Tired of all the performance cars out there that look so much the same, you can hardly tell them apart? Then it’s time you took a look at the all-new 2019 Hyundai Veloster.

Reprogrammed with next-gen technology. Retuned to optimize its sure-footed fraction. Re-engineered with turbocharging on three trim levels. And redesigned to give its signature 3-door concept a modern, boldly sculpted form. “The new Veloster” notes Motor Trend “certainly won’t be mistaken for anything else.” Not with that underbody rear air diffuser, center exhaust and, on Turbo Ultimate models, contrasting black roof.

And while it separates itself from the pack of cookie-cutter designs, the new Veloster is all about connecting you seamlessly in both the road and your digital world. The tight grip of a new multi-link rear suspension is the next best thing to Velcro.® Veloster also syncs with connectivity technologies, voice assistants and custom apps that transform the relationship between you, your car and your smartphone.

If the new 2019 Veloster sounds like a car you can’t wait to drive, visit your Hyundai dealer. While you’re at it, check out the free downloadable version of the new Veloster you can drive via Forza Motorsport 7 on Xbox One®. Spotting the new Veloster is easy. It’s the wicked-looking one.

Hyundai has the lowest 5-Year Cost to Own of all brands for 2018 according to Kelley Blue Book’s KBB.com, highlighting our industry-leading ownership value. 2018 VELOSTER Turbo Ultimate in Sunset Orange with two-tone black roof

It’s not a styling exercise. It’s a body of knowledge.

Groundbreaking cars like Veloster tend to feature radical-looking designs. But provocative shapes like Veloster’s weird air curtains aren’t just for show—they channel airflow to help minimize aerodynamic drag. The body beneath all of Veloster’s sleek styling is equally innovative. Advanced high-strength steel is strategically engineered to create a body structure that’s highly rigid and optimized for crashworthiness. Yet it’s remarkably light. And taking pounds off is what turns Veloster on—it results in an experience that’s naturally quick, and handling that’s razor-sharp.

A platform this fundamentally sound enabled Hyundai engineers to fine-tune it into the new Veloster 2.0, Veloster Turbo and Veloster R-Spec. Each is a unique interpretation of how rally-bred performance can translate to the street, starting with the way power transfers to the pavement.

Like to be in total charge of each shift? Choose Veloster’s 6-speed manual transmission. Prefer to engage selectively? Hyundai’s 6-speed SHIFTRONIC® automatic transmission with manual controls lets you decide when to take a hands-on approach. There’s also a 7-speed Dual Clutch Transmission that moves you briskly through the gears. A feature called Drive Mode Select lets you tailor the shift points, throttle response and steering feel to one of three modes—Normal, Sport or Smart. Of course, by considering the new Veloster, you’re already in smart mode.

The new Veloster 2.0 features a 2.0L Atkinson Cycle 4-cylinder engine rated at 147 HP and 132 lb-ft of torque. This fuel-efficient, low-emissions engine is offered with your choice of 6-speed transmissions: Manual or automatic (including paddle shifters on Premium models).

Veloster 2.0

The new Veloster 2.0 features a 2.0L Atkinson Cycle 4-cylinder engine rated at 147 HP and 132 lb-ft of torque. This fuel-efficient, low-emissions engine is offered with your choice of 6-speed transmissions: Manual or automatic (including paddle shifters on Premium models).

Veloster Turbo

Powered by a 2.0L 4-cylinder turbo engine, the new Veloster Turbo serves up 205 HP of peak output between 5,500 and 6,200 rpm. Matched to a 6-speed manual or 7-speed Dual Clutch Transmission with paddle shifters, the Veloster Turbo is a performance vehicle like no other.

Turbo R-Spec

Some things aren’t subtle. The Veloster R-Spec’s 6-speed manual gearbox lets you fully engage all 201 turbocharged horses in a spirited conversation with the road. Michelin Pilot Sport 4 summer tires lend the standard multi-link rear suspension extra grip for crisp, confident handling.

Advanced Safety Technologies

- Forward Collision-Avoidance Assist
- Lane Keeping Assist
- Blind-Spot Collision Warning
- Driver Attention Warning
- Rear Cross-Traffic Collision Warning

VeLROSTER 2.0 Premium in Sonic Silver
In creating the new Veloster, designers from Hyundai studios around the world were given a challenge: Reimagine the driver’s car. Which explains why, when you sit in the driver’s seat of the 2019 Veloster, you sense the interior was designed with you at the center of it all.

