiriusXM Radio. Standard COMAND Online includes a variety of useful apps and an advanced navigation system. And standard Apple CarPlay™ and Android Auto integrate your compatible smartphone with the in-car displays.

Available Burmester Premium Sound

One of the most respected makers of handcrafted high-end home audio, Germany's Burmester® has developed a surround-sound system tailored to the E-Class. With 13 high-quality speakers and a 590-watt 9-channel digital amplifier, the system fills the cabin with pure digital surround sound while seamlessly compensating for ambient noise. Exquisite aluminum speaker grilles are as rewarding to the eyes as the option is to the most discerning ears.

Turbocharged Direct Injection power

Advanced engines squeeze more performance from less fuel. In the E 300 4MATIC, a 2.0-litre turbo I-4 outputs a strong 241 hp and 273 lb-ft of torque. The E 400 4MATIC models' biturbo V-6 develops an eager 329 hp and 354 lb-ft. Rapid-multispark ignition and high-pressure Direct Injection can fine-tune their response with millisecond speed. An ECO Start/Stop system can save fuel and emissions at stoplights.

Mercedes-AMG E 43 V6 biturbo engine

An AMG-enhanced 3.0L biturbo V-6 generates 396 hp and 384 lb-ft of torque. Along with its millisecond-quick multispark ignition and higher-pressure Direct Injection, beneath its red-striped engine cover are larger turbos and numerous racing-bred AMG technologies. Among them, patented NANOSLIDE cylinder walls are plasma-sprayed to a super-hard, mirror-smooth finish that cuts friction for greater performance, efficiency and endurance.

9-speed automatic transmission with shift paddles

With a greater range and shorter steps between gears, the new 9G-TRONIC automatic offers sportier, more seamless power delivery. Lighter and more versatile, it enhances comfort, efficiency and acceleration at any speed. An AMG-enhanced 9G-TRONIC delivers even quicker response in the Mercedes-AMG E 43 4MATIC. An electronic selector and shift paddles on the steering wheel offer sporty control.

DYNAMIC SELECT

DYNAMIC SELECT lets you transform the car's character with the flip of a console switch. Four modes — ECO, Comfort, Sport and Sport+ — alter the throttle response, shift points, and steering effort, plus the ECO Start/Stop system and available AIR BODY CONTROL suspension. A fifth "Individual" mode lets you create a mode of your own, including the option of 100% manual shifting.

Versatile suspensions

Ride and handling are usually a compromise, but not in the E-Class. Its selective-damping suspension reads the road and adjusts the shock absorbers at each wheel in real time. In corners, it instantly firms up on rough roads, it's calm and composed. Available new AIR BODY CONTROL is an adaptive, multimode, self-leveling air suspension. It's also the brilliant basis for the sport suspension in the Mercedes-AMG E 43 4MATIC.

4MATIC all-wheel drive

Standard 4MATIC all-wheel drive adds to your driving confidence on any road, in any season. Its 4-wheel Electronic Traction System (4-ETS) continually sends power to the wheels with the best grip, while its lightweight, nimble design enhances handling and fuel efficiency year-round. AMG Performance 4MATIC is standard on the Mercedes-AMG E 43 4MATIC.

The Mercedes-AMG E 43 4MATIC Sedan

From its red-topped biturbo V-6 to its 19" AMG wheels, the AMG E 43 4MATIC is more than a refreshing take on the luxury sport sedan. It's a powerful expression of AMG performance. Enhanced power, handling and responsiveness are wrapped in distinctive style, with bold gloss black exterior elements and an exclusively appointed cockpit that's outfitted to elevate your passion for driving.

Mercedes-AMG E 43 V6 biturbo engine

An AMG-enhanced 3.0L biturbo V-6 generates 396 hp and 384 lb-ft of torque. Beneath its red-striped engine cover are larger turbos and numerous racing-bred AMG technologies. Among them, patented NANOSLIDE cylinder walls are plasma-sprayed to a super-hard, mirror-smooth finish that cuts friction for greater performance, efficiency and endurance.

Performance chassis and drivetrain

AMG Performance 4MATIC features a 31:69 rear-biased torque split, for quicker launches with agile handling. AMG-calibrated AIR BODY CONTROL employs quick-responding electronically controlled air spring-struts at all four 19" or optional 20" wheels. It offers multiple modes, 4-wheel level control, and automatic lowering at higher speeds to enhance stability, aerodynamics and efficiency.

Premium Package

A generous suite of premium luxuries you'll soon consider must-haves, making every drive more enjoyable from start to finish.

Panoramic sunroof

Standard on Mercedes-AMG E 43 4MATIC Sedan

This expansive power glass sunroof lets passengers in the first and second rows enjoy a majestic view of blue skies or a blanket of stars. The front section can either tilt up for ventilation or slide over the rear panel for an open-air feeling. A sliding shade helps filter out the sun's rays.

Parking Pilot with Parking Assist PARKTRONIC

Standard on E 400 4MATIC models and Mercedes-AMG E 43 4MATIC

The Parking Assist PARKTRONIC system includes sensors that help you size up parallel-parking spaces as you drive by them. Parking Pilot then expertly steers the car into the space. During any low-speed manoeuvre, Parking Assist PARKTRONIC's ultrasonic sensors in the front and rear bumpers help detect nearby objects within the system's field of view. Audible signals and displays in the cabin help you navigate tight spaces with confidence.

Burmester Surround Sound System

High-end home audio maker Burmester® has tailored a sound system to the E-Class. A 590-watt 9-channel digital amplifier and 13 high-quality speakers fill the cabin with pure digital surround sound while seamlessly compensating for ambient noise. Exquisitely detailed aluminum speaker grilles reward the eyes as well.

12.3" digital instrument cluster display

Standard on Mercedes-AMG E 43 4MATIC

In addition to the standard 12.3" central display, a second 12.3" widescreen serves as a fully digital/graphical instrument cluster. Its customizable displays include analogue-style gauges and a large multifunction screen with illustrated and animated menus for vehicle information, settings and driver-assistance features. Multiple display styles can be selected by the driver.

Premium Package cont.

A generous suite of premium luxuries you'll soon consider must-haves, making every drive more enjoyable from start to finish.

Silver shift paddles

Standard on E 400 4MATIC models and Mercedes-AMG E 43 4MATIC

An electroplated finish gives the aluminum shift paddles an even more satisfying feel, as well as a richly sporty appearance.

Heated steering wheel

Standard on E 400 4MATIC models / Not available on Mercedes-AMG E 43 4MATIC

Heating elements beneath the steering wheel's Nappa leather trim rapidly take the chill out of your hands on a cold morning. After a few minutes, the heating level is automatically reduced to maintain lasting comfort.

Rearview camera

Standard on E 400 4MATIC models and Mercedes-AMG E 43 4MATIC

For a better view of what's directly behind your vehicle when reversing, a wide-angle camera displays a live view on the in-dash COMAND screen. Active parking guidelines on the screen help you back into a parking space.

KEYLESS-GO

Originally pioneered by Mercedes-Benz, KEYLESS-GO lets you unlock your car and drive off without removing the SmartKey from your pocket or purse. A touch of any exterior door handle unlocks and locks the car, and you start the engine with just the push of a button in the dashboard.

Premium Package cont.

A generous suite of premium luxuries you'll soon consider must-haves, making every drive more enjoyable from start to finish.

