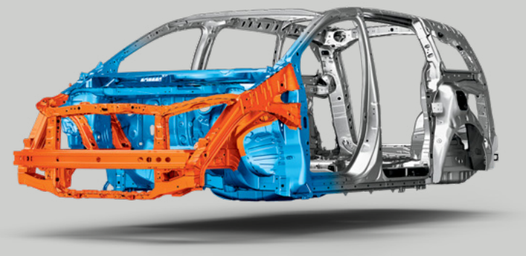
Drivers. Passengers. Everyone.

Honda is dedicated to identifying and implementing advanced designs and features that help enhance the safety of drivers and passengers, including occupants of other vehicles and injury mitigation for pedestrians.

Key Standard Safety Features

- Advanced Compatibility Engineering™ (ACE™) body structure
- Advanced driver and front passenger airbags
- Multi-angle rearview camera[15]



Pilot Elite shown in Gray Leather.

The Honda Sensing® Suite.

A - Collision Mitigation Braking System™ (CMBS™)[16]
CMBS can help bring your vehicle to a stop by automatically applying brake pressure when the system determines that a frontal collision is unavoidable.

B - Lane Keeping Assist System (LKAS)[17]
With your hands on the steering wheel, long highway drives are easier with LKAS, which subtly adjusts steering to help keep your vehicle centered in a detected lane.

C - Road Departure Mitigation System (RDM)[18]
RDM can determine if you cross over detected lane lines without signaling, can provide steering assistance to help you return to your lane, or provide braking to help keep you from leaving the roadway entirely.

D - Adaptive Cruise Control (ACC)[19]
ACC helps you maintain a set following interval behind a detected vehicle for highway driving.

Travel smarter.

Stay connected with your vehicle right from your smartphone. The HondaLink® app* provides assistance, service and convenience. Visit **hondalink.com** for more information on features and subscription services.

Key Available Features
