

**MDX**

WHEN THE DRIVER COMES FIRST,  
THE LIMITS OF TECHNOLOGY ARE PUSHED,  
AND DESIGNERS, DREAMERS, ENGINEERS, AND OPTIMISTS  
COME TOGETHER TO BUILD A VEHICLE WITHOUT COMPROMISE.  
THAT IS THE ESSENCE OF PRECISION CRAFTED PERFORMANCE.  
THAT IS HOW WE CREATE THE ACURA MDX.

# A-SPEC

## DESIGN

### THE ULTIMATE PACKAGE

Designed to take the MDX to the next level, the available A-SPEC package goes far beyond a premium badge. Sport-inspired details elevate the MDX exterior, from striking 20-inch wheels, to larger and bolder exhaust finishers, to an aggressive new front fascia. Gloss-black and dark chrome accents adorn the headlights, grille, window surround and rear tailgate spoiler to create an aesthetic that is equal parts aggressive and elegant.

## INTERIOR

### EVERY DETAIL COUNTS

The more athletic stance of the MDX A-SPEC houses an equally bold interior. Red or ebony leather-trimmed sport seats, eye-catching metal sports pedals, red ambient lighting, and race-inspired paddle shifters round out the sporty, stylish cockpit.

## TECHNOLOGY

### STAY CONNECTED

The MDX supports both Apple CarPlay™<sup>2,4</sup> and Android Auto,™<sup>2,4</sup> helping to keep you connected to your compatible smartphone, including maps, texts, emails, music and more, all seamlessly integrated into your MDX's touchscreen display, so you can stay focused on the road.

### APPLE CARPLAY™

Place the power of your iPhone® in your dash with Apple CarPlay.™ A redesigned OS seamlessly integrates your compatible iPhone with the car's built-in display and controls, so you can make calls, access your music, send and receive messages, get directions or seamlessly tap into the power of Siri® with the press of a button.

### ANDROID AUTO™

Android Auto™ brings the Android experience to your car by projecting some of your favourite apps and services right into the MDX's touchscreen display, and it's highlighted by an intuitive interface that populates suggested directions, upcoming appointments and weather conditions, to name a few. The powerful new Talk to Google voice feature allows you to access directions via Google Maps, send and receive text messages and access your favourite music, providing an easier way to get the information you need, when you need it.

## SAFETY

### ACURAWATCH™

AcuraWatch™ combines a network of next-level sensing technologies designed to increase awareness and support the driver, working to help mitigate and in some cases even avoid impacts. Sensors are designed to continuously monitor the vehicle's surroundings and can recognize not only vehicles, but also the shapes of motorcyclists and pedestrians—even certain-shaped shrubbery and mailboxes. AcuraWatch™ can warn of potential threats, provide steering input to help keep you in the centre of a detected lane, apply brake pressure to help maintain a set interval from the vehicle detected directly ahead, and emergency-brake in some cases to help avoid or mitigate the risks of frontal collisions.

### FEATURES

- Forward Collision Warning (FCW) system<sup>2</sup>  
Collision Mitigation Braking System™<sup>2</sup> (CMBS®)
- Lane Departure Warning (LDW) system<sup>2</sup>  
Lane Keeping Assist System<sup>2</sup> (LKAS)  
Road Departure Mitigation (RDM) system<sup>2</sup>
- Adaptive Cruise Control (ACC)  
with Low-Speed Follow (LSF)<sup>2</sup>
- Available Blind Spot Information (BSI) system<sup>2</sup>
- Available Cross Traffic Monitor system<sup>2</sup>
- Multi-angle rearview camera<sup>2</sup> with dynamic guidelines  
Available surround view camera system<sup>2</sup>

### ELS STUDIO® PREMIUM AUDIO SYSTEM

To build something truly remarkable, you need to work with the best, which is why we collaborated with eight-time Grammy award®-winner Elliot Scheiner to create the critically acclaimed available ELS Studio® Premium Audio System. Whether you're listening over the airwaves, streaming digitally, or enjoying your own music library, ELS Studio® was designed to produce music as it's meant to be heard, so even the most familiar tunes will become a whole new listening experience. The result is an exceptional combination of engineering and artistry, and it's totally unique to Acura.