EASY-PACK power trunk closer

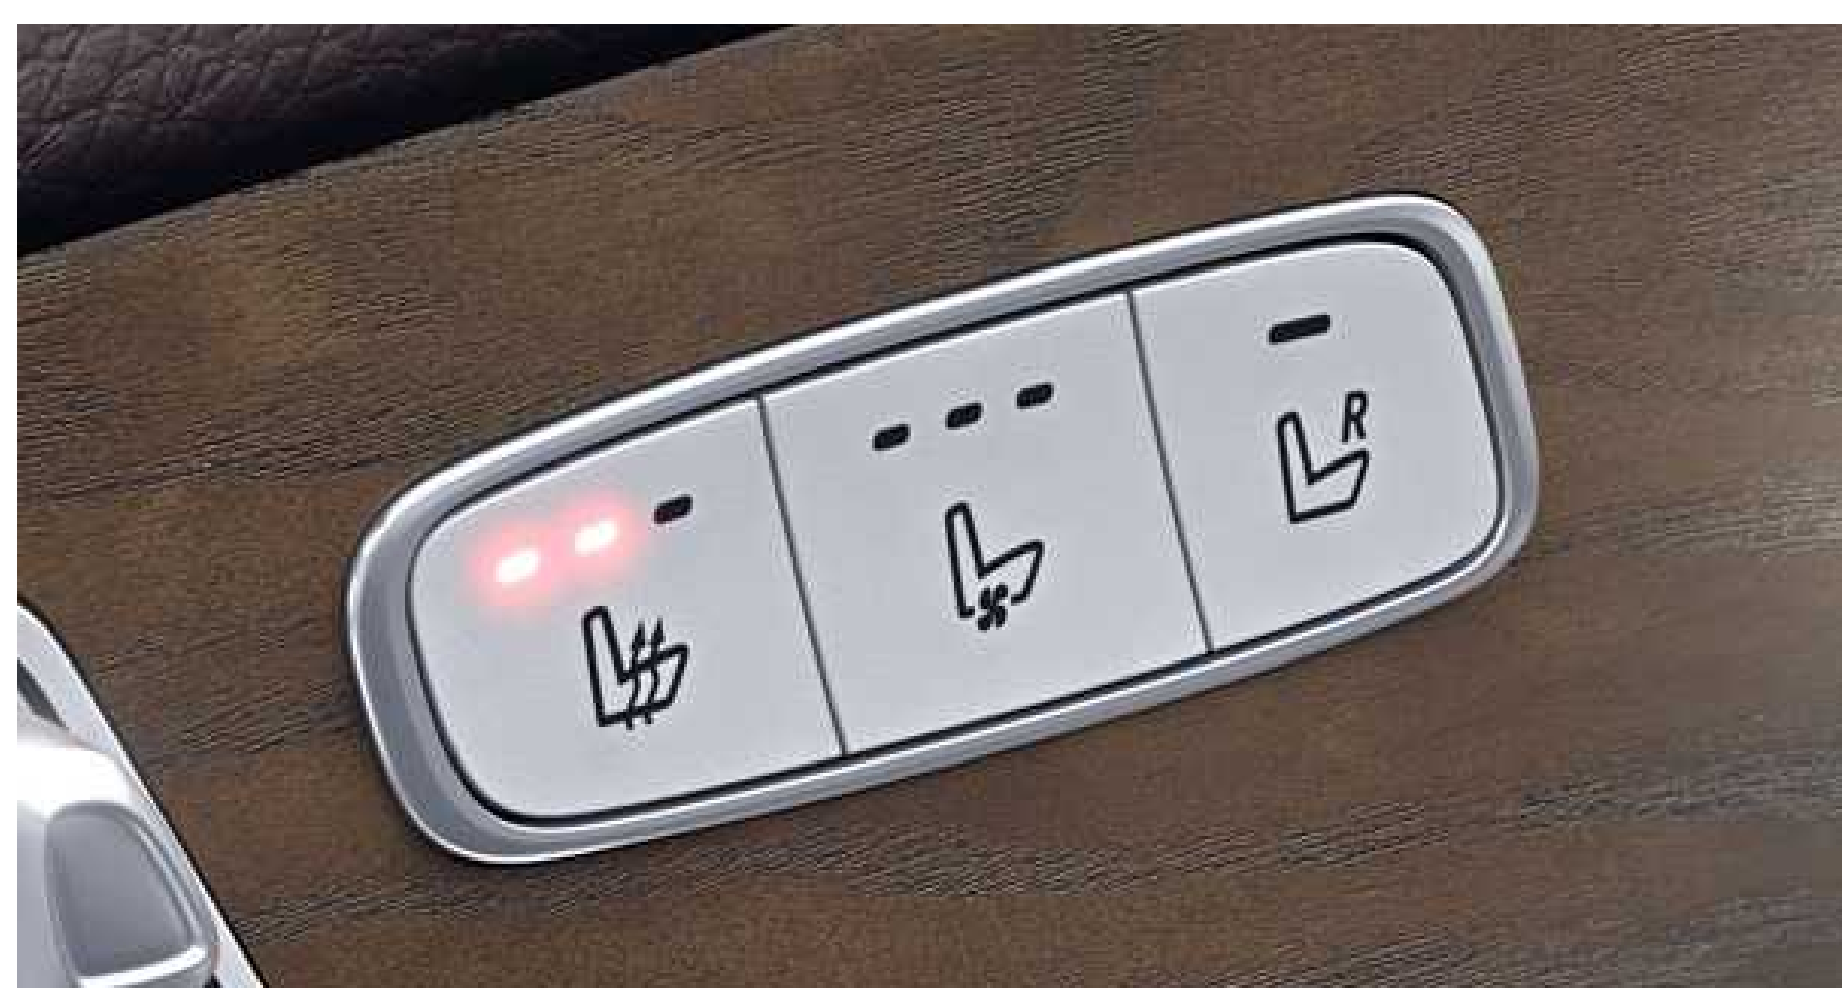

Power tailgate standard on E 400 4MATIC Wagon

For added convenience in the rain or with an armful of packages, you can fully open the trunk via a switch on the driver's interior door panel or a button on the SmartKey remote. Press a button on the driver's door or the underside of the trunk lid, and it powers itself closed. A sensor automatically stops the lid if it detects an obstruction while closing.

HANDS-FREE ACCESS

An enhancement to make the EASY-PACK trunk or tailgate opener even easier to operate, HANDS-FREE ACCESS opens or closes the sedan trunk or wagon tailgate with a gentle "kick" of your foot under the rear bumper.

Enhanced heated front seats

Included only on E 400 4MATIC models and Mercedes-AMG E 43 4MATIC / Available on E 300 4MATIC in Exclusive Package

An added enhancement to the standard heated front seats, this rapid-warming feature quickly replaces the chill of a cold day or evening with nearly instant heating of the seat. The feature automatically switches to the normal heating settings as soon as the desired temperature is reached.

Heated front armrests

Included only on E 400 4MATIC models and Mercedes-AMG E 43 4MATIC / Available on E 300 4MATIC in Exclusive Package

Providing the same soothing benefits as heated seats to your arms and elbows, via the same controls, electric heating warms the front door and centre armrests.

Premium Package cont.

A generous suite of premium luxuries you'll soon consider must-haves, making every drive more enjoyable from start to finish.

Heated rear seats

Included only on Mercedes-AMG E 43 4MATIC / Available on all models as a standalone option

Electrically heated outboard rear seats offer soothing warmth with individualized comfort. Three levels of warming automatically step down after several minutes, while automatic shutoff means that the driver need not worry if the passengers forget to turn them off.

Drive-Dynamic multicontour front seats

Included only on Mercedes-AMG E 43 4MATIC / Available on all other models in Exclusive Package

Adjustable side, lumbar and shoulder supports let you custom-tailor your seating comfort. Eight soothing and rejuvenating massage modes include two that combine massage and heat for a “hot stone” effect worthy of a high-end spa. Active side bolsters can automatically increase lateral support when cornering – or even in the event of a potential accident.

Power rear-window sunshade

Included only on Mercedes-AMG E 43 4MATIC / Available on E 300 4MATIC and E 400 4MATIC Sedans as a standalone option.

Help shade both the cabin and your rear-seat passengers from direct sunlight with a fine-mesh screen that rises in front of the rear window at the touch of a button. It's designed to help keep the sun's rays at bay, while its see-through design helps preserve your rearward vision.

