NEW DISCOVERY SPORT
2016

ABOVE & BEYOND

ABOVE & BEYOND

Ever since the first Land Rover was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomize the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

NEW DISCOVERY SPORT COMBINES DESIGN EXCELLENCE, ENGINEERING INTEGRITY AND EXCEPTIONAL VERSATILITY TO CREATE A PREMIUM COMPACT SUV.

Gerry McGovern.
Land Rover Design Director and Chief Creative Officer.

LAND ROVER EXPERIENCE 74

Vehicle shown left is HSE Luxury with Black Design Pack in Scotia Grey.

DESIGN

EXTERIOR

This is a modern, relevant and compelling vehicle, with its well-proportioned compact body and purposeful stance. Its distinctive silhouette and beautifully sculpted surfaces all combine to create a vehicle that truly connects on an emotional level.

New Discovery Sport is ready for anything. Characteristic design cues complement perfectly balanced proportions. Strong dynamic lines and robust detailing signal the New Discovery Sport incredible breadth of capability.

Signature features include a clamshell hood and distinctive two-bar grille with hexagonal mesh.

The fast hood line with a pronounced step into the rising belt line conveys a dramatic stance, while the roof tapers subtly downwards, adding extra dynamism.

Vehicle shown above and right is HSE Luxury with Black Design Pack in Scotia Grey.

LAND ROVER
AIRBAG

INTERIOR

The desirability of the exterior design continues into the cabin with bold horizontal and vertical lines. Complemented by clean surfaces, superb finishes and optional premium leathers to promote what is a highly versatile package. Inside and outside seamlessly blend into a vehicle that clearly communicates its Discovery DNA, while firmly looking forward.

This spirit of adventure is reflected in the New Discovery Sport interior, which has been designed with you at its core.

It features high-quality materials and a strong vertical center console graphic to reflect the premium design of the exterior.

The cabin is integrated with up to four 12V power points and six USB charging sockets. These can be specified for all three rows of seating, allowing multiple electronic devices to be charged simultaneously.

Interior shown above and left is HSE Luxury in Glacier/Lunar with Glacier seats. European model shown.

5+2 SEATING

New Discovery Sport offers exemplary levels of comfort and outstanding versatility. The second row is extremely spacious and flexible with the seats able to slide back and forth by 6.3 inches for greater loadspace or comfort*.

The optional third row, with its simple, single-handed 50:50 deployment, has been cleverly incorporated to avoid any compromizes to the vehicle's exterior design, while maintaining passenger comfort.

By folding down the third row, a flat loadspace is available for whenever you need it. So wherever you're seated, or whatever you want to carry, you can relax.

*Where 60:40 second row seats with slide and recline is specified.

Interior shown left is HSE Luxury in Glacier/Lunar with Glacier seats. European model shown.

LOADSPACE CAPACITY

Family and friends keen to get out there and make the most of a new day? New Discovery Sport has been designed and engineered to meet any challenge.

The vehicle has the option of flexible seating which, when stored flat, gives a load floor that is as long as Range Rover and a maximum loadspace of 62.8 cubic feet.

Even while carrying five passengers, the loadspace is still an impressive 34.6 cubic feet. New Discovery Sport can handle bulkier loads with consummate ease when the second and third row are folded flat. Such flexibility helps make carrying family, friends and all their gear that much easier.

DISCOVERY

TERRAIN RESPONSE®

Land Rover has always been synonymous with capability and the New Discovery Sport lives up to even the most demanding expectations. Confident and responsive, the drive is further enhanced by a generous wheel articulation and innovative off-road technologies such as Terrain Response®*.

This feature adapts to the responses of the vehicle's engine, gearbox, differentials and chassis systems to maximize driveability, comfort and traction.

There are four standard Terrain Response® settings: General Driving, Grass/Gravel/Snow, Mud & Ruts and Sand. So, the vehicle feels sure-footed no matter what the terrain.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Vehicle shown left is HSE Luxury with Black Design Pack in Scotia Grey.

HILL DESCENT CONTROL (HDC®)

New Discovery Sport bursts with technologies* that enhance the vehicle's performance and capabilities. One such feature is the Land Rover patented Hill Descent Control (HDC®) which assists with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel.

Hill Start Assist ensures you don't roll backwards as you pull away on an incline*. The vehicle also utilizes **Gradient Release Control** which is designed to prevent the vehicle 'running away' on a steep incline when the driver inadvertently releases the brake*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Vehicle shown above is HSE Luxury with Black Design Pack in Scotia Grey.

DISCOVERY

TOWING AND DRIVING AIDS

With a towing capacity of up to 4,400lb and by incorporating tailored technologies, New Discovery Sport can handle the most demanding of tasks.

TOW HITCH ASSIST

Tow Hitch Assist* makes coupling a trailer to the vehicle that much easier by helping you visualize the hitching process; it displays the predicted path of the vehicle towards the trailer tow bar on the Touch-screen.

On the road, the **Tow Assist** feature helps with reversing by predicting the trailer's direction. You can even choose your trailer's width for precise guidelines displayed on the Touch-screen.

