ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomize the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

THE RANGE ROVER EVOQUE CONVERTIBLE IS A VEHICLE FOR ALL SEASONS. IT IS A UNIQUE COMBINATION OF DESIGN LEADERSHIP AND WORLD-CLASS ENGINEERING THAT ADDS ANOTHER DIMENSION TO THE RANGE ROVER EVOQUE NAME, FURTHER ENHANCING ITS DESIRABILITY AND APPEAL.

Gerry McGovern.
Land Rover Design Director and Chief Creative Officer.

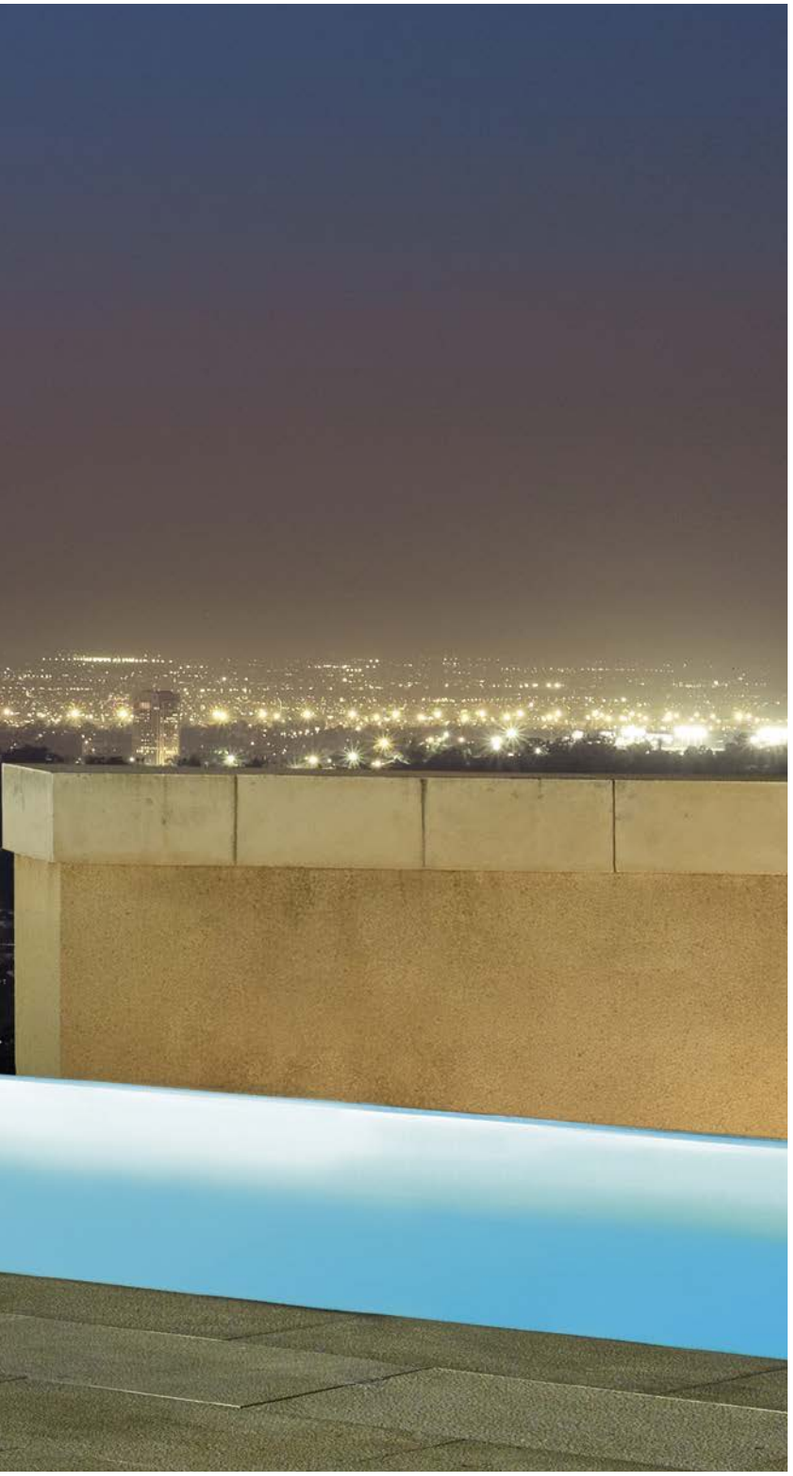
A WORLD OF LAND ROVER 58

RANGE ROVER



DESIGN

EXTERIOR

Range Rover Evoque has defined the compact SUV. Its design cues – striking lines, muscular shoulder and tapered roof – have become synonymous with style and contemporary city life. Now the vehicle is going even further. Available in SE Dynamic and HSE Dynamic models, new Range Rover Evoque Convertible, the world's first premium compact convertible SUV, sets new standards in design, capability and sheer driving pleasure.

Optional adaptive full LED headlamps complement the vehicle's design cues by combining a distinctive look with enhanced light output for better visibility at night. The headlamps' adaptive function enable light beams to be automatically aligned with steering inputs and follow curves in the road*.

The Daytime Running Lights have a distinctive signature, which also serve as the directional indicator by flashing amber.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

CONVERTIBLE ROOF

The vehicle utilizes a fabric Z-Folding Convertible Roof System in Ebony. It is electrically operated, with opening and closing being easily controlled via a switch mounted in the center console; an action that can be completed while the vehicle is travelling up to 29mph.

The roof is available in Ebony which complements the complete color palette. The roof has an acoustic inner lining to reduce road noise and also to provide insulation to the cabin.

The tailgate has been developed to allow easy access to the loadspace. The loadspace capacity remains unchanged regardless of the roof position and is able to accommodate a standard golf bag, or a baby stroller.

INTERIOR

A range of individual features provide added appeal to the clean, architectural shapes of the vehicle's interior. The front seats incorporate the latest technologies such as climate control options, heated and cooled seats, to ensure a truly relaxed and comfortable ride. The use of premium materials such as optional Oxford leather and twin-needle stitching ensure a comfortable journey for all four passengers.

The standard Land Rover InControl® Touch Pro™ infotainment system allows music to be heard and felt the way it should. Bright trebles. Deep bass notes. Rich tones that let every instrument sing. These are the characteristics of the Meridian™ Sound System. Added to which, the vehicle's 10.2 inch Touch-screen has phone connectivity for two phones simultaneously and allows access to the vehicle's Bluetooth® streaming.*

When the roof is down, the standard wind deflector system will add to front seat comfort by reducing drafts from the rear of the cabin. The wind deflector is easily stored and can therefore be readily deployed.