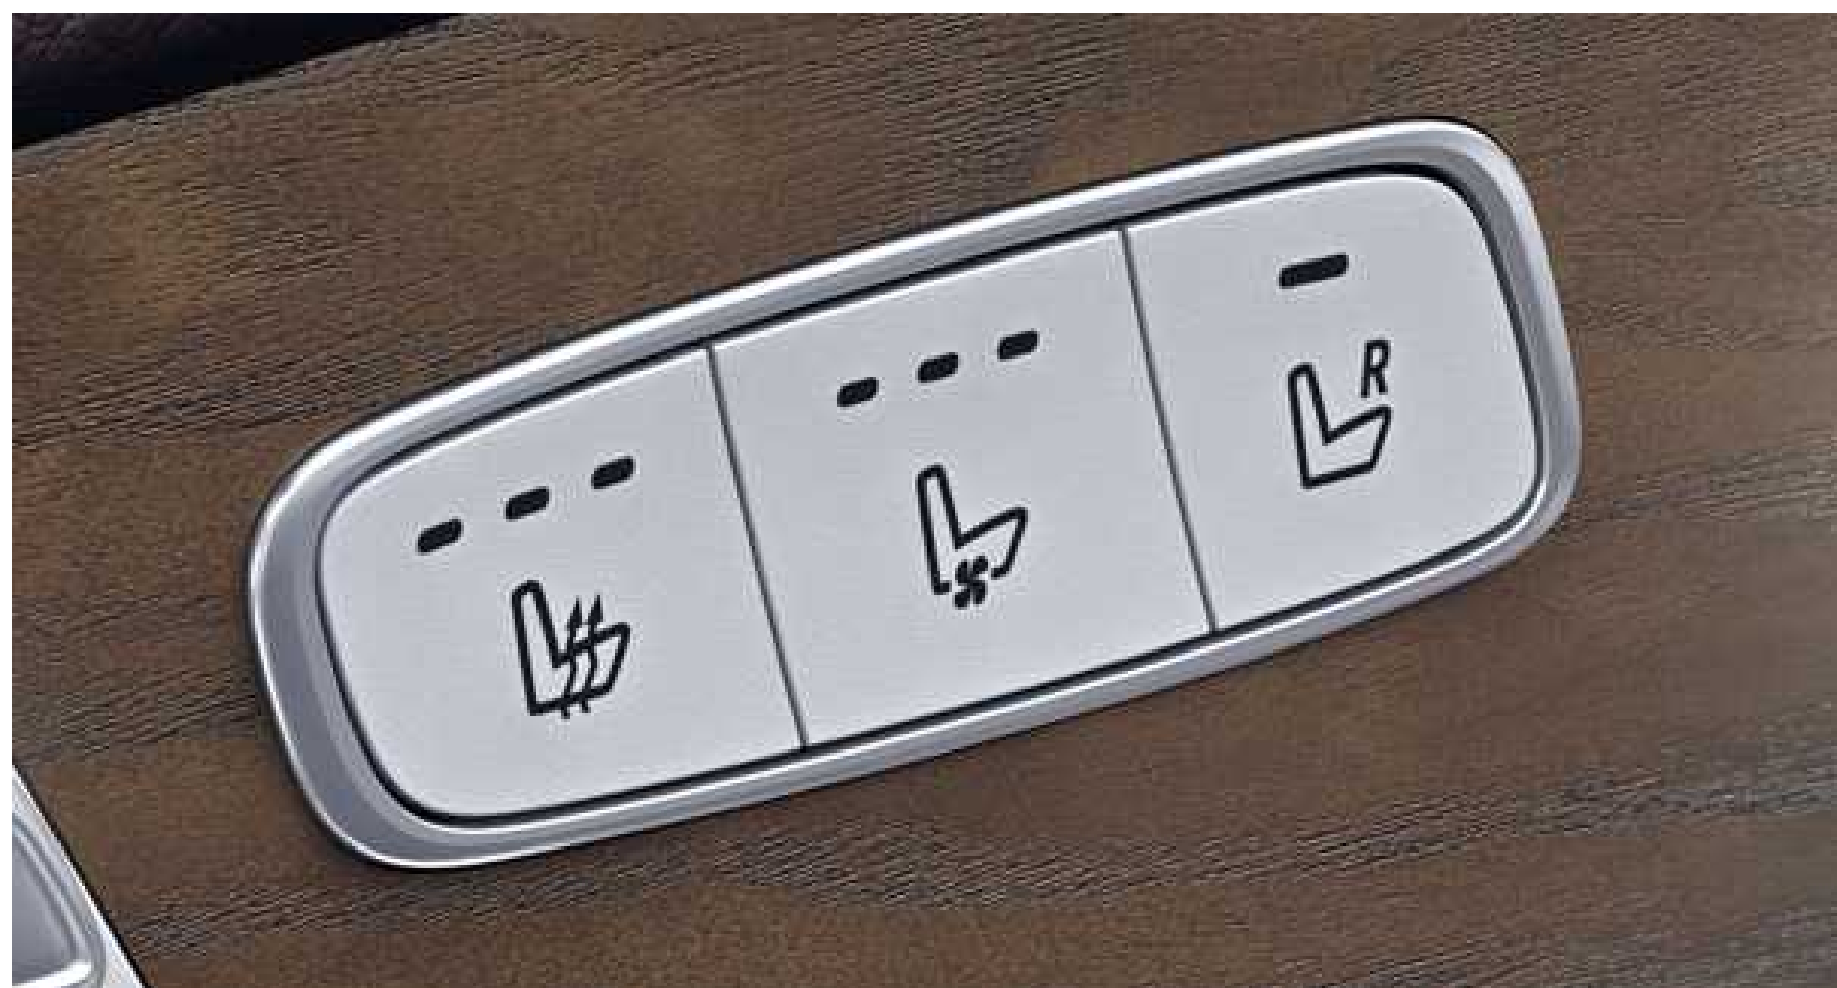

Roller blinds for rear side windows

Included only on E 400 4MATIC Wagon and Mercedes-AMG E 43 4MATIC Sedan

Manually extendable fine-mesh curtains screen the sun's rays in the 2nd-row seating area while still allowing passengers to see out.

Premium Package cont.

A generous suite of premium luxuries you'll soon consider must-haves, making every drive more enjoyable from start to finish.

Climate Comfort front seats

Included only on Mercedes-AMG E 43 4MATIC / Available on all models as a standalone option

Climate Comfort seats are a luxury you'll soon consider a necessity. Three levels of heating and cooling ventilation are offered. By gently circulating air through perforations in the seat and backrest, the seats help keep you cooler and your clothes dryer during warmer months. On cold or damp days, using both the ventilation and heating features together can circulate the seat heating more quickly, to help keep you warm and dry.

Technology Package

State-of-the-art features to guide your way in any direction, at any time of day or night.

Available on all models / Requires Premium Package

360° camera

An advanced 360° camera system uses cameras in all four directions to compose a single, live overhead view of your immediate surroundings. Displayed on the central in-dash screen during low-speed manoeuvres, it helps you avoid obstacles as you negotiate tight spaces, whether you're moving forward or backing up.

Head-Up Display

The Head-Up Display projects a 21cm-wide virtual image that appears to “float” ahead of the windshield. The high-resolution readout places useful information in the driver's natural field of vision, with minimal “eyes off the road.” The full-colour graphical display can show the navigation info, driving speed and more. Its height adjustment is stored in the seat memory, while the display adapts automatically to ambient light.

Active MULTIBEAM LED Headlamps

Industry-first MULTIBEAM technology takes the innovations of active LED headlamps to a new dimension. Continuous camera-scanning of the road ahead allows the angle and pattern of the beams to be adapted earlier and more precisely. The active light function can illuminate upcoming bends before the driver turns the steering wheel.

Adaptive Highbeam Assist

Engineered to maximize illumination of the roadway without creating glare for other drivers, Adaptive Highbeam Assist automatically operates your high-beam headlamps. The system uses input from a special camera to determine the distance to both oncoming vehicles and those ahead of you.

Luxury Package

A look that evokes the rich tradition of the Mercedes-Benz marque.

Available on E 300 4MATIC and E 400 4MATIC models

Luxury styling

A fresh rendering of the classic Mercedes-Benz grille conveys the refined aura of the E-Class. Its stand-up Three-Pointed Star leads a proud tradition from its command post atop the hood, while elegantly streamlined lower bodywork is set off by brilliant chrome highlights.

18" twin 5-spoke wheels

Elegantly detailed 18" wheels feature five pairs of broad, flat spokes with chiseled sides. They're finished in glistening silver and equipped with all-season runflat tires.

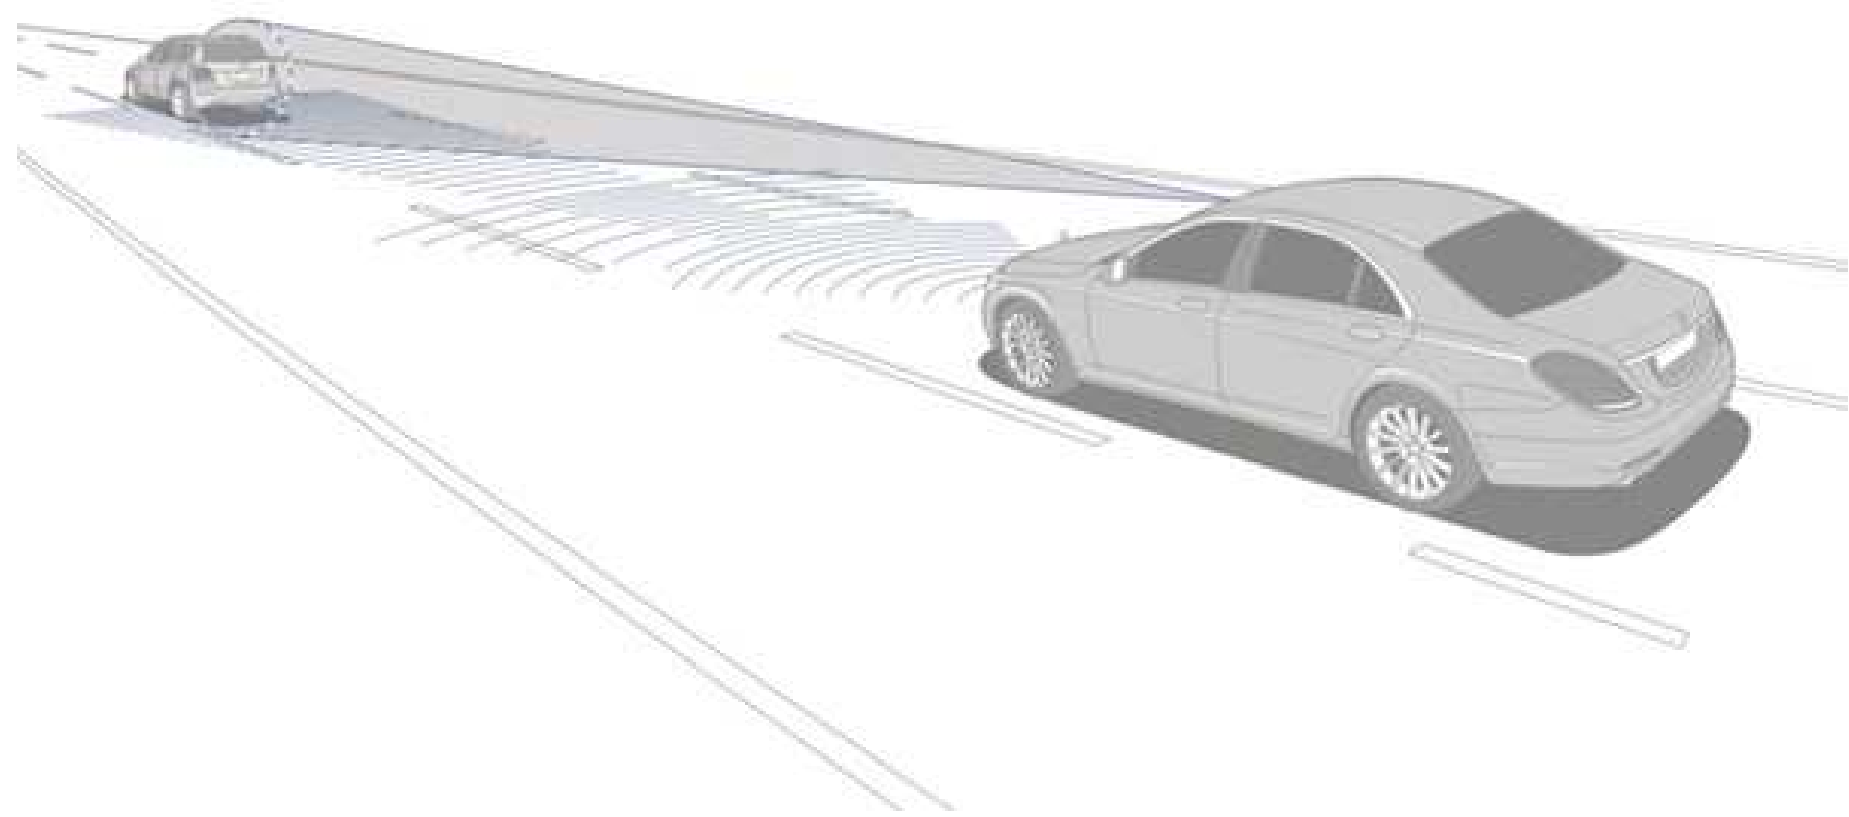

Comfort suspension

Engineered to balance performance and refinement, the Luxury Package suspension is tuned for silky comfort with precise response. The Comfort suspension's ride height allows slightly greater ground clearance than the standard lowered suspension.

Intelligent Drive Package

Innovations for added security and convenience on the road.

