

17LS

# INTRODUCING THE 2017 LS

## LS 460

386-hp<sup>1</sup> (RWD), 4.6-liter V8 and an eight-speed automatic Electronically Controlled Transmission with intelligence (ECT-i). Dual-zone climate control with smog sensor, Drive Mode Select and Navigation System<sup>2</sup> with 12.3-inch multimedia display. Standard or long wheelbase. Rear-wheel drive or available all-wheel drive.

## LS 460 F SPORT

Signature mesh grille, Genuine Aluminum interior trim and 19-inch forged alloy wheels<sup>3</sup> by BBS. A limited-slip rear differential (RWD), high-performance Brembo<sup>®</sup> front brakes,<sup>4</sup> sport-tuned and lowered Adaptive Variable Air Suspension and a paddle-shift transmission with downshift rev-matching (RWD). Rear-wheel drive or available all-wheel drive.

# DISTINGUISHED IN EVERY DETAIL

Attention to every detail, from head-turning exteriors to exceptionally refined interiors, creates a sublime blend of exhilarating performance, visionary innovation and captivating styling.

# UNRIVALED LUXURY. UNRELENTING PERFORMANCE.

From the day it launched the Lexus brand, the LS has been one step ahead of other luxury automobiles. The 2017 LS line is no exception. From the comforts provided by a host of modern conveniences and the spaciousness offered by its long-wheelbase models, to the exhilaration of the F SPORT model's eight-speed paddle-shift transmission, the LS continues to set the standard in luxury and performance.

With exclusive performance upgrades including a limited-slip rear differential (RWD) and Brembo front brakes,<sup>†</sup> the LSF SPORT is engineered to take driving exhilaration to the next level.

# EXPERIENCE THE MODERN

## REFINEMENT REDEFINED

Welcome to the contemporary side of luxury. In its exquisitely appointed cabin, you'll find handcrafted leather with contrast stitching highlighted by striking wood accents unlike any other in the world. A variety of innovative technology surrounds you, along with remarkable sound fidelity and unprecedented levels of comfort. Complete with a bold exterior design and aggressive styling, the LS makes a mark that never goes unnoticed.

# LAP OF LUXURY

Sophistication and innovation can be found in every aspect of the LS. Experience the elegance of soft, warm lights that illuminate and welcome you. And indulge in supple leather trim and polished aluminum accents upon entering the cabin.

Perhaps the finest example is the stunning design of the available *Shimamoku* Espresso wood-trimmed steering wheel and matching accents, which combine the organic feel of natural wood with a layered look that evokes modern art. The result of 67 steps of craftsmanship in 38 days, the wheel is formed from many layers of thinly cut wood, bonded together, meticulously shaped and buffed to align with the look of the wood on the instrument panel.

Using technology that includes an infrared rear-passenger sensor, the available Climate Concierge automatically coordinates the temperature of up to four separate climate zones and adjusts not only the ventilation system, including the rear overhead ducts, but also the temperature of the front and rear seats and steering wheel individually. As a result, each passenger achieves their own desired level of personalized comfort as quickly as possible. All with the simple push of a button.

# PENCHANT FOR POWER

The compelling styling of the 2017 LS makes a bold statement, and the power under the hood truly backs it up. The direct- and port-injected 4.6-liter, 386-hp<sup>1</sup> (RWD) V8 engine pairs with an eight-speed automatic transmission to deliver an invigorating blend of acceleration, seamless shifting and control.

### A MODE FOR EVERY MOOD

Every driver has a preference on how to handle the road. Whether you're looking for added exhilaration or taking a relaxing drive through the neighborhood, Drive Mode Select enables you to make your LS more responsive or efficient with a simple turn of a dial.

The available Adaptive Variable Air Suspension works in conjunction with Drive Mode Select, monitoring the road surface, vehicle speed and your driving style to automatically adjust the air-spring rate and shock absorber damping force to help provide optimal comfort and control.

# COMMANDS ROADS. DEMANDS ATTENTION.

## THE 2017 LSF SPORT

With a 386-hp<sup>1</sup> (RWD) V8 engine, the LS already announces its powerful character. In the F SPORT, it becomes even more impressive, both inside the vehicle and out. With a lowered Adaptive Variable Air Suspension tuned by the team behind the world-renowned Lexus LFA supercar, the LSF SPORT delivers exhilarating performance to match its aggressive style.

Options shown.