An optional Ski Hatch allows through loading of skis and other long loads from the loadspace into the passenger cabin.

Meridian is a registered trademark of Meridian Audio Ltd.
The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under license.
*Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

RANGE ROVER

DRIVING TECHNOLOGY

TERRAIN RESPONSE®

Land Rover has always been synonymous with capability and Range Rover Evoque Convertible lives up to even the most demanding expectations. Confident and responsive, the drive is further enhanced by a generous wheel articulation and innovative off-road technologies such as Terrain Response® system*, which is standard.

This feature adapts to the responses of the vehicle's engine, transmission, differentials and chassis systems to maximize driveability, comfort and traction. There are four Terrain Response settings: General Driving, Grass/ Gravel/Snow, Mud & Ruts and Sand.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors in judgment in driving. Please consult owner's manual or your local authorized Land Rover Retailer for more details.

HILL DESCENT CONTROL (HDC®)

Land Rover's patented Hill Descent Control (HDC®) is a standard feature that assists the driver with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel.*

HILL START ASSIST

Hill Start Assist is designed to prevent the vehicle from rolling backwards as it pulls away on an incline.

The vehicle also utilizes **Gradient Release Control (GRC)** which is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver inadvertently releases the brake.*

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors in judgment indriving. Please consult owner's manual or your local authorized Land Rover Retailer for more details.

RANGE ROVER
946 NBS

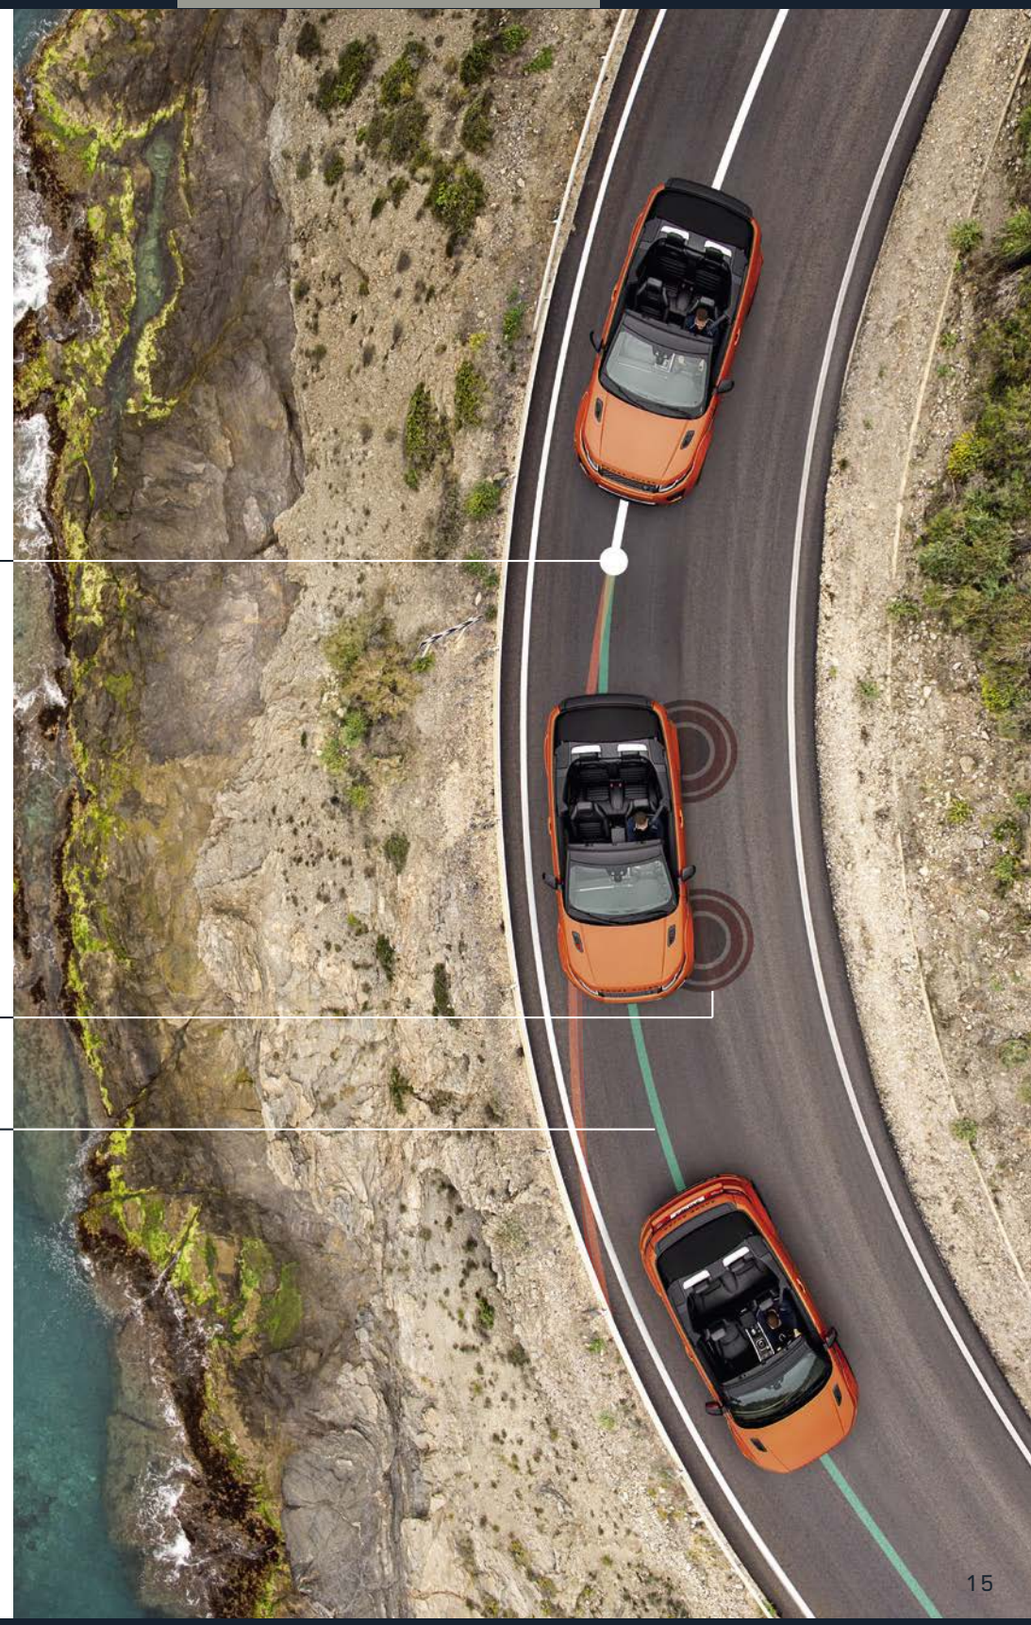
RANGE ROVER

ACTIVE DRIVELINE

Active Driveline* delivers benefits in both on and off-road situations. In many on-road driving conditions, the system is able to disconnect drive to the rear of the vehicle, providing maximum two-wheel drive fuel economy. A sophisticated control strategy continuously monitors key vehicle and environmental parameters. If the requirements for four-wheel drive are met, the system seamlessly and imperceptibly reconnects that drive within 300 milliseconds.