Available on all models / Requires Premium Package

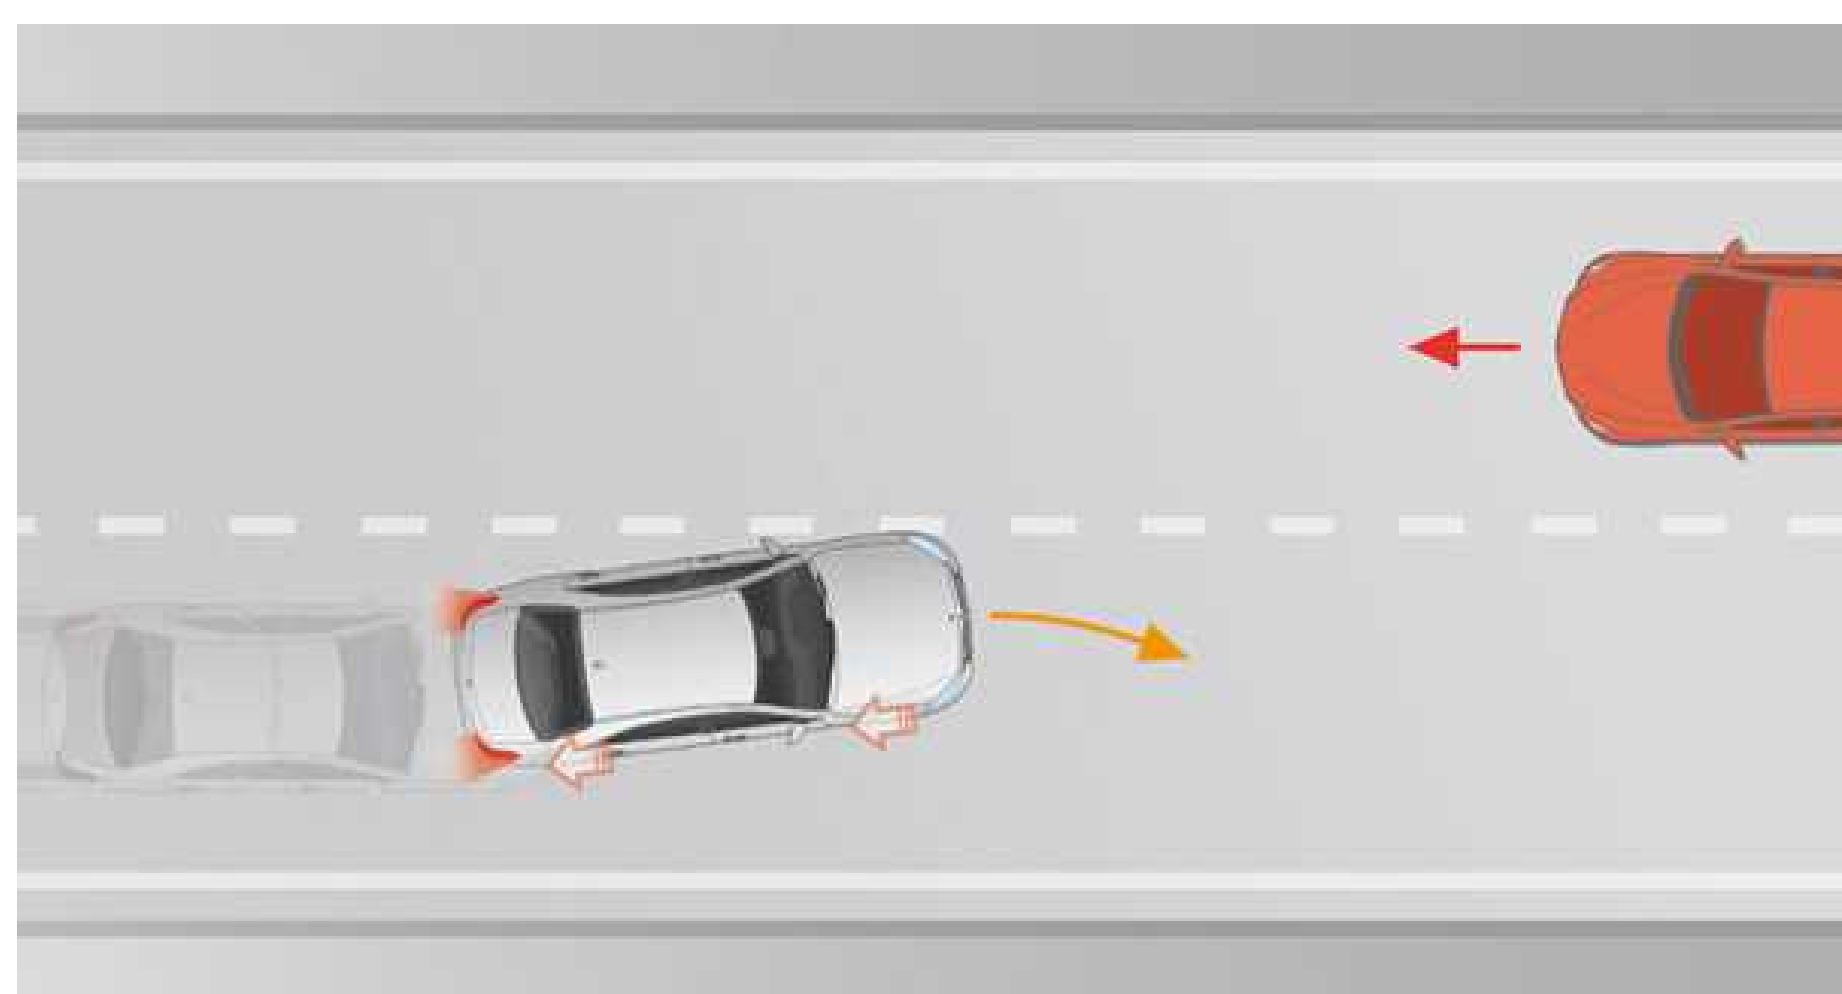

Distance Pilot DISTRONIC with Steering Pilot

This radar-based cruise control adapts your set speed to the flow of traffic ahead, automatically slowing until your path is clear again. If the vehicle ahead slows to a stop, Distance Pilot DISTRONIC can brake your car to a full halt, then automatically resume when traffic starts moving. Steering Pilot helps the driver keep the vehicle centred in its lane while cruising on straight roads or along gentle curves.