TRAILER STABILITY ASSIST

Trailer Stability Assist (TSA)* monitors the vehicle to detect movements in the trailer and then uses selective braking to help correct potentially hazardous situations.

*These features are not a substitute for driving safely with due care and attention, and will not function under all circumstances, speeds, weather and road conditions. The driver should not assume that these features will correct errors of judgment in driving. Please consult your vehicle's owner's manual or your local authorized Land Rover Retailer for more details.

Vehicle shown left and above is HSE Luxury with Black Design Pack in Scotia Grey. European model shown.

DRIVER AIDS

COMMAND DRIVING POSITION

The Land Rover Command Driving Position provides the driver with an elevated view of the road ahead and its surroundings, ensuring you're always more aware of conditions. So you can drive accordingly.*

*These features are not a substitute for driving safely with due care and attention, and will not function under all circumstances, speeds, weather and road conditions. The driver should not assume that these features will correct errors of judgment in driving. Please consult your vehicle's owner's manual or your local authorized Land Rover Retailer for more details.

Vehicle shown above is HSE Luxury with Black Design Pack in Scotia Grey.

COMFORT FOR ALL

CLIMATE FRONT SEATS

For the ultimate comfort whatever the temperature, climate front seats are available. This option provides both heated and cooled ventilation through perforations in the leather seats. The driver and passenger preferences can be independently controlled via the Touch-screen*.

HEATED REAR SEATS

For added comfort vehicles can be specified with optional heated second row seats.

CONFIGURABLE MOOD LIGHTING

New levels of ambient refinement and personalization have been reached with the option of Configurable Mood Lighting. Using a combination of colored LEDs, this feature allows you to vary the shade, changing the ambience of the cabin to suit your mood. There are five colors in total, ranging from white through to moonlight and red.

PANORAMIC ROOF

The optional full glass fixed panoramic roof enhances the sense of space in the vehicle's interior and floods it with natural light as well as providing uninterrupted views of the surrounding environment.

To maintain a comfortable interior temperature and to provide a sense of privacy, the toughened glass has a dark tint to offer a high degree of solar protection. When additional shade or privacy is required, an electric fabric sunblind can be extended across the full surface of the glass roof.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones, and other devices, even with voice commands, when it is safe to do so..

Vehicle shown right is HSE Luxury in Glacier/Lunar with Glacier seats. European model shown.

COMFORT FOR ALL

POWERED TAILGATE

This optional feature allows the tailgate to be opened using the key fob, a switch on the facia or operated independently using a button on the tailgate itself. A button located inside the tailgate allows the tailgate to be closed automatically.

USB CHARGING POINTS

Want to charge a games console, tablet or smartphone while you're on the move? New Discovery Sport has the option of six charging USB ports throughout all rows, to make charging your device effortlessly simple.

Vehicle shown left is HSE Luxury in Kaikoura Stone.
Image shown above is HSE Luxury in Glacier/Lunar with Glacier seats. European model shown.

LAND ROVER INCONTROL®

INCONTROL TOUCH™

InControl Touch™ is the command center for a wealth of features designed to make your driving experience more entertaining. It features a contemporary and fresh graphical design displayed on an eight-inch Touch-screen*.

It is the central hub from where you can connect and control your chosen entertainment and media. You can therefore enjoy an unimaginable amount of music and imagery all within one simple to use system. The ability to connect your smartphone via Bluetooth® is also available.

It is the interface where you can control the ambient lighting to suit your mood and preference, by varying the color and brightness level. The system also controls the air flow distribution within the car and allows you to operate the climate seats. In addition, the system also offers a timed climate feature which acts as a digital thermostat, allowing you to set specific times and dates as to when your climate control is activated.

InControl Touch™ provides all of the capabilities that you need such as navigation system, Bluetooth® connection on your phone, ECO Data functionality and the Land Rover 4x4i function.

LAND ROVER INCONTROL®

INCONTROL PROTECT™

InControl Protect™ enables you to monitor your vehicle wherever you are. InControl Protect™ gives you peace of mind through SOS Emergency call and Optimized Land Rover Assistance. In the event of an emergency, the SOS Emergency call notifies the emergency services of the location of your vehicle.

INCONTROL REMOTE™

InControl Remote™ is an app available on Android™ and iPhone®, which allows you to interact with your vehicle remotely. InControl Remote not only provides basic information with the use of a remote it also enables you to communicate with your vehicle. You are able to lock/unlock your vehicle, cool/heat your vehicle to the desired temperature prior to your journey and set a 'beep and flash' in order to locate your vehicle in a crowded car park.**

The InControl Remote App ensures you are fully prepared for your journey by displaying the fuel level and location of your vehicle. Remote also gives you vital information on fluid levels and whether your vehicle is locked or any doors or windows are open. You are also able to download your journeys to assist in reviewing mileage.

LAND ROVER INCONTROL® APPS™*

Connects your smartphone with the Touch-screen in your vehicle, meaning you can stay safely connected to your smartphone. Land Rover InControl® Apps™ enables you to control compatible apps on the InControl Touch-screen, ensuring the safe and convenient use of apps that have been optimized specifically for use within your vehicle.

*Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.
**Functionality is market dependent. Please ask your Land Rover Retailer for more information.
iPhone® is a registered trademark of Apple Inc., registered in the US and other countries.
Features and their availability may differ by vehicle specification and market. Please contact your Land Rover Retailer for further information.
The Bluetooth® word mark and logo are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under licence.

DISCOVERY

NINE-SPEED AUTOMATIC

New Discovery Sport paired with a state-of-the-art nine-speed automatic gearbox with an innovative adaptive shifting system which matches the driver's mood within seconds. One of the most efficient and technically advanced transmissions used in a production vehicle, its controls include rotary gearshift and steering wheel-mounted paddle-shift as standard.

Nine gears deliver improvement in fuel economy and a corresponding reduction in CO_2 emissions while smaller ratio steps give improved response during acceleration, improved shift quality, drive and refinement.

2.0 LITER TURBOCHARGED I-4

New Discovery Sport gas models feature a turbocharged 240PS 2.0 liter turbocharged I-4 engine, combining six-cylinder refinement and performance with four-cylinder fuel economy. Twinned with a nine-speed automatic gearbox, the turbocharged I-4 delivers 0-60mph in 7.8 seconds with a top speed of 124mph.

This lightweight engine combines three key powertrain technologies – advanced low-inertia turbocharging, high-pressure direct fuel injection and twin variable valve timing. Together, they provide outstanding driveability, with very strong bottom-end performance and an extremely broad power band.

STRENGTH AND STABILITY

BODY

New Discovery Sport features a strong, lightweight body structure which has been developed using advanced, weight saving materials to deliver stiffness and refinement together with crash performance.

The structure is based on a steel monocoque foundation which is derived from the Land Rover compact SUV platform.

Lightweight technologies are used extensively in the body design including an optimized steel body construction, aluminum hood, roof and tailgate panels, lightweight aluminum suspension components, magnesium cross car beam and front end carrier.

CHASSIS AND VEHICLE DYNAMICS

New Discovery Sport has an advanced new fully independent suspension system that has been specially developed by Land Rover engineers to deliver agile and refined on-road dynamics along with the brand's legendary all-terrain capability. Lightweight aluminum chassis components are used extensively on New Discovery Sport to improve suspension performance by increasing stiffness and reducing unsprung weight, while also reducing total vehicle weight.

FRONT SUSPENSION

Aluminum components are used within the front suspension, including the front lower control arm and suspension knuckle. The front suspension struts have advanced hydraulic rebound stops, which help to manage the noise and loads caused by severe impacts such as speed bumps to maintain composure in urban and off-road environments.