TORQUE VECTORING

When cornering, the vehicle's agility and stability are enhanced by the optional new **Torque Vectoring by Braking** system.* Monitoring the vehicle, this system constantly balances the distribution of torque between all the wheels to improve grip and steering whether on or off-road.



*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

FINISHING TOUCHES

MERIDIAN™ SOUND SYSTEMS

Land Rover has partnered with Meridian, a world leader in high performance audio technologies and digital sound processing to develop advanced audio systems for Range Rover Evoque Convertible. Dynamic Volume Control technology has also been integrated on both systems, to ensure that any unwanted noise detected in the cabin will be smoothly and automatically balanced out.

The standard 380W Meridian Sound System features 10 loudspeakers and a dual-channel subwoofer, delivering exceptional definition, crystal clear highs and full, deep bass through the careful arrangement of speakers.

Range Rover Evoque Convertible also offers an optional upgrade*, the Meridian Surround Sound System, which produces 660W through 12 loudspeakers and a dual-channel subwoofer. This system also includes Meridian Trifield™ technology. This technology delivers the very best in world-class audio reproduction, bringing you closer to the original performance regardless of your position in the vehicle; everyone will feel and hear pure musical enjoyment.

*Only available on HSE Dynamic with Lux Package.
Meridian is a registered trademark of Meridian Audio Ltd.

MERIDIAN DIGITAL SURROUND SOUND SYSTEM

660 WATTS

12 SPEAKERS

SUB WOOFER

DRIVER AIDS

COMMAND DRIVING POSITION

The Command Driving position* in Range Rover Evoque Convertible ensures a greater view of the road ahead so all terrains can be tackled with confidence.

HEAD UP DISPLAY*

Head Up Display** is a technology option that presents key vehicle data such as current speed, gear position and navigation directions on the windshield, without distraction or the need for the driver to take their eyes off the road. In a world first, the Land Rover system features laser holographic techniques, resulting in superior color saturation, brightness and contrast.

This innovative laser system is more robust against issues such as 'washout' – the effect that the glare from sunlight has on inferior LED-based systems. The display can be turned on and off dependent upon driver preference.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors in judgment in driving. Please consult owner's manual or your local authorized Land Rover Retailer for more details.

**Only available on HSE Dynamic with Driver Assist Pack.

COMFORT FOR ALL

SEATING

SE Dynamic models are specified with Grained leather seats as standard, as well as 12-way electric memory on both driver and front passenger seats. As an option, heated front seats are available which can be individually controled.

For the ultimate comfort, on HSE Dynamic models, climate front seats are available. This option provides both heated and cooled ventilation through the standard Oxford leather seats.

CONFIGURABLE MOOD LIGHTING

HSE Dynamic models feature, as standard, Configurable Mood Lighting which is controled via the vehicle's Touch-screen, with a choice of ten colors available. The brightness of the mood lighting is also configurable, and a ‘Stealth’ setting is available to reduce cabin illumination to a minimum. Create the mood. Enjoy the surroundings. Get more out of the drive.

USB CHARGING POINTS

Connectivity is state-of-the-art with Bluetooth® streaming as well as USB/iPod® connections for hands-free phone operation and a choice of listening while on the move. An additional, dedicated USB socket allows the connection of compatible phones via a standard USB Cable (not supplied). This will allow the user to operate compatible apps via the Touch-screen.

LAND ROVER INCONTROL®

InControl is our suite of advanced technologies that link both you and your Range Rover Evoque Convertible to the wider world*. It helps you maintain your important digital connections, and links you seamlessly with your vehicle when you are elsewhere.

INCONTROL TOUCH PRO™

The InControl Touch Pro™ infotainment system is quick, intuitive and can be adapted to suit your individual needs.

The key aspects of InControl Touch Pro are:

– A **10.2 inch Touch-screen** comes as standard and it responds in the same manner as a smartphone or tablet computer, providing multi-touch gestures such as pinch to zoom, and swipe. It features a customisable home screen so your favourite widgets can be at your fingertips, and its interactive side panel makes multi-tasking easy.

– **InControl Touch Pro with Connected Navigation** is standard on HSE Dynamic models. The guidance system is intelligent enough to determine where you might want to go even if you misspell a destination, or do not know the complete address.* The fully integrated navigation system uses 'Dead Reckoning' to accurately pinpoint the position of your vehicle in order to ensure appropriate guidance and avoid confusion, particularly useful in tunnels or built up areas.

INCONTROL PROTECT AND REMOTE PREMIUM

InControl Protect™ is a package of features offered as standard. It provides safety and security both when you are in and away from your Range Rover Evoque Convertible.

- **SOS Emergency Call** automatically sends your location to, and puts you in contact with, the emergency services if the airbags deploy following an accident. An emergency call can also be manually activated.
- **Breakdown Call** provides assistance at the touch of a button by putting you in contact with the recovery service and transmitting key vehicle information, location, and certain diagnostics for a rapid response.
- **Remote Essentials** is an application that allows you to monitor your vehicle remotely from your smartphone, giving you vital information and statistics about your vehicle, including fuel levels, range, and journey tracking.
- **Remote Premium** is a standard multi-function app that allows you to monitor as well as interact with your Range Rover Evoque Convertible. Remote start the engine to set your desired temperature, lock and unlock the vehicle, locate your vehicle on a map or by using the beep and flash function, and track your journeys – all via the app from your smartphone.