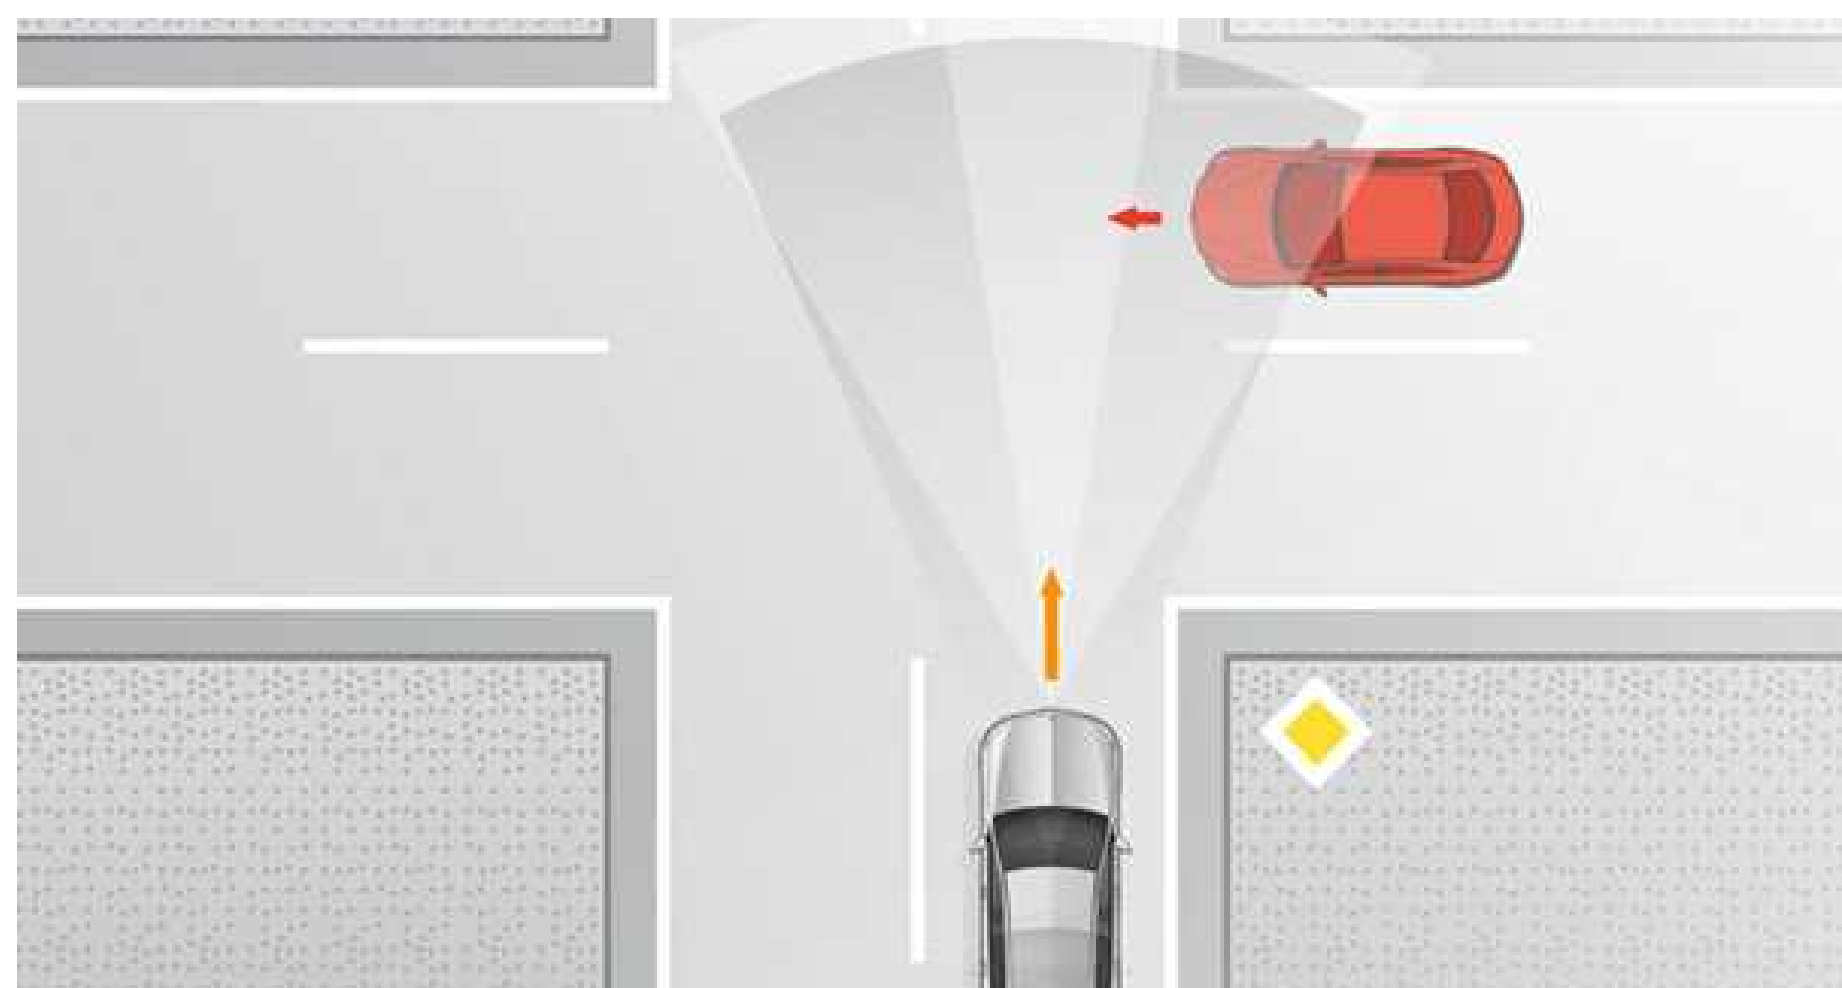

Active Blind Spot Assist

Even at speeds below 10 km/h, radar technology helps sense when a vehicle enters your blind-spot area. The system alerts you by illuminating a red icon in the side mirror. Active Blind Spot Assist also issues an audible warning if you activate a turn signal while a vehicle has been detected. And if you begin to change lanes, advanced active technology can help guide the car back.

Active Lane Keeping Assist

Active Lane Keeping Assist monitors ordinary road markings and helps detect unintended drifting off course. The system alerts you by vibrating the steering wheel. If the driver continues to drift, it can apply the brake to a single rear wheel to help guide the car back into its lane.

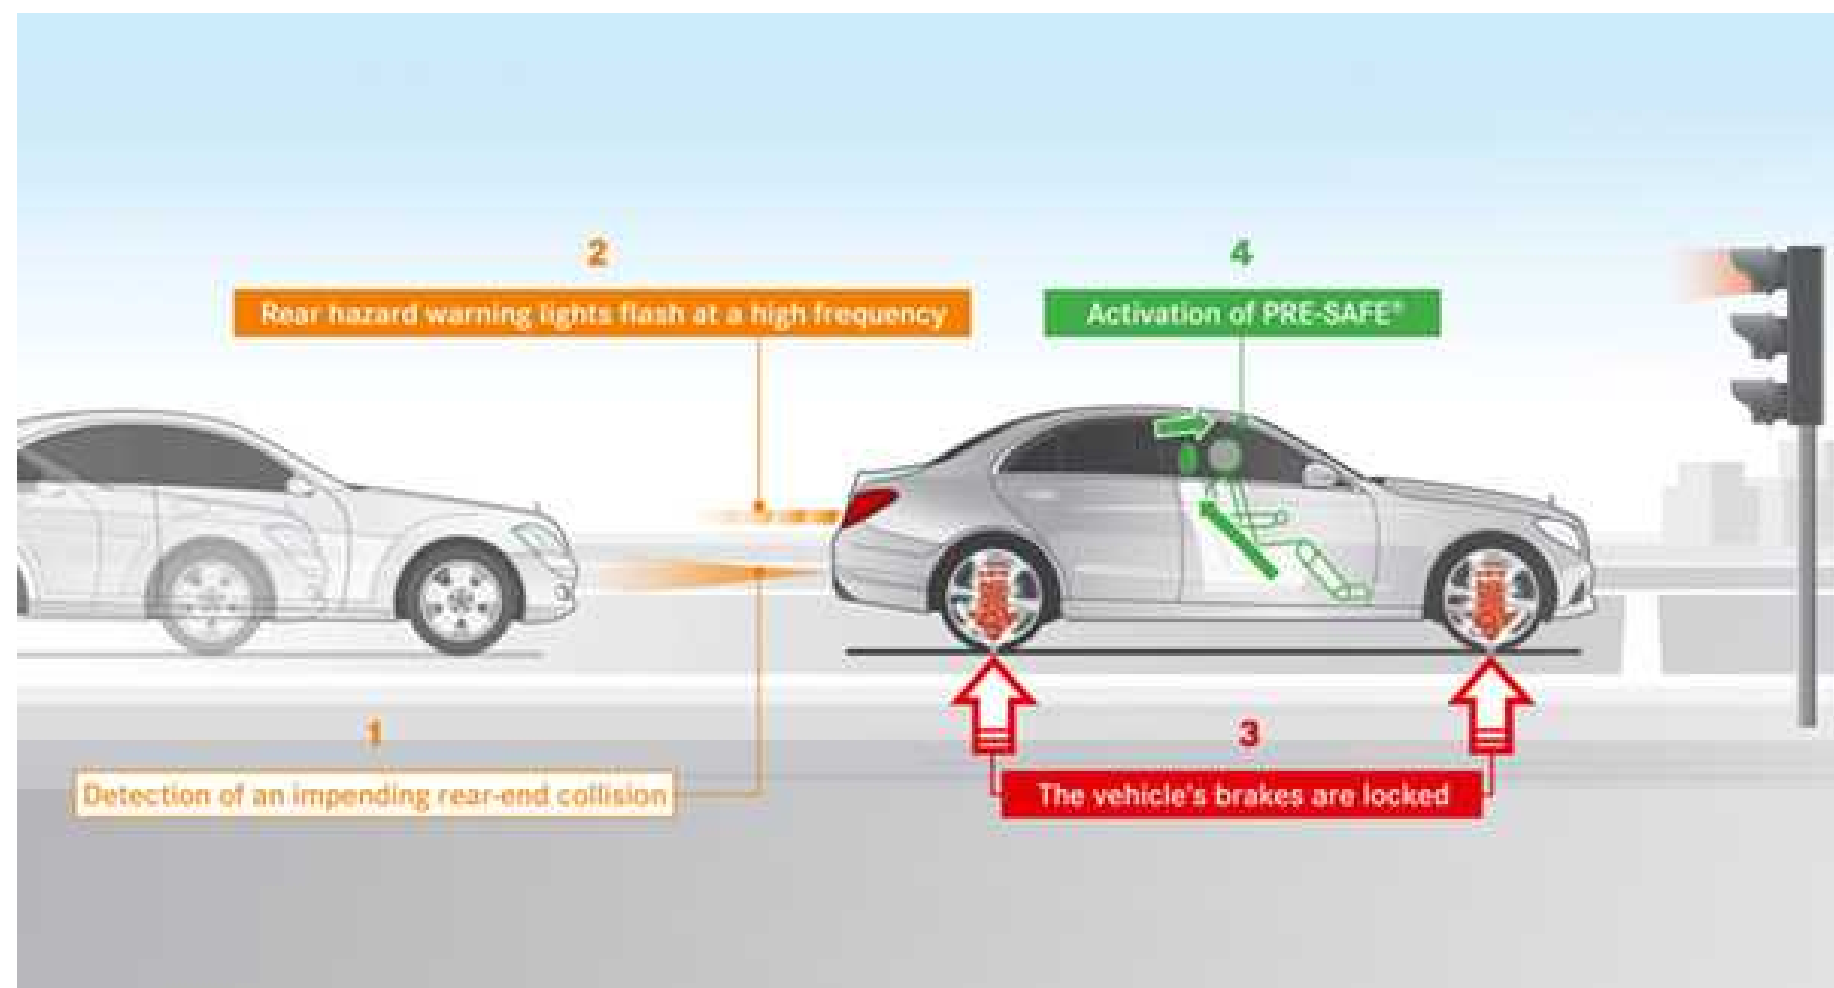

Active Brake Assist with Cross-Traffic Assist

Even when you're not using the functions of DRIVE PILOT, Cross-Traffic Assist helps detect a potential collision with vehicles approaching from either side of an upcoming intersection and alerts the driver. As soon as the driver starts to brake, Active Brake Assist precisely applies the maximum brake pressure needed to help avoid a collision.

Intelligent Drive Package cont.