Each trim level is designed with unique colors, materials and accents. An asymmetrical dashboard layout and connectivity technologies like Apple CarPlay™, Android Auto™ and Bluetooth® cater to your sense of command and control. The way you’ve settled into is instantly comfortable with the firm support you’ll need to keep you planted when the road twists and turns. And like a jet pilot, you can project information such as turn-by-turn navigation onto the available Heads-up Display transparent pop-up screen in front of you.²

Opening the hidden third door makes it easy for rear-seat passengers to enjoy Veloster almost as much as you do. And there’s space in back to bring everyone’s gear along. With the rear seats up, the new Veloster has more cargo room than the Honda Civic Coupe, MINI Cooper 2-door and 4-door, Fiat 500 and VW Beetle.³ When you need to transport larger objects, Veloster’s 60/40 split rear seats fold down for 44.5 cubic feet of storage – and its hatch opens wide for easy loading.

You don’t just sit in it. You plug into it.

A standard cabin air filter lets you breathe easy, knowing dust and pollen are being cleansed from the interior air. Automatic temperature control and an oversized sunroof let you choose the perfect climate inside your Veloster’s cockpit.⁴

The available 8˝ floating touchscreen display that comes equipped on most Veloster models controls the Infinity® Premium Audio System. Veloster Turbo Ultimate’s 8˝ display includes advanced navigation with split-screen display, junction view lane guidance and traffic flow/incident data via HD Radio.

With the power of an external amp and deep bass of a subwoofer, the 8-speaker Infinity® Premium Audio System packs a punch. It features Clari-Fi™ Music Restoration Technology, which analyzes digital or streaming audio files during playback and restores high-fidelity sound qualities lost in compression.

The Air In There
A standard cabin air filter lets you breathe easy, knowing dust and pollen are being cleansed from the interior air. Automatic temperature control and an oversized sunroof let you choose the perfect climate inside your Veloster’s cockpit.

Big Screen, Big Sound
The available 8˝ floating touchscreen display that comes equipped on most Veloster models controls the Infinity® Premium Audio System. Veloster Turbo Ultimate’s 8˝ display includes advanced navigation with split-screen display, junction view lane guidance and traffic flow/incident data via HD Radio.

Power With Precision
With the power of an external amp and deep bass of a subwoofer, the 8-speaker Infinity® Premium Audio System packs a punch. It features Clari-Fi™ Music Restoration Technology, which analyzes digital or streaming audio files during playback and restores high-fidelity sound qualities lost in compression.

It’s time you felt a truly special connection with your car.

Hyundai’s award-winning Blue Link technology keeps you connected to the services, information and entertainment you want and need on the road. It starts with Blue Link Connected Care. Complementary for your first three years, it offers exceptional peace of mind. Your vehicle can automatically call for help if you're in an accident and the airbags deploy. You can also push Blue Link’s SOS button for 24/7 emergency assistance 365 days a year. Then there’s Blue Link Guidance. It lets you search, download and navigate to addresses and points of interest using voice commands from the driver’s seat or your smartphone before entering your car.

If you’re like most Hyundai owners, the Blue Link feature you’ll love most is Remote Access.1 Using your MyHyundai app, you can turn your smartphone into a remote control that locks or unlocks your vehicle before you walk out the door. You can also use voice commands with your Amazon Echo® or Google Home™ device to set your car’s cabin temperature from the comfort of your couch or kitchen. Blue Link can even help law enforcement recover your vehicle if it’s ever stolen.

Visit hyundaibluelink.com for more information on the complete list of innovative features Blue Link puts at your fingertips.

The Smartphone, Now Smarter

Standard Apple CarPlay™ and Android Auto™ integrate your smartphone with Veloster’s large floating display. So you can seamlessly access maps and navigation, contact lists, texts, calls, your music library and more using the car’s touchscreen or simple voice commands.

Cut The Cord

We get it – your life basically runs on your phone. Which is why Veloster 2.0 Premium and Veloster Turbo models makes it easier with a built-in wireless charging pad. Leave the hassle of messy cords behind – place your compatible smartphone on the pad and it soaks up the juice.