INCONTROL APPS™

- **InControl Apps** features a range of bespoke Land Rover approved apps. Standard on HSE Dynamic and optional on SE Dynamic the apps can be connected to the car from your smartphone. It ensures the convenient use of apps that have been optimised specifically to enhance aspects of your in-vehicle experience.*

INCONTROL PRO SERVICES™

InControl Pro Services is optional, it contains a range of connected features which include the following:

- **Route Planner Companion App** offers true door-to-door navigation. Pre-plan your destination and route via your Apple® or Android™ smartphone and then your selected route will be available on the vehicle's Touch-screen*. When you've completed your road journey, the app can guide you by foot or public transport (where supported) to your destination.
- **Live** services provide a range of up-to-the-minute information including news, weather, local fuel prices and flight tracking. Live services can be updated throughout the life of your vehicle.
- **Commute Mode** enables the vehicle to learn your daily commute and automatically advises you of the expected journey time, based on live traffic movements, for the different learned routes you use for that journey.
- **Arrival Mode** displays interactive 360 degree street level imagery of your destination for seamless journey arrival. It is automatically displayed again when you are approximately 656ft from arrival to help you identify your destination. Especially useful when building numbers are not visible.
- **Arrival Mode Parking** displays parking availability and pricing close to your destination (where supported). Simply tap on the desired car park to select it as an updated destination.

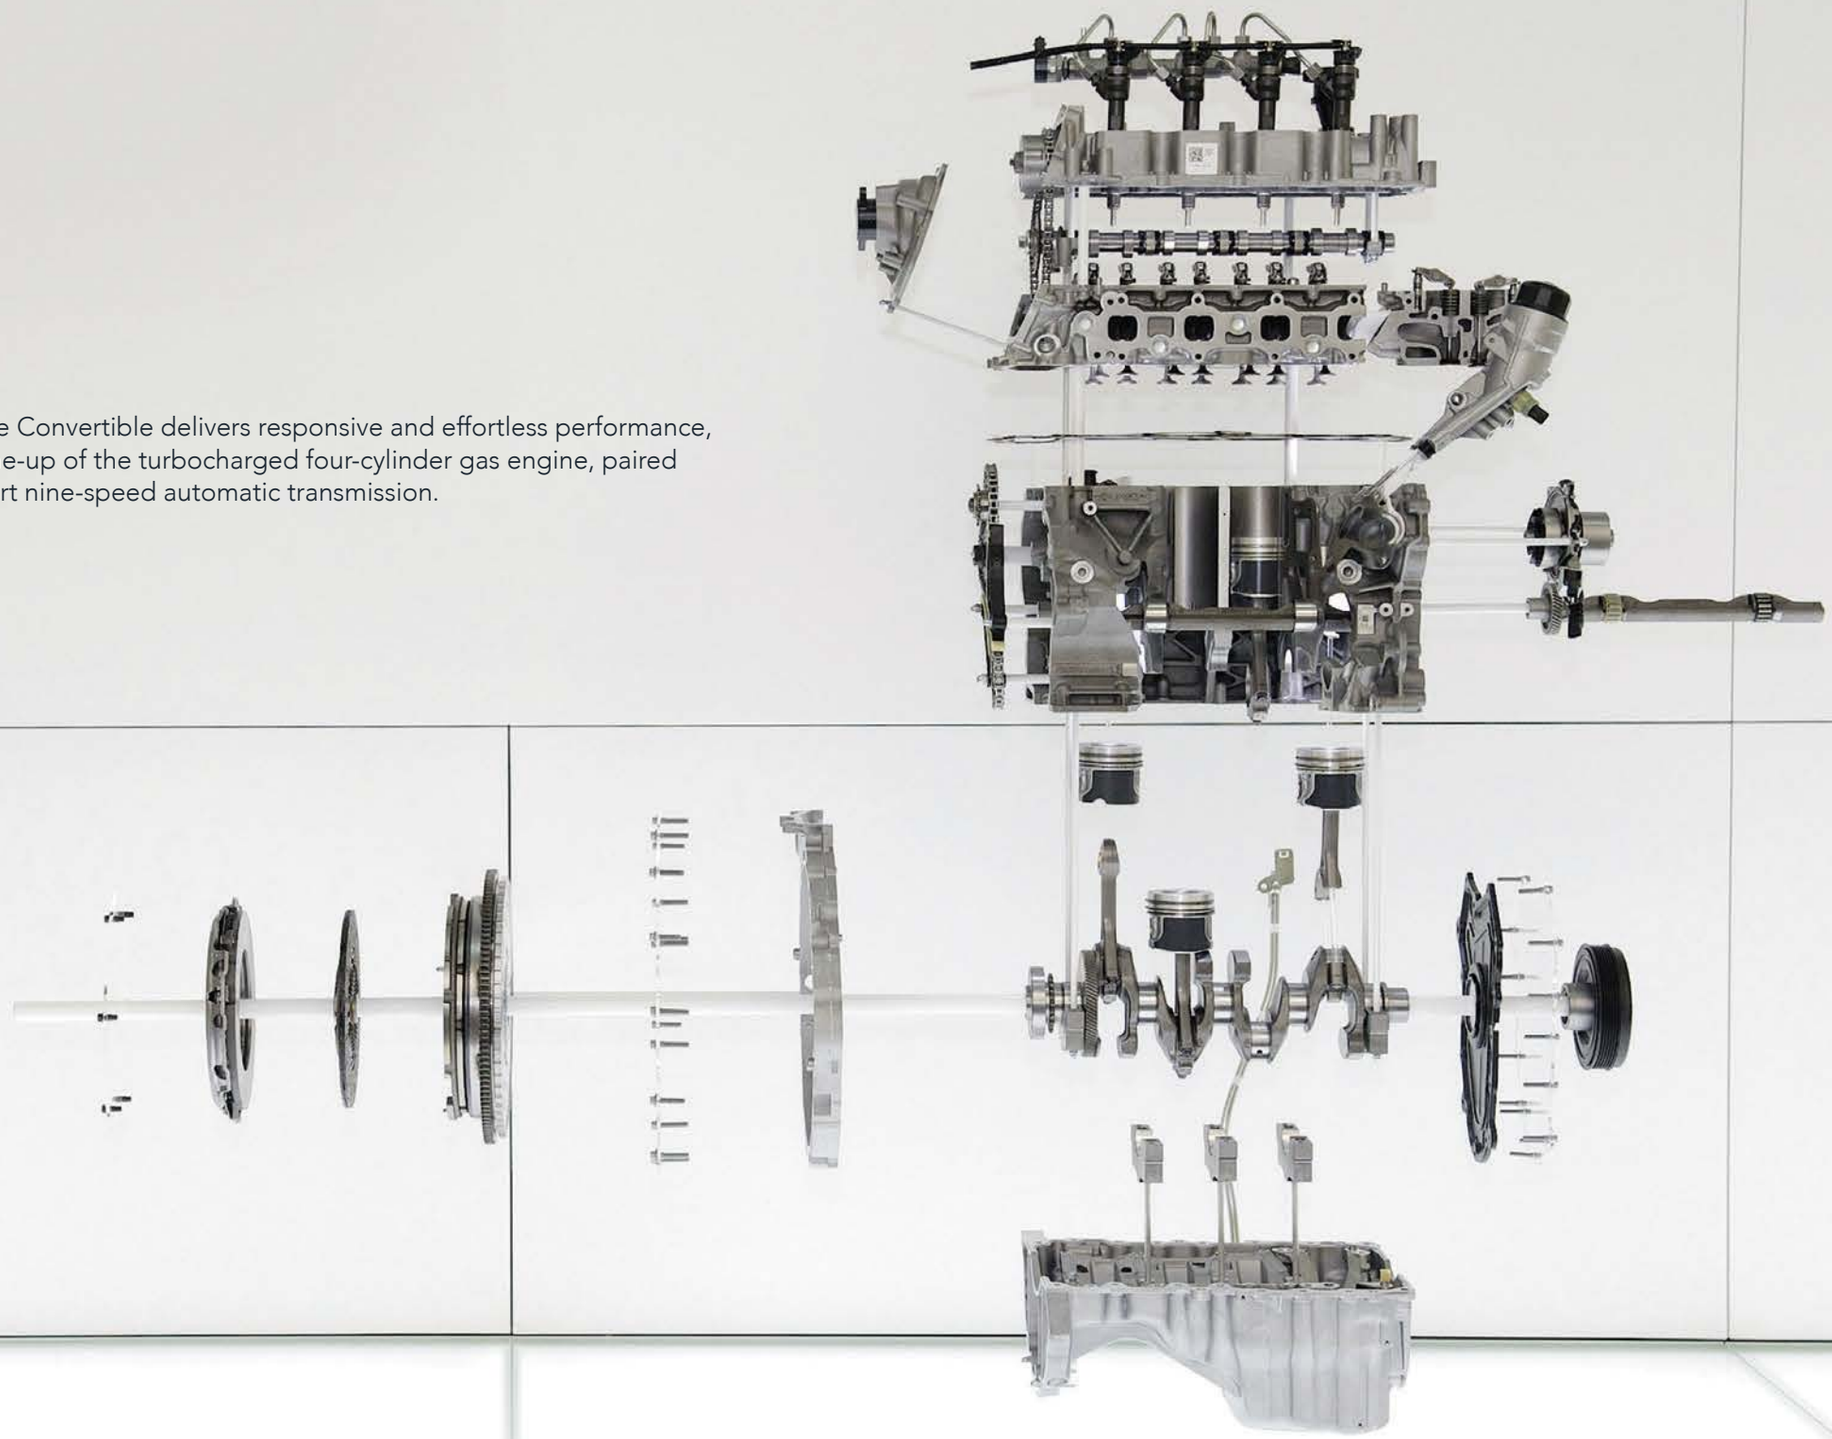
*Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