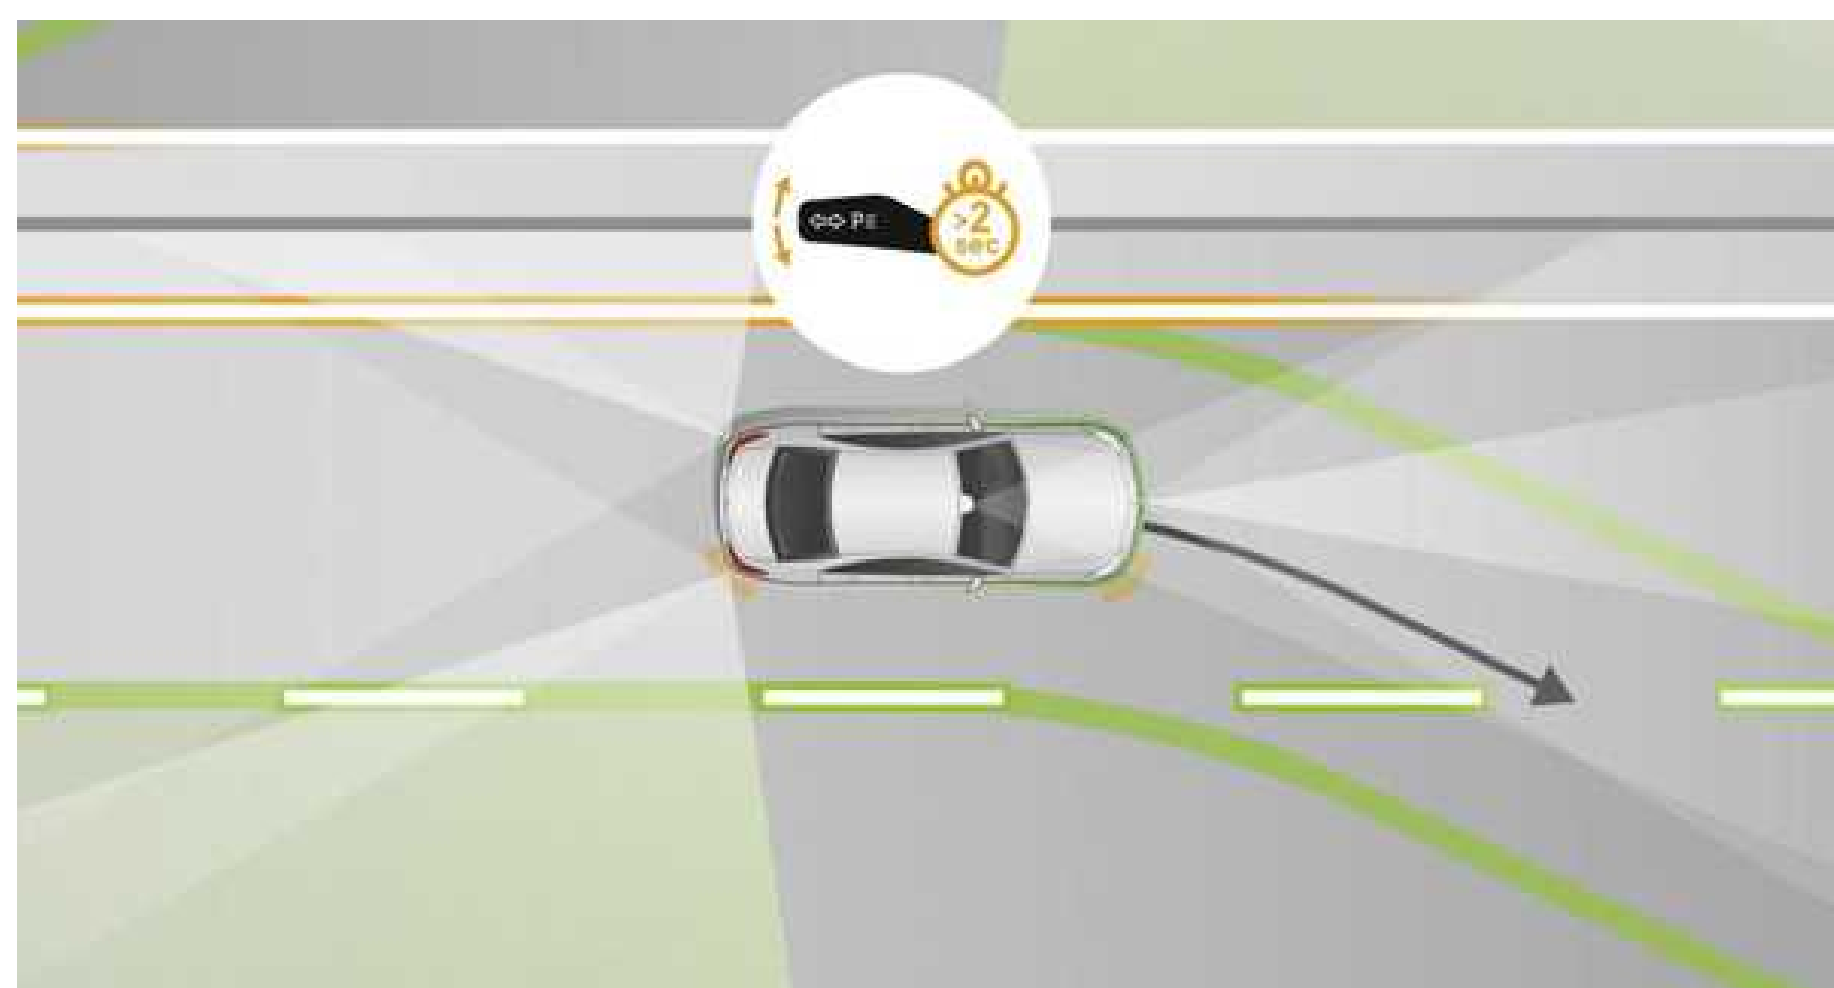

Innovations for added security and convenience on the road.

Available on all models / Requires Premium Package

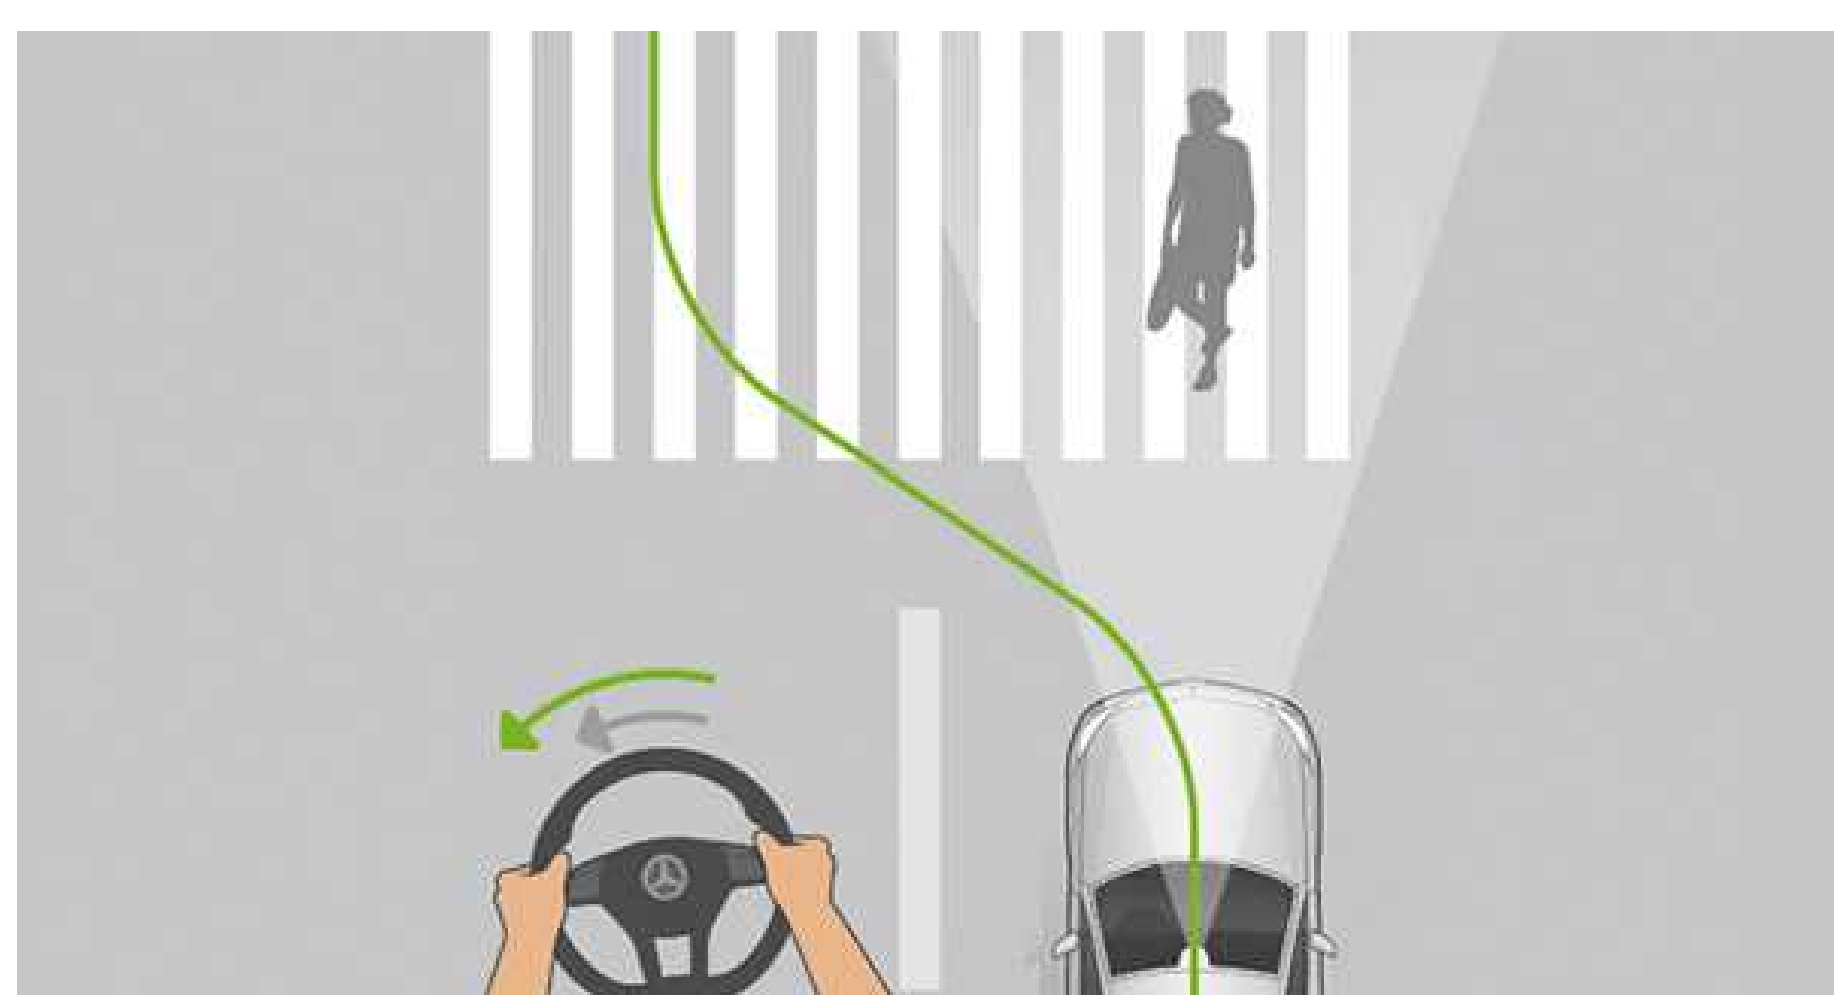

PRE-SAFE PLUS

An enhancement to the groundbreaking PRE-SAFE system helps protect the occupants during a rear-end collision. A radar sensor in the rear bumper helps detect an impending impact, engaging the features of PRE-SAFE to better prepare the front-seat occupants and their restraint systems. It can also firmly apply and hold the brakes, to help reduce peak loads on all occupants – as well as the risk of a secondary collision.