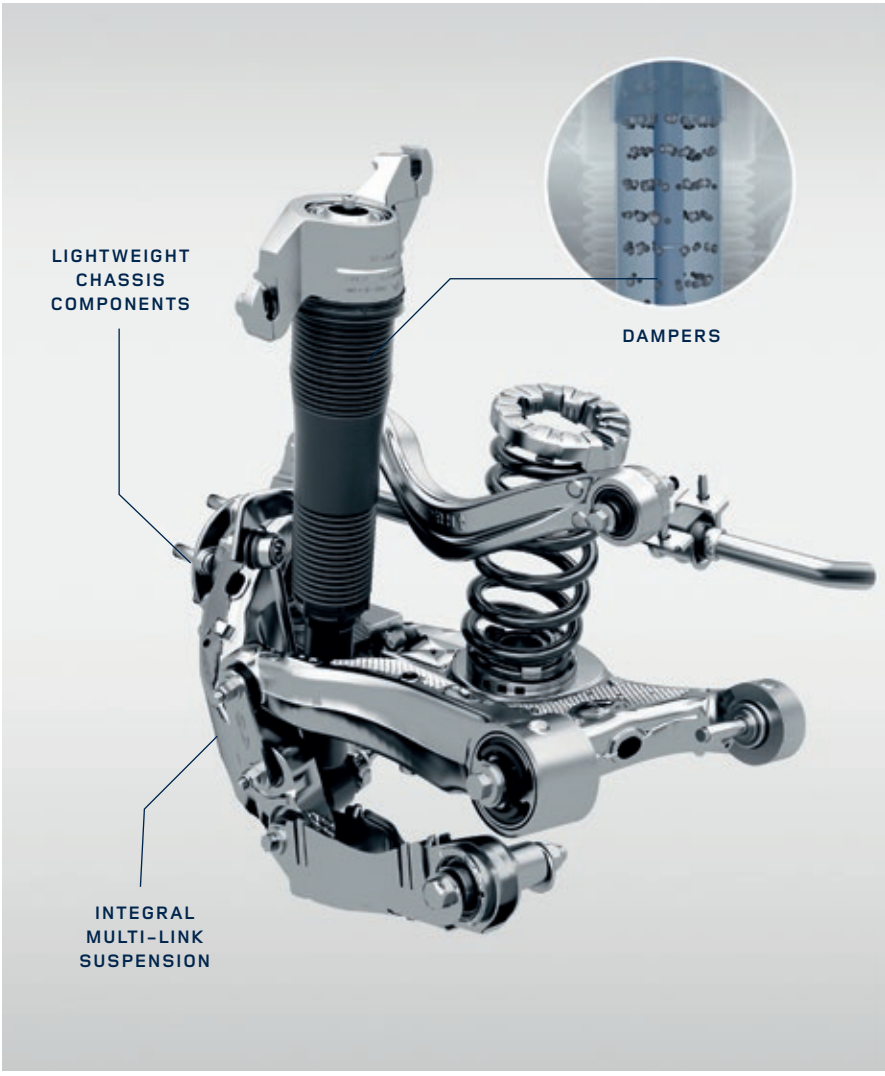
COMPACT REAR SUSPENSION DESIGN

New Discovery Sport has a fully independent suspension system that combines front coil-sprung struts with an advanced new multi-link rear suspension design. This delivers enhanced dynamics and refinement together with a compact layout to provide increased interior space.

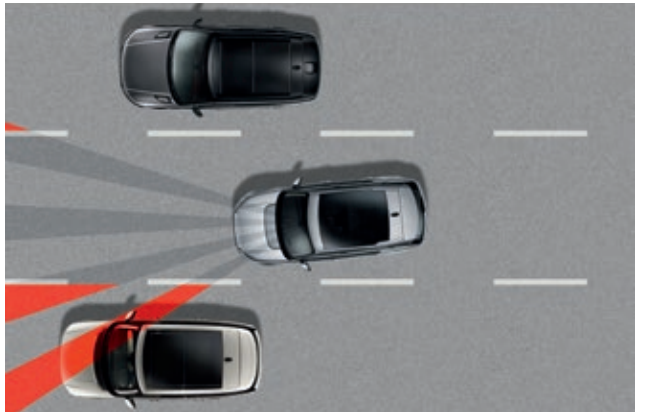
The system has been specifically developed to enhance the New Discovery Sport unrivalled breadth of capability, offering responsive and agile handling together with supreme ride quality and refinement. Excellent wheel travel and articulation helps the vehicle achieve class-leading off-road performance.

The compact aluminum multi-link layout also creates a much more spacious rear compartment, with enhanced shoulder and elbow room, the option of 5+2 seating and increased luggage space.

Mounted on an optimized steel subframe, the system is light and stiff for optimum steering response, chassis performance and refinement.

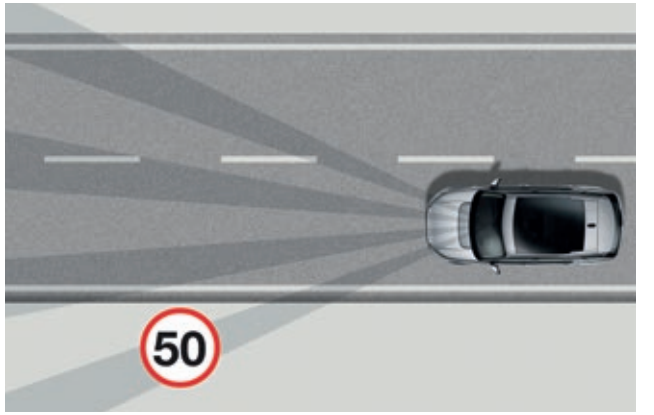


LIGHTWEIGHT CHASSIS COMPONENTS
DAMPERS
INTEGRAL MULTI-LINK SUSPENSION



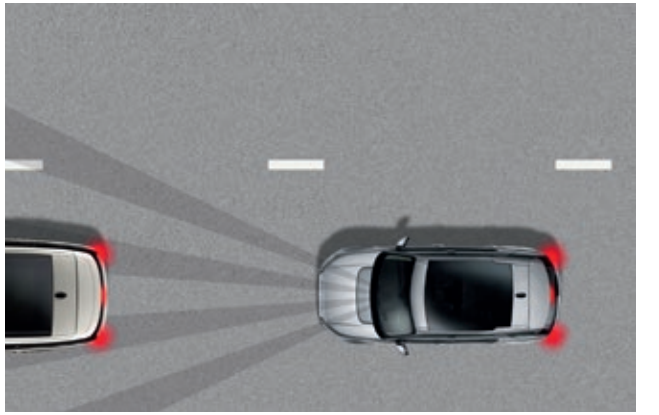
LANE DEPARTURE WARNING*†

A forward-facing camera mounted ahead of the rear view mirror monitors the lane markings on both sides of the vehicle and is designed to give the driver a warning should the driver drift out of the lane without the indicators being triggered. The alert comes in the form of a discrete vibration through the steering wheel, allowing the driver to take the appropriate action.



TRAFFIC SIGN RECOGNITION*†

Working in conjunction with the navigation system, this system scans the road ahead for certain traffic signs and displays them in the Message Center in the instrument pack. The following signs are detected: speed limit signs, no-overtaking signs, variable overhead speed signs and traffic signs.