As we roll out InControl, specific features, options and its availability remain market dependent. Please consult your nearest Land Rover Retailer for further details. Certain features require the fitment of a Micro SIM with a suitable data contract.

iPhone® is a registered trademark of Apple Inc., registered in the US and other countries.

ENGINES

Range Rover Evoque Convertible delivers responsive and effortless performance, with its advanced line-up of the turbocharged four-cylinder gas engine, paired with a state-of-the-art nine-speed automatic transmission.



NINE-SPEED AUTOMATIC

The nine-speed automatic transmission is one of the most efficient and technically advanced transmissions ever used in a production vehicle.

Smaller ratio steps give improved response during acceleration, plus improved shift quality, drive and refinement. The higher top gear not only reduces fuel consumption but the lower engine revs also improve comfort and reduce noise when cruising at a sustained speed. The nine-speed automatic transmission is extremely robust and perfectly complements Land Rover's rugged all-terrain ability while delivering exceptionally high levels of refinement and efficiency*.

2.0 LITER TURBOCHARGED I-4

The 2.0 Liter turbocharged I-4 engine is a lightweight all aluminum 2.0 liter 240HP engine with four wheel drive as standard. It comes with the latest direct-injection technology, advanced turbo charging and twin independent variable valve timing to help lower fuel consumption and CO_2 emissions compared with traditional larger capacity engines delivering equivalent performances.

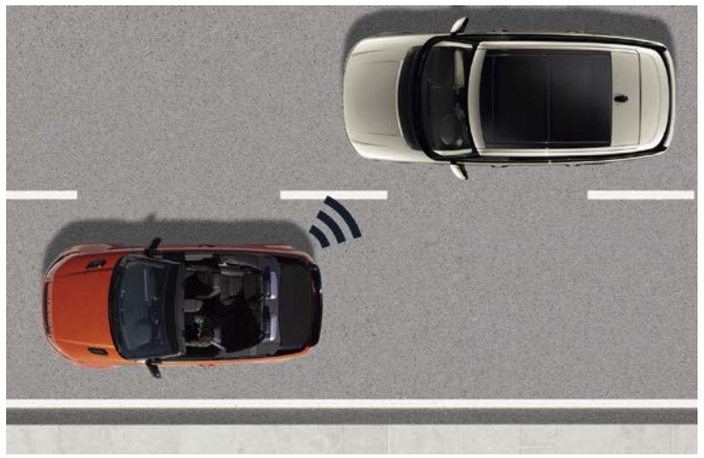
The engine delivers a rich, powerful engine sound during strong acceleration and features a unique exhaust manifold for quicker warm-up and lower emissions, a low friction design and a state-of-the-art electronic management system.

This includes Smart Regenerative Charging, which prioritizes the charging of the battery when the vehicle is decelerating to capture wasted kinetic energy and reduce fuel consumption.

*Manufacturer estimates 20 city / 28 highway mpg. All figures are Manufacturer's fuel economy estimates. Actual mileage may vary. EPA estimates not available at time of press. See your local authorized Land Rover Retailer for updated EPA estimates.