Active Lane Change Assistant

When cruising with Distance Pilot DISTRONIC and Steering Pilot engaged, this innovation allows the driver to execute a lane change automatically, simply by activating a turn signal for at least two seconds. The system is designed to sense when you're traveling on a multilane highway, and whether the area across the dashed lane marking is clear for a lane-change, then precisely steer into the adjacent lane.

Evasive Steering Assist

If the driver initiates an evasive maneuver while the vehicle's radar and camera systems detect an impending risk of collision, this breakthrough system instantly acts to assist the driver. If a clear evasive path is detected, the system provides the optimum steering force to execute the move, then helps ease the straightening of the vehicle after the manoeuvre.

PRE-SAFE IMPULSE Side

In a side collision, where the helpful effect of front and rear crumple zones cannot be applied, PRE-SAFE IMPULSE Side is a pioneering system that helps provide a similar reduction in peak forces. When the systems sensors detect an impending side impact, a chamber in the front-seat side bolster nearest the door rapidly inflates, to help move the occupant further from the door while also helping reduce the relative speed between the car's side structure and occupant's torso.

AMG Driver's Package

Turn up the heat a little further on your Mercedes-AMG E 43 4MATIC Sedan.

Available only on Mercedes-AMG E 43 4MATIC Sedan

20" AMG multi-spoke bi-colour wheels

Large in size yet light in weight, the multi-spoke design and Gloss Black inlays of these 20" AMG wheels perfectly evoke the car's precisely tuned, turbocharged performance.

Summer performance tires

Summer performance tires feature a tread design and rubber compound optimized for excellent handling and launch grip on dry roads. They're not recommended for winter driving.

AMG Performance steering wheel

Pronounced contouring and thick padding are enhanced by racing-inspired DINAMICA side grips, along with top and flattened bottom sections hand-stitched in Nappa leather. A 12 o'clock band is stitched into the rim as well.

Exclusive Package

Lavish indulgence from the moment you open the door.

Available only on E 300 4MATIC and E 400 4MATIC models / Requires Premium Package

Leather upholstery

Included only on E 300 4MATIC Sedan. Standard on E 400 4MATIC Sedan and Wagon

Supple, richly grained double-stitched leather is hand-fitted to the seating surfaces and head restraints. Lateral stitching of the seat inserts further enhances their sporty, finely tailored style.

Nappa leather upholstery

Included only on E 400 4MATIC models

Extraordinarily supple, smooth-grain Nappa leather is hand-fitted to the seating surfaces and head restraints. Carefully tailored stitching flows curvaceously up the seatback, in perfect concert with the natural human form.

Drive-Dynamic multicontour front seats

Included on E 300 4MATIC and E 400 4MATIC models

Adjustable side, lumbar and shoulder supports let you custom-tailor your seating comfort. A massage feature helps prevent fatigue on longer drives, with settings ranging from gentle to refreshingly vigorous. Active side bolsters can automatically increase lateral support when cornering – or even in the event of a potential accident.

Illuminated door sill panels

Illuminated logos in the front door sills welcome you into your E-Class every time you open a front door.

Exclusive Package cont.

Lavish indulgence from the moment you open the door.

Available only on E 300 4MATIC and E 400 4MATIC models / Requires Premium Package

Luxury front head restraints

Adjustable side wings further enhance the comfort and support of the front-seat head restraints, especially for a resting passenger.

ARTICO leather dashboard

Included only on E 400 4MATIC models

ARTICO, a leather-like material with a rich look yet greater resistance to the ravages of sunlight, is carefully fitted to the dashboard and accented with elegant top-stitching.

Enhanced heated front seats

Included only on E 300 4MATIC / Available on E 400 4MATIC models and Mercedes-AMG E 43 4MATIC in Premium Package

An added enhancement to the standard heated front seats, this rapid-warming feature quickly replaces the chill of a cold day or evening with nearly instant heating of the seat. The feature automatically switches to the normal heating settings as soon as the desired temperature is reached.

Heated front armrests

Included only on E 300 4MATIC / Available on E 400 4MATIC models and Mercedes-AMG E 43 4MATIC in Premium Package

Providing the same soothing benefits as heated seats to your arms and elbows, via the same controls, electric heating warms the front door and center armrests.

Sun Protection Package

Added privacy and shade, whether parked or on the road.

Available only on E 300 4MATIC and E 400 4MATIC Sedans / Included in Premium Package on E 400 4MATIC Wagon and Mercedes-AMG E 43 4MATIC Sedan

Power rear-window sunshade

Available on Mercedes-AMG E 43 4MATIC in Premium Package

Help shade both the cabin and your rear-seat passengers from direct sunlight with a fine-mesh screen that rises in front of the rear window at the touch of a button. It's designed to help keep the sun's rays at bay, while its see-through design helps preserve your rearward vision.

Roller blinds for rear side windows

Available on Mercedes-AMG E 43 4MATIC and E 400 4MATIC Wagon in Premium Package

Manually extendable fine-mesh curtains screen the sun's rays in the 2nd-row seating area while still allowing passengers to see out.

Air Balance Package

A thoughtful group of innovations to help cleanse the cabin air.

Cabin-air purification system

Dual activated charcoal filters team with an ionizer that uses an electrical charge to create the same fresh-air sensation you experience after a summer storm. Airborne impurities and odours are virtually eliminated from the cabin, to provide air quality that’s more enjoyable and healthier – especially for those with asthma or allergies.

Cabin fragrance system

Featuring an elegant, LED-backlit vial in the glovebox and its own ductwork, a fragrance atomizer offers an added dimension of cabin ambience. Any of four distinctive yet subtle aromas are gently atomized into the cabin at periodic intervals, yet won’t linger on cabin surfaces or clothing. The vial is easily replaced when you’d like to change scents, or you may fill it with your own favorite fragrance.

Standalone Options

Make your E Class your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

Heated rear seats

E 300 4MATIC requires leather upholstery / Available on Mercedes-AMG E 43 4MATIC only in Premium Package

Electrically heated outboard rear seats offer soothing warmth with individualized comfort. Three levels of warming automatically step down after several minutes, while automatic shutoff means that the driver need not worry if the passengers forget to turn them off.

18" AMG 5-spoke wheels

Not available with Luxury Package or on Mercedes-AMG E 43 4MATIC

Iconic 18-inch AMG alloy wheels feature a 5-spoke design with recessed Titanium Grey ribs. They're equipped with all-season runflat tires.

19" AMG twin 5-spoke wheels

Not available with Luxury Package or on Mercedes-AMG E 43 4MATIC

The classic AMG twin 5-spoke wheel design is given a fresh twist with each pair of spokes sculpted into an arched, tapering fork. Substantially sized for even sharper response, they're fitted with all-season runflat tires.

20" AMG twin 5-spoke wheels

Available only on Mercedes-AMG E 43 4MATIC

Ultrathin asymmetrical spokes are set off by Titanium silver inlays for a look that's subtly confident yet decisively bold, especially at their 20" size.

Standalone Options cont.

Make your E Class your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

20" AMG twin 5-spoke bi-colour wheels

Available only on Mercedes-AMG E 43 4MATIC

Along with a substantial 20" size, AMG twin 5-spoke wheels feature gloss black inlays. The black accents between each pair of spokes extend all the way to the perimeter for a distinctive effect.

20" AMG multispoke wheels

Available only on Mercedes-AMG E 43 4MATIC

Large in size yet light in weight, the multispoke design and Titanium Silver inlays of these 20" AMG wheels perfectly evokes the car's precisely tuned, turbocharged performance.

Carbon fibre exterior mirrors

Available only on Mercedes-AMG E 43 4MATIC

Genuine carbon fibre brings the rich racing heritage of the Mercedes-AMG E 43 4MATIC to its side mirror covers.

Night Package

Available only on Mercedes-AMG E 43 4MATIC

The Night Package adds even more jet-black accents to the menacing look of the Mercedes-AMG E 43 4MATIC. The front apron cross-strut and air-intake fins, as well as the rear valance insert, are all finished in deep gloss black. Black chrome tailpipes complete the transformation.

Standalone Options cont.