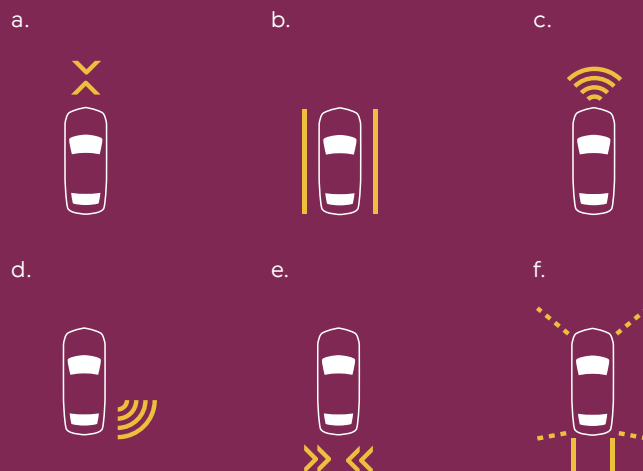

### ACURALINK

It's not enough to simply be connected anymore; we need tools that work harder for us. Available AcuraLink™<sup>2,4,11</sup> is designed to seamlessly connect you to the information and assistance you demand. Find nearby restaurants and points of interest while driving with the assurance of AcuraLink™ Assist services. Concierge Link puts personal assistants at your fingertips, so you can purchase airline tickets, book a hotel, or make dinner reservations, helping to ensure that all your journeys go off stress-free.

If traffic backs up, AcuraLink™ Real-Time Traffic™ with Traffic Rerouting™<sup>2</sup> helps to pull available highway and surface-street information, including traffic flow, incidents and construction, and can thoughtfully reroute you for a faster commute.

### ADVANCED COMPATIBILITY ENGINEERING™

Acura's next-generation Advanced Compatibility Engineering™ (ACE™) body structure was designed to absorb and disperse frontal impact energy more evenly around the vehicle, so less of it transfers to what really matters: the vehicle's occupants. Moreover, frontal crash compatibility is designed into the structure, so in the event of a collision with a smaller or larger vehicle, the occupants of both vehicles are better protected. But we didn't stop there. We innovated the structure around the doors, making them four to five times stronger than traditional-grade automotive steel to improve cabin strength and help to reduce the effects of an impact.

## AGILITY REDEFINED

The MDX is crafted from ultra high-strength steel, aluminum and magnesium to reduce weight and increase rigidity. And less weight equals more performance, which is why we cut every unnecessary ounce.

### AGILE HANDLING ASSIST

Agile Handling Assist uses active braking to aid in the accurate tracing of your desired line through a turn. The system can brake individual wheels as needed, effectively using brake torque-vectoring to directly control the vehicle's rotation. Working jointly with the Adaptive Damper System and Super Handling All-Wheel Drive™<sup>2</sup> the highly precise handling of the MDX was designed to feel more like that of a sports sedan than a luxury SUV for seven.

### ADAPTIVE DAMPER SYSTEM

Drive assured with the available Adaptive Damper System, which is designed to allow the MDX to remain soft and comfortable during highway cruising, yet firm when the road requires high-performance handling. By acclimating suspension responsiveness in a matter of milliseconds, the Adaptive Damper System strengthens the bond between driver and vehicle.

### INTEGRATED DYNAMICS SYSTEM (IDS)

With Comfort, Normal and Sport driving options, our Integrated Dynamics System (IDS) delivers three modes of Precision Crafted Performance, designed to complement the personality of the driver.

Choose between the three modes and the IDS will adjust the steering effort, throttle response, Super Handling All-Wheel Drive™<sup>2</sup> (SH-AWD®), even the sound of the engine, to match the mood you want to set for the drive ahead.

If you're looking to raise your pulse, Sport mode dials up throttle response and weights the steering for a sports car-like feel while inciting a more aggressive response from the SH-AWD® system. And for an even more engaging experience, put full manual control of the 9-speed automatic transmission at your fingertips with our race-inspired Sequential SportShift® paddle shifters.

### SUPER HANDLING ALL-WHEEL DRIVE™<sup>2</sup>

Super Handling All-Wheel Drive™ was designed to adapt to the driver for superb handling under virtually any condition, and is standard on every MDX.

This innovative torque-vectoring system sends power to the wheels that need it most, distributing power from front to back, or side to side on the rear wheels, helping to match driver input, weight distribution and available traction. In a corner, the system sends up to 100 percent of the rear power to the outside wheel, effectively rotating the vehicle and significantly enhancing manoeuvrability and control. This performance technology helps to provide seamless power transitions and remarkable control—control that goes beyond traction and forms a direct connection between driver and vehicle.