AUTONOMOUS EMERGENCY BRAKING*†

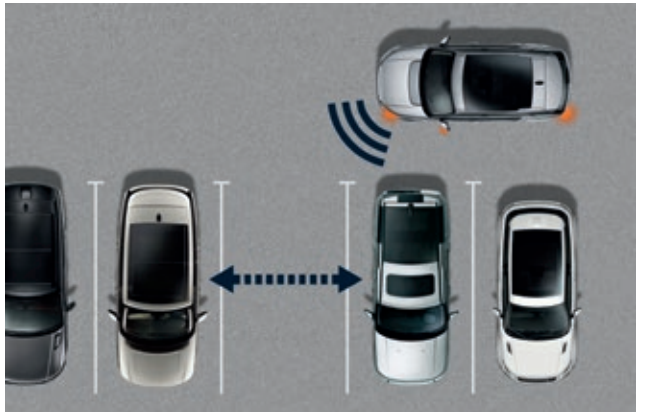
This system helps further enhance the active safety aspects of New Discovery Sport. Using a forward-facing digital camera, it detects static vehicles and vehicles travelling in the same direction and automatically reduces impact speed if it calculates that a collision is likely. The driver is alerted of the risk by a visual and audible warning signal.

*Only available on HSE and HSE Luxury as part of the Driver Assist Plus Pack

†These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details

REVERSE TRAFFIC DETECTION†

Activated while reversing, this optional system works by informing the driver in the event of a vehicle approaching from either side which may present a hazard, with both audible and visual warnings.



PARALLEL PARK AND PERPENDICULAR PARKING†

Optional Parallel Park is designed to identify suitable parking spaces and to automatically steer into the space while you operate the pedals.

Perpendicular Park is an optional addition to the system. Truly useful in parking lots and tight spaces, it automatically assesses whether the chosen space is wide enough before steering the vehicle centrally into place.

ADAPTIVE XENON HEADLAMPS†

With their signature design, these optional distinctive LED lights combine distinctive looks with real capability. Adaptive Xenon lights swivel to follow the road while static bending lamps follow the curb to give the driver greater confidence at night.

SUSTAINABILITY

Sustainability is at the heart of everything we do and consequently all powertrains on New Discovery Sport have been developed to enhance sustainability by minimizing fuel consumption and CO_2 emissions.

The gas engine features the latest high-pressure direct injection technology and state-of-the-art low-friction designs which have been carefully developed to minimize frictional losses. While **nine-speed automatic transmissions** is specified with the latest low viscosity transmissions fluid to maximize efficiency.

An advanced **Intelligent Stop/Start system** is standard on automatic models which automatically shuts down the engine in just 300 milliseconds when the car comes to rest. This improves fuel economy and CO_2 emissions by between five and seven percent.

A smart **regenerative charging electrical system** has also been introduced which has an intelligent power management system to prioritize charging when the car is decelerating, capturing the wasted kinetic energy and reducing the fuel demand of the electrical system.

The **ECO Data** feature provides drivers with information and feedback via the eight-inch Touch-screen to help them adopt more economical driving habits.

OPTIMIZED AERODYNAMICS

With its more streamlined profile, New Discovery Sport is the most aerodynamic Land Rover vehicle yet, with an eight percent reduction and a drag coefficient (Cd) of 0.36. New Discovery Sport also offers a unique 18 inch alloy wheel for improved aerodynamics.

LIGHTWEIGHT MATERIALS

To optimize vehicle performance and efficiency, New Discovery Sport has been developed using lightweight materials and technologies. The vehicle has been designed with key weight-saving technologies including a steel body construction, aluminum hood, roof and tailgate panels, lightweight aluminum suspension components, magnesium cross car beam and front end carrier.

The four-wheel driveline components have also been optimized for weight. The interior has also been designed with efficiency in mind, with enhanced seat structures which use laser-welded high tensile steel.

EACH MODEL HAS A CHOICE OF UNIQUE FEATURES.

This guide will help you to select your ideal New Discovery Sport.
On the following pages you'll see the standard features for each model.

DISCOVERY SPORT SE

– Grille in Dark Atlas with Narvik Black surround
– Fender vents in Dark Atlas
– Body colored door handles
– Body colored mirror caps
– Discovery script on hood and tailgate in Brunel
– Tow eye covers in Dark Techno Silver
– Tailgate finisher in Narvik Black
– Halogen headlamps
– 18 inch nine split-spoke 'Style 109' alloy wheels
– Seats in Partial leather
– Rear view camera*
– Rear Park Distance Control*
– Powerfold exterior mirrors
– Second row seats with slide and recline
– Two USB ports in second row with charging

*These features are not a substitute for driving safely with due care and attention, and will not function under all circumstances, speeds, weather and road conditions. The driver should not assume that these features will correct errors of judgment in driving. Please consult your vehicle's owner's manual or your local authorized Land Rover Retailer for more details.

(1) Please remember that the safety belts in a Land Rover vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

CHOOSE YOUR SEAT CONFIGURATION

60:40 Folding Second Row Seats with Slide and Recline

These seats have forwards/backwards movement of 6.3 inches allowing truly flexible use of space for luggage or to maximize passenger legroom. The seats can also recline to provide even greater comfort.