SAFETY AND DRIVER ASSISTANCE FEATURES

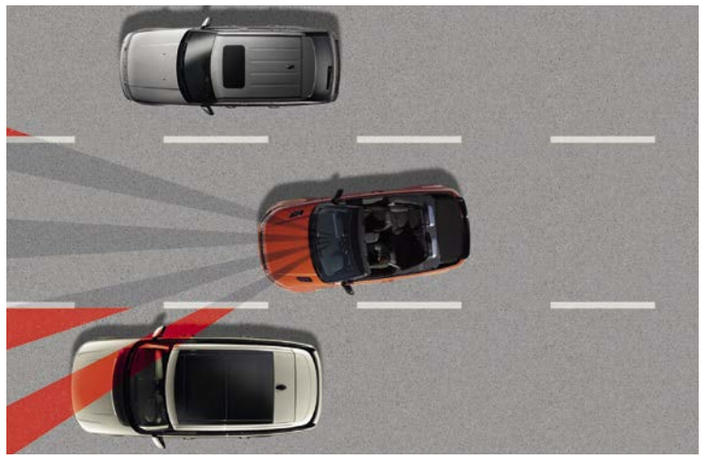
ADVANCED DRIVER ASSISTANCE



BLIND SPOT MONITORING*

Blind Spot Monitoring is packaged with Reverse Traffic Detection. Designed to see what might be missed, these optional systems have discrete sensors hidden in the side and rear bumpers. When a vehicle enters a blind spot on either side of the vehicle, Blind Spot Monitoring alerts the driver via an icon displayed in the appropriate door mirror. If a vehicle approaches at speed from behind when changing lanes, the driver will be alerted by a flashing icon in the door mirror.

Activated while reversing, Reverse Traffic Detection works by informing the driver in the event of a vehicle approaching from either side which may present a hazard, with both audible and visual warnings.



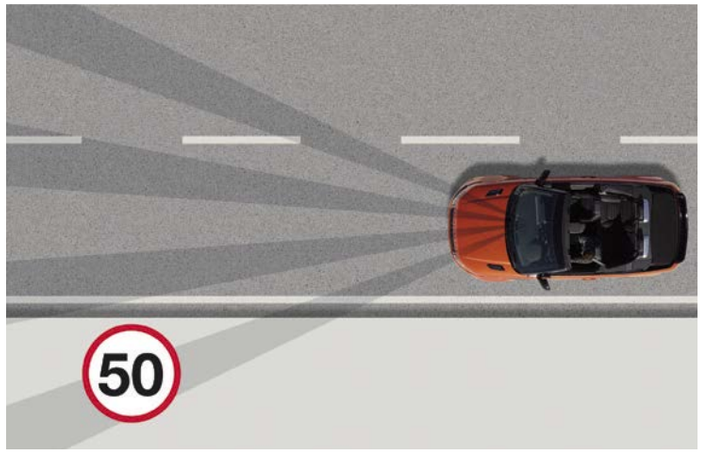
LANE KEEPING ASSIST*

Optional Lane Keeping Assist is packaged with Autonomous Emergency Braking and Driver Condition Monitor. It uses the forward facing camera to detect lane markings ahead of the vehicle. If it detects that it is getting too close to either side of its lane, the system will counter steer to keep the vehicle in lane. When the driver activates the turn signal to intentionally change lanes or turn, the function does not intervene.

Autonomous Emergency Braking is designed to warn the driver when a collision with another car is imminent and to deploy the brakes to mitigate a collision if the driver doesn't respond in time. This feature works up to 49mph. Driver Condition Monitor helps detect the onset of drowsiness. If detected, a warning message is displayed to prompt the driver to take a break.

DEPLOYABLE ROLLOVER PROTECTION DEVICE (RPD)*

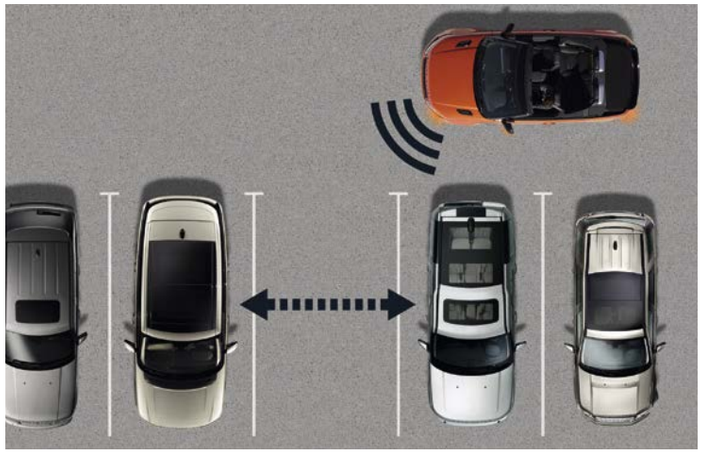
In order to provide a high level of rollover protection to vehicle occupants, while retaining a clean visual appearance to the vehicle in normal use, deployable rollover protection devices are fitted behind the rear seats as standard. In the unlikely event of a detected rollover situation, these devices will deploy.



TRAFFIC SIGN RECOGNITION*

Working in conjunction with the Navigation System, this optional feature scans the road ahead for certain traffic signs and displays them in the Message Center in the instrument pack. The following signs are detected: speed limit signs, no-overtaking signs, variable overhead speed signs and traffic signs with extra information – such as reduced speeds for wet roads.

The system can be configured to provide speed alert warnings when the vehicle is travelling at or above the current speed limit, as well as warning of no-overtaking zones.

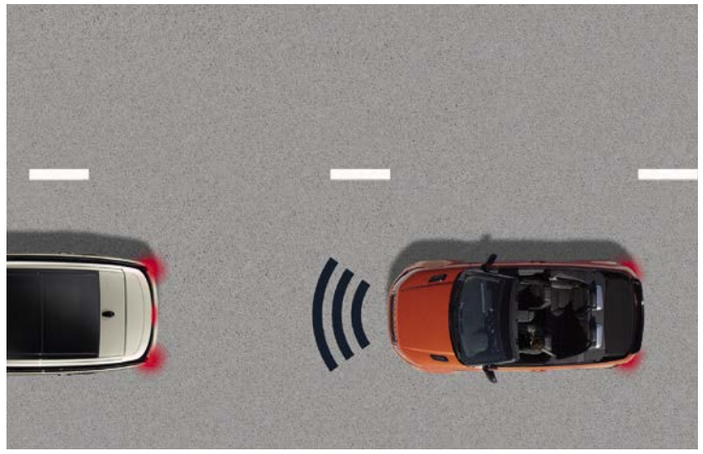


PARK ASSIST*

Park Assist consists of Parallel Park and Parking Exit. Using sensors, this optional feature identifies parking spaces and helps to parallel park in tight spots. The screen prompts the driver to select reverse and then automatically steers the vehicle into place. The driver stays in control using the brake and graphics in the instrument panel to guide through each maneuver.

Parking Exit provides the same assistance to maneuver out of the space.