### F SPORT STYLING

The LSF SPORT goes above and beyond to deliver an intense driving experience. Bolstered front seats help keep you firmly planted throughout each and every breathtaking turn. Wrap your hands around the steering wheel and appreciate such features as paddle shifters, a perforated leather grip and an available heater. Plus, Genuine Aluminum trim enhances the LSF SPORT's bold styling.

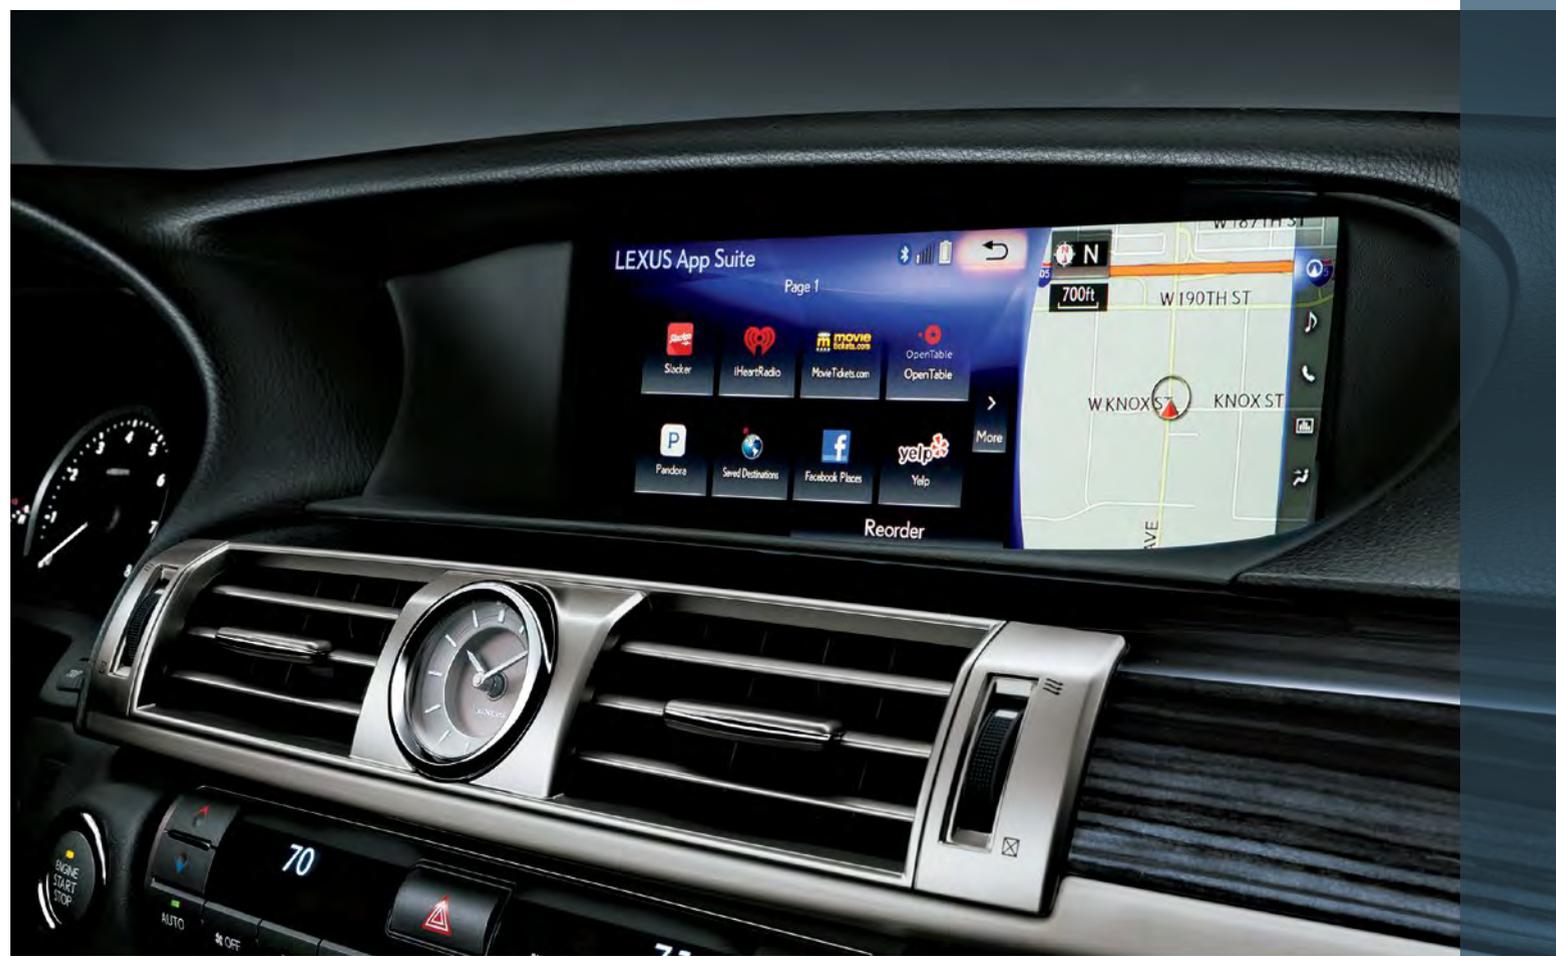

#### F SPORT PERFORMANCE

The LS F SPORT doesn't just deliver impressive power; it manipulates it to provide the best performance. On rear-wheel drive models, the limited-slip rear differential automatically and instantly distributes power to the rear wheel with the most grip, to help enhance traction and control during cornering without interrupting power output. Meanwhile, the 19-inch forged alloy wheels<sup>3</sup> are paired with high-performance Brembo front brakes,<sup>4</sup> featuring massive six-piston aluminum calipers with 14.9-inch ventilated rotors and spiral internal fins for enhanced cooling.

### ALL-WEATHER DRIVE

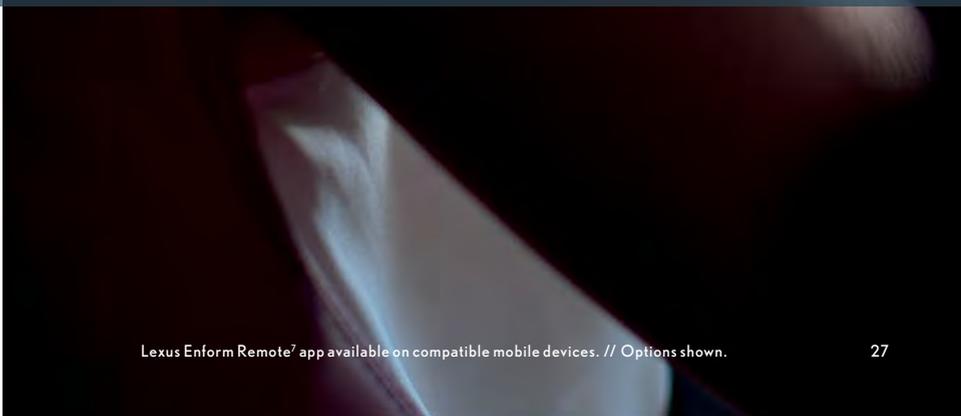

Weather the weather with confidence. To help provide even more control, all-wheel drive is available on every LS. The system uses a TORSEN<sup>®</sup> torque-sensing center differential<sup>5</sup> to distribute power to the wheels with the best grip, helping to enhance traction while delivering greater command during acceleration and cornering.