Optional 5 + 2 Seating

A neatly integrated third row of seats can be specified to give you even more versatility. These seats are ideal for children and teenagers, or adults on short journeys. They are easily accessed by tipping and sliding forward the second row seats. When folded, the third row seats leave a flat floor in the luggage compartment as if it were a five-seat model.

CHOOSE YOUR INTERIOR COLOR COMBINATIONS

Now you have chosen your model, you can use this selection to select the perfect combination of interior color, exterior color and center side stack rails.

LAND ROVER APPROVED ACCESSORIES

New Discovery Sport is so capable and adaptable it can get straight to work across a huge variety of vastly differing conditions and roles. Even so, some owners want to add their own stamp of individuality by tailoring their New Discovery Sport to their specific needs with a range of stylish, practical accessories that are tough, versatile and bring an opportunity for personalization to New Discovery Sport. Importantly, these accessories can be added at any stage during the vehicle's life – not just when it's new. Naturally, Land Rover Approved Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

Vehicle shown left and above is HSE Luxury with Black Design Pack in Yulong White.
Color shown is not available in the US market, please contact your local authorized Land Rover Retailer for more information.

Side Steps*
VPLCP0210

The side steps aid entry and exit to the vehicle and improve access to the roof. Design features include bright stainless steel edge trim and a rubber tread mat.

Side Tubes*
VPLCP0209

Manufactured from stainless steel with a highly polished finish. The rugged off-road appearance complements the vehicle's exterior design.

19 inch five split-spoke 'Style 523'**
VPLCW0104

With ceramic finish, contrasting Gloss Black inner spokes and a laser etched red pinstripe.

Stainless Steel Front Undershield
VPLCP0212

The off-road styled undershield features a premium bright polished finish for the front of the vehicle.

Stainless Steel Rear Undershield†
VPLCP0213

The off-road styled undershield features a premium bright polished finish for the rear of the vehicle.

20 inch five split-spoke 'Style 524'

With satin polished finish. Please contact your local authorized Land Rover Retailer for further details.

*Fitting of side tubes or side steps may affect the off-road capability of vehicle **Please contact your local authorized Land Rover Retailer for availability
†Not available with towing systems for vehicles equipped with 5+2 seating and reduced section spare wheel.

Luggage Divider – Full Height*
VPLCS0299

Luggage Divider – Loadspace Partition*
VPLCS0301

The luggage divider is designed to prevent cargo from entering the passenger compartment. It incorporates a useful integral ski hatch that allows longer items to be carried where a suitable rear seat option is fitted. The design of the luggage divider has been optimized to second row seating featuring tilt functionality. The Loadspace Partition can be fitted to either the full height or half height luggage divider to separate the loadspace into two sections.

Luggage Divider – Half Height*
VPLCS0300

The luggage divider is designed to prevent cargo from entering the passenger compartment. The design of the luggage divider has been optimized to second row seating featuring tilt functionality.

Loadspace Mat – Rubber
VPLCS0279

Waterproof rubber mat helps to protect the rear loadspace carpet from general dirt. Rubber mat extension for protection of the back of the rear seats when folded down also available – Part No: VPLCS0273.

Loadspace Liner Tray
VPLCS0274
VPLCS0268 – With luggage divider (not shown)

This liner provides superior protection to the loadspace floor and side wall carpets from dirty or wet equipment.

Flexible Loadspace Liner
VPLCS0272

Heavy duty fabric helps protect loadspace with floor, side trim and second row seat backs covered.

Loadspace Rails
VPLCS0303

Luggage Retention Kit
VPLCS0324

Loadspace Rails enable a number of convenient carrying accessories. The Luggage Retention Kit consists of a pack of attachments that fix into the loadspace rails via a quick lock/quick release system to provide a flexible solution for retaining items. The attachment pack includes a retractable strap with inertia reel, telescopic rod and stowage bag.

*Can be fitted with Loadspace Rubber Mat (VPLCS0279) and Loadspace Liner Tray (VPLCS0268).

Aperture Retention Net
VPLCS0267

The aperture retention net keeps loads secure when tailgate is opened and maximizes packing space.

Loadspace Retention Net
VPLCS0269

The loadspace retention net utilizes loadspace tie-down points to prevent items from moving when driving. Includes floor net and two ratchet straps.

Tailgate Seat
VPLCS0339

Removable moulded tailgate seat provides convenient seating on rear loadspace lip for occasional use. It sits over the rear tailgate retaining to the loadspace floor. It is supplied with a branded Land Rover Stowage bag that secures against the second row seatback for convenient stowage.

Rear Bumper Protection Cover
VPLVS0179

Provides protection to the bumper paintwork while loading and unloading.

Rear Loadspace Treadplate Finisher
VPLCS0287LAA – Lunar
VPLCS0287PVJ – Ebony (not shown)

Manufactured from stainless steel with a bright finish, the Rear Loadspace Treadplate Finisher provides protection for the loadspace trim when loading or unloading.

Loadspace Organizer
VPLCS0340

Convenient Loadspace organizer tray provides segregated compartments to stow delicate items or separate shopping/cargo. Featuring Lockable Lids, it is secured via Loadspace D Loops.