Perpendicular Park is an optional addition to the system. Truly useful in car parks and tight spaces, it automatically assesses whether the chosen space is wide enough before steering the vehicle centrally into place.



ADAPTIVE CRUISE CONTROL*

Optional Adaptive Cruise Control (ACC) is a radar based cruise control system that helps maintain a pre-set gap from the vehicle in front, even if it changes speed. Queue Assist uses ACC technology to follow the vehicle in front in traffic queues. It will bring the vehicle to a halt when necessary.

Intelligent Emergency Braking uses radar to detect vehicles traveling in the same direction. If the system calculates that a frontal collision is imminent, it can fully deploy the brakes to mitigate a frontal collision. This feature works up to 49mph.

*These systems are not a substitute for driving safely with due care and attention and will not function under allcircumstances, speeds, weather and road conditions, etc.
Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

RANGE ROVER EVOQUE CONVERTIBLE OFFERS YOU GREAT OPTIONS AND FLEXIBILITY TO PERSONALIZE YOUR VEHICLE.

The following pages take you through a logical series of steps to make it a true expression of your individuality. You have a number of choices: from selecting your model to exterior and interior colors, wheels, finishes and those detailed touches that define your style.

RANGE ROVER EVOQUE SE DYNAMIC

- Dynamic body style
- Grille in Brunel with Narvik Black surround
- Fender vents in Brunel
- Body colored door handles
- Narvik Black mirror caps
- Range Rover script on hood and tailgate in Atlas
- Tow eye cover in Corris Grey with Narvik Black insert
- Tailgate finisher in Brunel
- Halogen headlamps
- 18 inch seven-spoke 'Style 706' alloy wheels
- Wind Deflector
- 12-way / 12-way Grained leather adjustable electric memory seats
- InControl Touch Pro™** – 10 speaker Meridian™ Audio plus subwoofer
- 10.2 inch Touch-screen**
- Rain sensing windshield wipers and automatic headlamps
- Exterior mirrors – electric adjustment, heated, power fold, puddle lamps with projected Evoque Convertible graphic, direction indicators, memory function with auto-dipping in reverse gear.
- Bright finish square exhaust finisher
- Windbreak fixing points
- Rear view camera*
- Climate control – rear vents.

RANGE ROVER EVOQUE HSE DYNAMIC

Contents of SE Dynamic, plus:
- Front fog lamps
- InControl Touch Pro™ Navigation**
- Configurable Mood Lighting
- Illuminated Range Rover treadplates
- Hood vents in Narvik Black
- Heated Seats

Replaces SE Dynamic content:
- Dynamic grille in Narvik Black with Corris Grey surround
- Fender vents in Narvik Black
- Tailgate finisher in Narvik Black
- Xenon headlamps with LED signature and automatic leveling
- 19 inch seven-spoke 'Style 707' alloy wheels.

RANGE ROVER

BLACK DESIGN PACKAGE

Personalizing the exterior

For an even more striking effect, Range Rover Evoque Convertible HSE Dynamic can be further personalized with the optional Black Design Package. Emphasising the assertive, confident stance of the vehicle, the Black Design Package makes Range Rover Evoque Convertible your own.

Black Design Package is available in all exterior color options and includes the following: darkened front and rear headlamps and fog lights, outer Narvik Black sump guards for both front and rear, Narvik Black RANGE ROVER lettering on the hood and tailgate, Dynamic black exhaust finishers and 20 inch five split-spoke Satin Black finish alloy wheels.

Darkened headlamps and fog lamps

20 inch five split-spoke Satin Black alloy wheels ‘Style 508’

Narvik Black RANGE ROVER lettering

Dynamic black exhaust finishers.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.
(1) In common with other convertible vehicles, the wind deflector covers the rear seats, and thus cannot be used when rear seat passengers are being carried.
(2) Please remember that the safety belts in a Land Rover vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

OPTIONAL FEATURES

Safety, Security and Driver Assistance features

	OPTION CODE	SE DYNAMIC	HSE DYNAMIC	DESCRIPTION
Blind Spot Monitor with Reverse Traffic Detection*	086GF	–	■	Please refer to page 26.
Adaptive Cruise Control with Queue Assist, Forward Alert, and High Speed Intelligent Emergency Braking* (1)	065AF	–	□	Please refer to page 27.
Lane Departure Warning with autonomous emergency braking*	086BC	–	□	
Lane Keeping Assist with Lane Departure Warning, autonomous emergency braking and Driver Condition Monitor*	086BD	–	□	Please refer to page 26.
Surround camera system* (2) (3)	086GC	–	□	Using four digital cameras mounted around the vehicle, this system provides an all-round view of your surroundings on the full-color Touch-screen, assisting in tight manoeuvring. When towing, it provides additional information to aid with reversing.
Traffic Sign Recognition* (1)	086DB	–	□	Please refer to page 27.
Park Assist* (1) (4)	086HA	–	□	Please refer to page 27.
360° Park Distance Control* (1) (5)	036MB	–	□	With virtual object tracking along the sides of the car, 360° Park Distance Control gives confidence in confined situations, such as multi-storey car parks. Most effective at speeds up to 10mph.
HomeLink®*	025FF	□	■	The HomeLink® System is a universal transmitter fitted to the underside of the interior rear view mirror. This transmitter can be programmed to operate up to three home or office wireless controlled systems, such as garage doors, automatic gates, or security lighting.
Passive entry (1)	066AC	□	■	Keyless entry means the days of fumbling for keys are over. The driver is now able to access and lock/alarm the vehicle without the need to take the remote smart key out of a bag or pocket.
INFORMATION, COMMUNICATION AND ENTERTAINMENT

▲Combination is Designer's Choice ○ Combination is Available – Not Available
(1) HSE Dynamic only.
The above table is designed as a guide. Please contact your nearest Land Rover Retailer for more information.

STEP 5
CHOOSE YOUR INTERIOR

Each interior colorway comes in up to two color combinations. The image and table shown right detail where each color of your chosen colorway is located within the cabin.

COLORWAYS	1 DOOR CASING INSERTS	2 DOOR ARMREST	3 DOOR LOWER	4 INSTRUMENT PANEL TOPPER	5 INSTRUMENT PANEL MID-SECTION
(A) Ebony / Ebony	Ebony	Ebony	Ebony	Ebony	Ebony
(B) Lunar / Ivory	Ivory	Lunar	Lunar	Lunar	Lunar
(C) Pimento / Ebony	Pimento	Ebony	Ebony	Ebony	Ebony
(D) Vintage Tan / Ebony	Vintage Tan	Ebony	Ebony	Ebony	Ebony
(E) Lunar / Ice	Ice	Lunar	Lunar	Lunar	Lunar

AVAILABLE INTERIOR COLOR COMBINATIONS

The cabin in Range Rover Evoque Convertible embodies the finest of contemporary living. The superb metal finishes and soft leathers combine to create a sense of home. The attention to detail is everywhere you look and in everything you touch.