## PACKAGES

### TECHNOLOGY PACKAGE

(Adds to or replaces MDX features)

Blind Spot Information (BSI) system<sup>2</sup>

Cross Traffic Monitor system<sup>2</sup>

20" alloy wheels

Tires: P245/50 R20 102H

Acura Navigation System with Voice Recognition™<sup>10</sup>

Front and rear parking sensors

Tri-zone front and rear synchronized automatic climate control with humidity control and air-filtration system and sun position detection system

ELS Studio® Premium Audio System with AM/FM/MP3/Windows Media® audio playback capability and 10 speakers

AcuraLink™<sup>2,4,11</sup> Subscription Services

Hard disk drive (HDD) media storage

### A-SPEC PACKAGE

(Adds to or replaces Technology Package features)

20" alloy wheels, A-SPEC design

Tires: P265/45 R20 104H

Auto-dimming power folding side mirrors

Body-coloured door handles

LED fog lights

Painted front and rear lower skid garnishes

Perimeter/approach puddle lights

Keyless access system (front/rear doors and trunk) with Acura Personalized Settings

Alcantara/leather-trimmed seating surfaces with contrast stitching and seat piping

Metal sports pedals

Ventilated front seats

(A-SPEC Package does not feature headlamp washers)

### TECHNOLOGY PLUS PACKAGE

(Adds to or replaces Technology Package features)

Auto-dimming power folding side mirrors

Auto-levelling front headlamps

LED fog lights

AC power outlet (115-volt)

Keyless access system (front/rear doors and trunk) with Acura Personalized Settings

Perimeter/approach puddle lights

ELS Studio® Premium Audio System with AM/FM/MP3/Windows Media® audio playback capability and 11 speakers

Acura DVD Rear Entertainment System with 9-inch display

Heated 2nd-row seats (outboard positions only)

Perforated leather-trimmed seating surfaces with contrast stitching

Rear side sunshades

### ELITE PACKAGE

(Adds to or replaces Technology Plus Package features)

20" alloy wheels, Elite design

Tires: P265/45 R20 104V

Adaptive Damper System

Painted front and rear lower skid garnishes

Roof rails

Surround view camera system<sup>2</sup>

ELS Studio® Premium Audio System with AM/FM/MP3/Windows Media® audio playback capability and 12 speakers

Acura DVD Ultrawide Rear Entertainment System with 16.2-inch display and HDMI® (High-Definition Multimedia Interface) input jack

Genuine wood trim

Perforated leather-trimmed seating surfaces with contrast stitching and seat piping

Ventilated front seats

### SPORT HYBRID PACKAGE

(Adds to or replaces Elite Package features)

3.0-litre, SOHC, i-VTEC® aluminum-alloy V6 engine

3-motor hybrid powertrain: Front electric motor and rear twin motor unit

Total combined Hybrid horsepower\*: 321 hp

Total combined Hybrid torque\*: 289 lb.-ft.

Front motor horsepower @ rpm<sup>1</sup>: 47 hp @ 3000 rpm

Front motor torque (lb.-ft. @ rpm<sup>1</sup>): 109 lb.-ft @ 500-2000 rpm

Dual rear motors horsepower @ rpm<sup>1</sup>: (36 hp + 36 hp) @ 4000 rpm

Dual rear motors torque (lb.-ft. @ rpm<sup>1</sup>): (54 lb.-ft. + 54 lb.-ft.) @ 0-2000 rpm

Engine horsepower<sup>1</sup>: 257 hp @ 6300 rpm

Engine torque<sup>1</sup>: 218 lb.-ft. @ 5000 rpm

Displacement: 2997 cc

Bore and stroke: 86 x 86 mm

Compression ratio: 10.5:1

7-speed dual-clutch transmission with Sequential SportShift® paddle shifters, Grade Logic Control and Sport mode

Sport Hybrid Super Handling All-Wheel Drive™<sup>2</sup> (SH-AWD®)

Metal sports pedals

Towing capacity: 0 kg

\*Total combined horsepower and torque figures includes the maximum power of the engine and all motors combined that can be produced at any one time. Not SAE net.

- Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
- None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For more comprehensive product and feature information, limitations and restrictions, please visit [www.acura.ca/disclaimers](http://www.acura.ca/disclaimers) and refer to your vehicle's Owner's Manual.
- For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.
- Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.
- HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.). Additional control devices not provided by Acura may be required.
- Only available in certain areas. Includes a no-charge trial of three months.
- Estimated fuel consumption based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>.
- Based on SAE J1100 cargo volume measurement standard.
- Based on SAE J1100 cargo volume measurement standard, plus rear footwell space and front seats moved forward.
- Map Database of the Acura Navigation System covers major metropolitan areas in Canada and the 48 contiguous U.S. states. For a list of current, detailed coverage areas, refer to the Acura website, [www.acura.ca](http://www.acura.ca).
- Subscription required. Complimentary trial – one year for Security, one year for Remote, one year for Concierge – included, after which fees, taxes and other charges will apply in order to continue subscription. The availability of certain cellular networks is required for AcuraLink to operate properly. Service interruptions may occur and/or vehicle system upgrades may be required if cellular network availability is compromised. Ask your dealer for full terms and conditions.