Premium Carpet Mats
VPLCS0282LAA – Lunar
VPLCS0282PVJ – Ebony (not shown)

Deep pile 4.5lb weight carpet mats with waterproof backing.

Carpet Mats

Carpet mats provide a well appointed finishing touch to the interior, with waterproof backing. Please contact your local authorized Land Rover Retailer for part number information.

Rubber Floor Mats
VPLCS0281 – Front and second row
VPLCS0280 – Third row (not shown)

Rubber footwell mats help provide protection from general dirt.

Center Armrest Cooler/Warmer Box
VPLVS0176

This convenient drink and food cabinet is ideal for use on long journeys and also provides a comfortable rear center armrest with a premium leather finish.

Illuminated Treadplates
VPLCS0286LAA – Lunar
VPLCS0286PVJ – Ebony (not shown)

Retailer-fit treadplates featuring illuminated Discovery script. Supplied as a pair for driver and front passenger sides of the vehicle to welcome you into the cabin.

Brushed Finish Treadplates
Lunar – VPLCS0289LAA
Ebony – VPLCS0289PVJ (not shown)

Front pair of brushed finish treadplates to add style to your vehicle and protect the sill trim from scuffs and scrapes.

Please contact your Land Rover Retailer for part number information.

Stainless Steel Sports Pedals
VPLHS0044 – Automatic Transmission vehicles

Stainless steel pedals feature a bright design and hidden fixings for a clean finish.

Stainless Steel Sports Footrest
VPLVS0178

Complementing the sports pedals, the footrest is manufactured from stainless steel and features a satin finish.

Rear Sun Blinds
VPLCS0298 – Second row
VPLCS0297 – Third row
VPLCS0296 – Tailgate (not shown)

Easy to install or remove these sun blinds provide increased comfort helping to protect passengers from heat and glare of the sun. Three versions available for the second row, third row passenger side windows and the rear tailgate.

Cabin Umbrella Holder
VPLCS0294

Designed to take a wide range of compact umbrellas, this product fits discretely under the front passenger seat.

Coat Hanger
VPLCS0276

Convenient coat hanger attaches to the head restraint posts.

iPad Holder
VPLVS0165 – iPad®*
VPLVS0164 – iPad® 1

Provides secure mounting for your iPad®. Rear seat facing, attaches to the head restraint posts.

Gearshift Paddles
VPLVS0187MMU – Aluminum
VPLVS0187CAY – Aluminum Red

Complete the look and feel of your steering wheel with premium Aluminum paddles. Gearshift Paddles are machine polished, anodized and hand brushed to provide exceptional wear resistance with a premium finish.

Seat Back Stowage
VPLVS0182 – Premium
VPLVS0181 – Standard (not shown)

Convenient stowage system manufactured from the same grade of Windsor leather available in the interior, for the rear of the front seats provides multiple compartments for stowing small items. The premium seat back stowage also features a soft touch interior lining and magnetic clasps.

*Compatible with 2nd, 3rd and 4th generation iPads®. Not compatible with iPad Air™ or iPad Mini™.
iPad® is a registered trademark of Apple Inc., registered in the US and other countries.
Please note: The design of accessories is subject to change and may differ from the images shown.

Roof Rails
VPLCR0137 – Silver finish (panoramic roof)
VPLCR0133 – Silver finish (fixed roof)†
VPLCR0136 – Black finish (panoramic roof)
VPLCR0132 – Black finish (fixed roof)†

Roof rails facilitate easy fitment of cross bars. Pre-set positioning points ensure cross bars are fixed in optimum position for weight distribution and dynamics.
Maximum payload 165lb.**

Cross Bars
VPLCR0131

T-track design utilizes the full length of the bars, providing space to mount multiple accessories. Aerodynamic profile minimizes drag and noise. Roof rails not included.

Aqua Sports Carrier*
VPLGR0107

Aqua Sports Carrier transports one surfboard, sailboard, canoe or kayak. Includes lockable multi-purpose holder to carry a mast, oars or paddles. Tilts to facilitate easy loading/unloading.
Maximum payload 99lb.**

Aqua Sports Carrier – Two Kayaks* (not shown)
VPLWR0099

The Aqua Sports Carrier – Two Kayaks transports up to two kayaks or canoes. Also suitable for transporting crafts such as surfboards or small boats.

Roof Box*
VPLWR0100 – Large Sports Roof Box*
VPLVR0061 – Sports Roof Box* (not shown)
VPLVR0062 – Luggage Roof Box* (not shown)

Available in a range of sizes, all versions can be mounted either side for curbside opening in any country and include integral locks for security and peace of mind. Carrying capacity ranges from 11.3 cubic feet for the Sports Box to the 14.5 cubic feet Luggage Box or the capacious 15.2 cubic feet Large Sports Box.
Maximum payload 165lb.**

Ski/Snowboard Holder*
LR006849

Carries four pairs of skis or two snowboards. Lockable for security. Maximum payload 79lb.**

Roof Mounted Bike Carrier*
VPLFR0091

Lockable bike carrier designed for holding a single bike. Cross bar kit will accommodate up to three bike carriers.