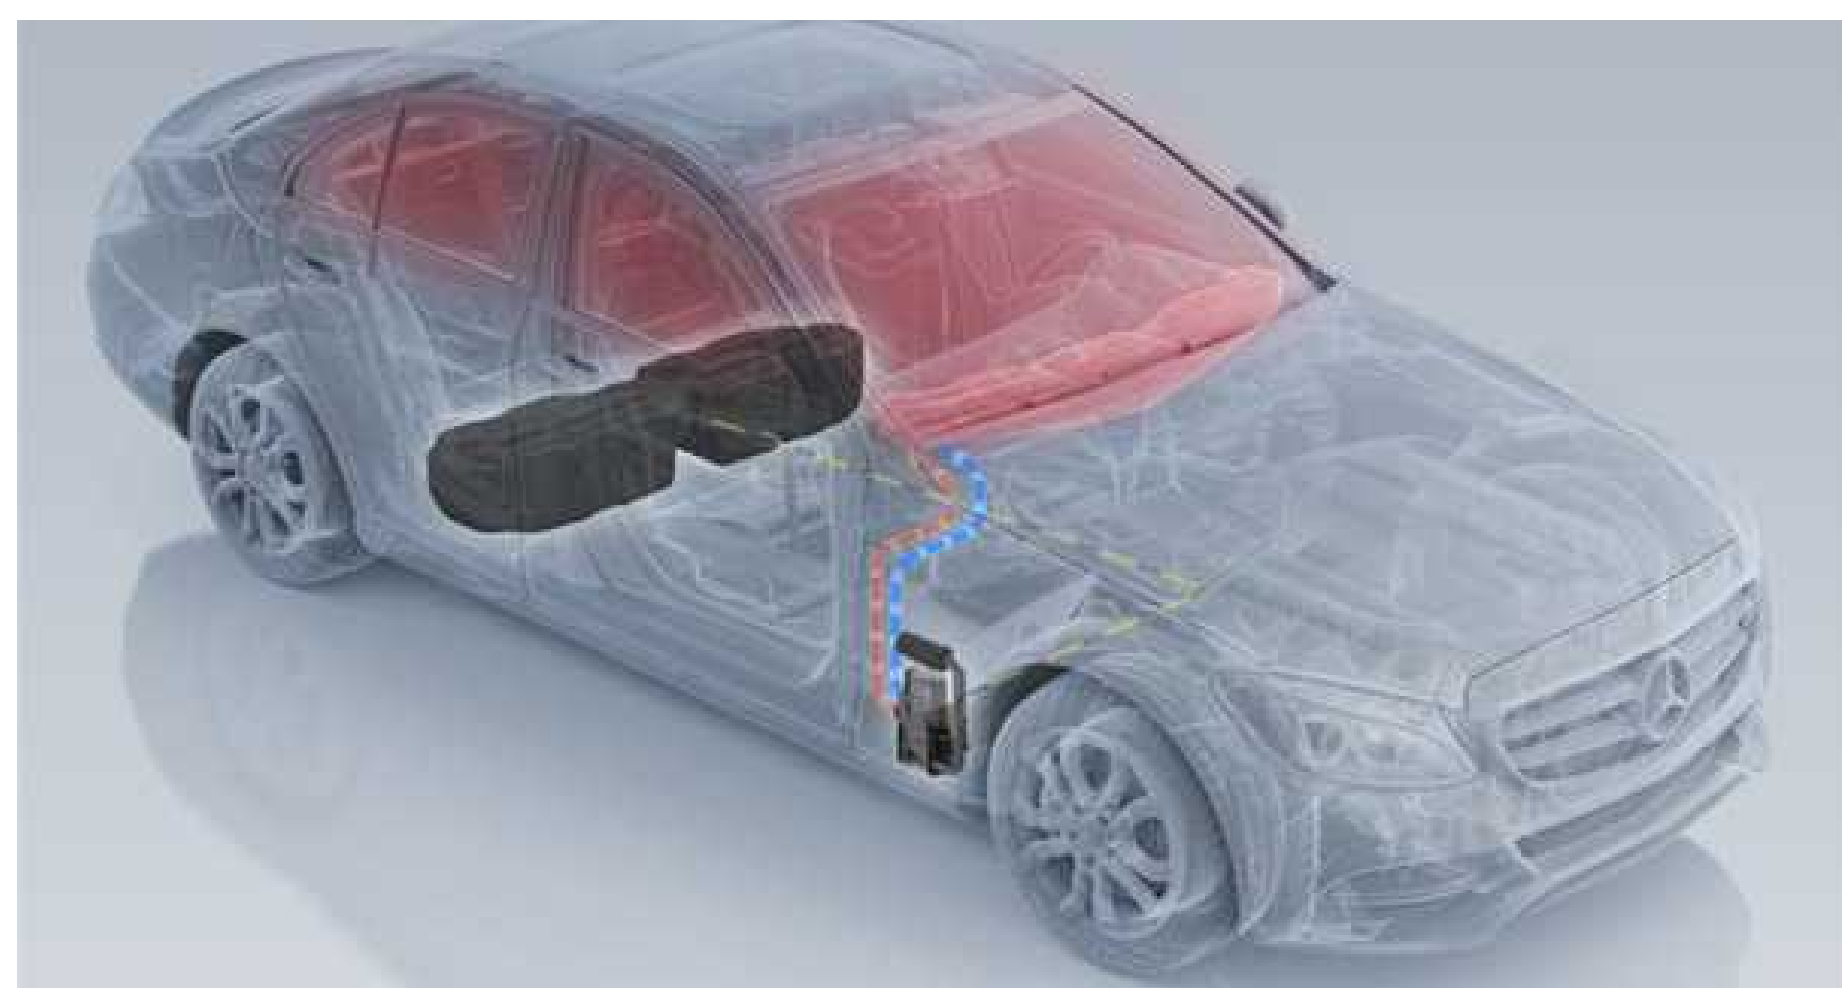

Make your E Class your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

Climate Comfort front seats

E 300 4MATIC requires leather upholstery or Exclusive Package / Available on Mercedes-AMG E 43 4MATIC in Premium Package

By gently circulating air through perforations in the leather, Climate Comfort seats help keep you cooler and your clothes drier during warmer months. Three levels of heating and cooling ventilation are offered. On cold or damp days, using the ventilation and heating features together can circulate the seat heating more quickly, to help keep you warm and dry.

Heated windshield

Electric heating of the windshield glass allows it to begin clearing frost and fog as soon as you start the vehicle, even on the coldest day. There's no need to wait for the engine to warm up the standard defroster in the climate control system.

Wireless phone charging

Advanced technology in the E-Class allows wireless charging of a compatible phone. An inductive charging tray in the centre console lets you charge your phone's battery while you drive, without needing to plug it in.

Burmester High-End 3D Sound System

Available only on E 400 4MATIC Sedan

The Burmester® 3D system is engineered to be the pinnacle of mobile high-end audio. A 1,450-watt amp combines analog and digital signals to deliver the most natural sound spectrum in any musical genre. A total of 23 speakers includes a trunk-mounted subwoofer with its own 400-watt amp, innovative ceiling-mounted surround speakers, and a pair of rotating, illuminated tweeters.

Standalone Options cont.

Make your E Class your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

AIR BODY CONTROL suspension

Standard on Mercedes-AMG E 43 4MATIC

An advanced adaptive air suspension responds in real time to road-surface and driving conditions. In sharp turns, the suspension firms up to boost control and cornering grip. On rough roads, it helps iron out bumps. Multiple modes let you vary the damping firmness and ride height. And lightweight components add to the car's nimble feel anytime.

Aluminum trim

Sleek aluminum trim adds a dramatic flair to the technologically advanced and impeccably tailored cabin. Its cool silver color and intriguing diagonal texture adds a unique dimension of modern style to the cabin.

Open Pore Brown Ash wood trim

Warm yet modern Brown Ash wood envelops the dash and into the doors. Its handcrafted low-sheen finish lets its natural grain please your eye and your touch equally.

Burl Walnut wood trim

Not available on Mercedes-AMG E 43 4MATIC

Hand-polished high-gloss Burl Walnut wood — prized for its rich colour and distinctive grain patterns — sweeps across the dash and into the doors, lending the cockpit a further air of refinement.

Standalone Options cont.

Make your E Class your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

Brown Ash wood trim

Not available on Mercedes-AMG E 43 4MATIC

The warmth of Brown Ash wood is hand-polished to a deep glow, highlighting the dash and doors in a timelessly modern artfulness.

Open Pore Dark Ash wood trim

Available on Mercedes-AMG E 43 4MATIC / Standard on all other models

Spanning the dash and flowing into each door, Black Ash wood is finished with an ultramodern low sheen that brings out its natural grain and texture.

***designo* Black Piano Lacquer "Flowing Lines" wood trim**

Impossibly thin and precise blonde pinstripes accent the infinitely deep Black Piano Lacquer wood throughout the cabin. The “Flowing Lines” celebrate the multidimensional, organic sculpture of the cabin’s elements into an extraordinarily cohesive environment.

***designo* Brown Magnolia "Flowing Lines" wood trim**

Not available on Mercedes-AMG E 43 4MATIC

The linear grain of warm brown Magnolia wood is further accentuated by ultrafine pinstripes inlaid into each piece. The “Flowing Lines” continue from the dash into the doors, a level of intricate detail that can be appreciated under close scrutiny or in carefree enjoyment of the cabin’s overall elegance.

Standalone Options cont.

Make your E Class your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

Metal Weave trim

Standard on Mercedes-AMG E 43 4MATIC

Ultramodern and yet finely crafted, fine strands of metal are cross-woven to create a highly textural pattern and rich grey colour that’s encased in a smooth rich gloss. It’s an ideal complement for the aluminum vent rings and high-tech displays of the E-Class.

DINAMICA roof liner

Available only on Mercedes-AMG E 43 4MATIC

The ceiling and roof pillars are lined in rich DINAMICA, a manmade material that combines the look and feel of suede with easy upkeep and enduring beauty.

Mercedes-Benz Genuine Accessories

Exclusively engineered to fit your car and your life, they're the best way to make your E-Class unmistakably yours while keeping it genuinely Mercedes-Benz.

Car care products

Keep the interior and exterior of your vehicle looking their best with our exclusive, specially formulated interior and exterior car care kits.

Navigation update

Owning a navigation system is one thing. Keeping it up to date is another. Mercedes-Benz map update software keeps your maps and Points of Interest current with the latest information.

Roof accessories

Roof carrier bars allow for a variety of add-on accessories to be mounted to your vehicle. Choose from a ski/snowboard holder, roof box or bike rack. Carrier bars and add-ons sold separately.

Style and Travel Series

These head restraint elements are simple to fit and remove. The modular system centers around a base support which can be combined with the product of your choice – universal hook, coat hanger or folding table.