(A) **Ebony / Ebony** (available on SE Dynamic and HSE Dynamic*)

*With or without full leather interior.

STEP 5
CHOOSE YOUR INTERIOR

(B) **Lunar / Ivory** (available on HSE Dynamic*)

(C) **Pimento / Ebony** (available on HSE Dynamic only with full Oxford leather interior)

(D) **Vintage Tan / Ebony** (available on HSE Dynamic only with full Oxford leather interior)

(E) **Lunar / Ice** (available on HSE Dynamic only with full Oxford leather interior)

6 LAND ROVER ACCESSORIES

Range Rover Evoque Convertible is so capable and adaptable it can get straight to work across a huge variety of vastly differing conditions and roles. Even so, some owners want to add their own stamp of individuality by tailoring their Range Rover Evoque Convertible to their specific needs with a range of stylish, practical accessories that are tough, versatile and bring an opportunity for personalization.

Importantly, these accessories can be added at any stage during the vehicle's life – not just when it's new. Naturally, Land Rover approved accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

STEP 6
CHOOSE YOUR ACCESSORIES

Side Tubes*
VPLVP0229
Manufactured from stainless steel with a highly polished finish. Its rugged off-road appearance complements the vehicle's exterior design.

Rear Mudflaps†
VPLVP0069 – SE Dynamic
VPLVP0070 – HSE Dynamic
Mudflaps to reduce spray and help protect paintwork.

Carbon Fibre Side Vents
VPLVB0112
Stunning high-grade Carbon Fibre Side Vents with a high gloss finish provides a performance-inspired styling upgrade. Supplied as four pieces.

Carbon Fibre Hood Vents**
VPLVB0113 – HSE Dynamic
Complementary high-grade Carbon Fibre Hood Vents with a high gloss finish. Supplied as a pair.

Carbon Fibre Mirror Covers
VPLVB0145
High-grade Carbon Fibre Mirror Covers provide elegant hints of performance and power.
Union Jack Mirror Covers colors – VPLVB0249 (not shown)
Union Jack Mirror Covers monochrome – VPLVB0248 (not shown)

*Fitting of side tubes may affect the off-road capability of the vehicle **Only available on SE Dynamic models if the hood vent option has been selected
†Not applicable with Perpendicular Parking. Please note that Mudflaps are offered for the rear of Convertible vehicles only.
Images are representative of accessories advertised not model specification. Please contact your nearest Land Rover Retailer for further information.

A WORLD OF LAND ROVER

Ever since its inception, Land Rover has been ready for anything. Its legendary capability has seen it tackle the most demanding of terrains, in the most difficult conditions. Its versatile interior has become synonymous with comfort and greater loadspace. And its 'can do' attitude has made it the most welcome of vehicles across the globe.

You can be part of the Land Rover story at one of our Land Rover Experience centers. You can see how each and every one of these iconic vehicles is built. You can take one out onto off-road tracks where your driving skills will be put to the test. Or you can go even further on one of our Adventure Travel holidays to such countries as Tanzania, Iceland or Morocco. Adventure awaits.

BEHIND THE SCENES TOURS

Ever wanted to discover how your Land Rover was built? To see the incredible journey upon which each and every one of our vehicles travels before you receive it?

You can experience how it is created using state-of-the-art technologies, the most efficient processes, the finest materials and British Craftsmanship at our facilities around the world.

From on-demand ordering of parts, to final trim and quality tests, the entire process will come to life before your eyes. It's a truly impressive display of engineering, craft and precision; one that you can then physically enjoy by taking a vehicle out onto one of our Experience Drives.

For more information, visit
landrover.com/behindthescenestours

EXPERIENCE DRIVES

Wading through mud. Crossing a Tipping Bridge. Or creeping down a slippery, steep decline. Our Experience centers have an array of obstacles and challenges to tax even the most accomplished of drivers.

Our experts will teach you how to navigate through some of the most demanding terrain. Then, you can take the skills that you have learned and use them when you drive every day.

There's a choice of courses from Taster Drives through to Full Day Experiences, available in over 40 Land Rover Experience operations around the globe. Each one provides a unique and hugely memorable adventure that you, your family and friends can all enjoy.

You'll never feel more confident behind the wheel.

To book, go to
LandRoverUSA.com/experiencedrives

ADVENTURE TRAVEL

Which destination would top your wish list of places to go on an adventure? The wide open, savagely beautiful plains of the Serengeti? Or simply exploring castles and manors around Britain? Well, you can revel in an epic adventure from the comfort and luxury of a Land Rover, assured in the meticulous planning and local insight for which Abercrombie & Kent is renowned. These two great British brands have come together to bring you a world of exploration, adventure and luxury in iconic worldwide destinations.

Each trip has a local guide and expert Land Rover instructors to provide support and guidance, ensuring you get the most out of your driving experience. Added to which, you will stay in boutique accommodation. Be part of an extraordinary journey, reimagined.

LandRoverUSA.com/adventuretravel

LAND ROVER GEAR

The vehicle is just the beginning.

Discover the latest collection of Land Rover Gear now available.

A meticulous attention to detail doesn't stop with our cars. You'll find the same level of craftsmanship in all of our clothing, travel items and premium gift ideas. So whether you're shopping for yourself or a loved one, you know the quality is assured.

The Land Rover collection includes ladies and gents clothing, an extensive range of small leather goods such as wallets, portfolios, iPad and iPhone cases along with briefcases and weekender bags. A range of cufflinks and ladies silk scarves add a luxury feel to the collection. There's gear for the kids, too with colorful fun clothing, caps and replica model vehicles for them to enjoy.

Shop the collection at your nearest authorized Land Rover Retailer.

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. While every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

All Land Rover Approved Accessories fitted by a Land Rover Retailer within one month or 1,600 kilometres/1,000 miles (which ever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to a 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation. Some of the accessories featured are not available on all models. Please consult your nearest Land Rover Retailer for more information.

All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover Retailer who will be pleased to advise you on current specifications and any query you may have.

The colors reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any color finish without notice. Some of these colors may not be obtainable in your country. Please check availability of colors and current specifications with your Land Rover Retailer. Distributors and retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.