Luggage Carrier*
LR006848

Flexible rack system to facilitate roof carrying. Maximum payload 165lb.**

*Roof rails and cross bars are required for all Land Rover roof mounted accessories.
Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio system, if fitted.
**Maximum payload equals the load capacity of the roof mounted accessory. †Vehicles with a fixed roof require separate ditch finishers, color matched to the rails. Part No. Silver – VPLCR0135 and Black – VPLCR0134.

Rear Mudflaps
VPLCP0204
VPLCP0205[Δ]

Mudflaps to reduce spray and help protect paintwork.

Front Mudflaps
VPLCP0203

Mudflaps to reduce spray and help protect paintwork.

Body Side Mouldings
VPLCP0214

Providing protection for your door panels from accidental damage by adjacent vehicles.

Fixed Tow Receiver[††]
VPLCT0143

For 5+2 seat models with a reduced sized spare tire.

Tow Hitch Drawbar[††]
VPLCT0161

For 5+2 seat models with a reduced sized spare tire.

Towing Electrics[††]
VPLCT0157

For 5+2 seat models with a reduced sized spare tire.

Fixed Tow Receiver[††]
VPLCT0141

For 5 seat models.

Tow Hitch Drawbar[††]
VPLCT0160

For 5 seat models.

Towing Electrics[††]
VPLCT0134

For 5 seat models.

[††]Maximum towing capacity 4409lb (capacity dependent upon engine, powertrain variant and seating) [Δ]Offered for vehicles equipped with 5+2 seating and reduced section spare wheel

LAND ROVER EXPERIENCE

Ever since its inception, Land Rover has been ready for anything. Its legendary capability has seen it tackle the most demanding of terrains, in the most difficult conditions. Its versatile interior has become synonymous with comfort and greater loadspace. And its 'can do' attitude has made it the most welcome of vehicles across the globe.

You can be part of the Land Rover story at one of our Land Rover Experience centers. You can see how each and every one of these iconic vehicles is built. You can take one out onto off-road tracks where your driving skills will be put to the test.
Or you can go even further on one of our Adventure Travel holidays to such countries as Tanzania, Iceland or Morocco.

Adventure awaits.

BEHIND THE SCENES TOURS

Ever wanted to discover how your Land Rover was built? To see the incredible journey upon which each and every one of our vehicles travels before you receive it?

You can experience how it is created using state-of-the-art technologies, the most efficient processes, the finest materials and British Craftsmanship at our facilities around the world.

From on-demand ordering of parts, to final trim and quality tests, the entire process will come to life before your eyes. It's a truly impressive display of engineering, craft and precision; one that you can then physically enjoy by taking a vehicle out onto one of our Experience Drives.

For more information, visit
landrover.com/behindthescenestours

EXPERIENCE DRIVES

Wading through mud. Crossing a Tipping Bridge. Or creeping up a slippery, steep incline. Our Experience centers have an array of obstacles and challenges to tax even the most accomplished of drivers.

Our experts will teach you how to navigate through some of the most demanding terrain. Then, you can take the skills that you have learned and use them when you drive every day.

There's a choice of courses from Taster Drives through to Full Day Experiences, available in over 40 Land Rover Experience operations around the globe. Each one provides a unique and hugely memorable adventure that you, your family and friends can all enjoy.

You'll never feel more confident behind the wheel.

To book, go to
landroverusa.com/experiencedrives

ADVENTURE TRAVEL

Which destination would top your wish list of places to go on an adventure? The wide open, savagely beautiful plains of the Serengeti? Or simply exploring castles and manors around Britain? Well, you can revel in an epic adventure from the comfort and luxury of a Land Rover, assured in the meticulous planning and local insight for which Abercrombie & Kent is renowned. These two great British brands have come together to bring you a world of exploration, adventure and luxury in iconic worldwide destinations.

Each trip has a local guide and expert Land Rover instructors to provide support and guidance, ensuring you get the most out of your driving experience. Added to which, you will stay in boutique accommodation. Be part of an extraordinary journey, reimagined.

IMPORTANT NOTICE: The colors reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any color finish without notice. Certain specifications are built to customer special order.

For delivery availability information, please consult your Land Rover Retailer. Some of these colors may not be obtainable in your country. Please check availability with your Land Rover Retailer. This publication is for international usage and while Land Rover takes the utmost care in ensuring that all the details in the publication are correct at time of printing, we are constantly striving for improvements, and therefore reserve the right to alter specifications and equipment without notice. Details of specifications and equipment are also subject to change to suit local market conditions and requirements, and not all products are available in every market. Some vehicles may be shown with accessories or optional equipment fitted.

These products vary from market to market. Please consult your Land Rover Retailer who will be pleased to advise you on current specifications. Retailers are not agents of Land Rover and have absolutely no authority to bind Land Rover to any express or implied undertaking or representation.

Castrol EDGE Professional exclusively recommended by Land Rover.

European models shown. US production vehicle may differ from the one shown.