# ELEVATE YOUR SENSES

Sight. Sound. Touch. Each of these is taken to extraordinary heights by the modern features of the LS. Experience the brilliance of a 12.3-inch, high-resolution multimedia display that provides immediate and simultaneous access to an advanced Navigation System<sup>2</sup> and audio or climate controls. At the same time, you immerse yourself in sound quality that comes from 2,000 hours of tuning, courtesy of an available 19-speaker Mark Levinson<sup>®</sup> Reference Surround Sound Audio System.<sup>6</sup> And Drive Mode Select and the Lexus Enform Remote<sup>7</sup> app put additional capabilities within reach for an even more connected feeling—to your car, and the road.

# EXTENDING THE LIMITS OF LUXURY

Already a vehicle with remarkable presence, the Lexus LS is made even more imposing in its long-wheelbase form: the LS 460 L. Measuring an expansive 205 inches from bumper to bumper—five inches more than the LS 460—the LS 460 L puts a bold stamp on the statement made by this world-class luxury sedan. Inside, the LS 460 L provides significantly more legroom for rear-seat passengers, further enhancing the first-class experience of your passengers.

# INDULGENCE BEYOND COMPARE

To make the most of the long wheelbase of the LS 460 L, opt for the available Executive-Class Seating Package, which replaces the standard rear seat with two individual seats and a shared center console. Among its amenities: Both rear seats have power-reclining capability, a retractable wood-trimmed console table and personal entertainment systems. The right rear seat takes the experience even further upscale with a built-in ottoman-style leg rest<sup>8,9,10</sup> and an indulgent shiatsu massager.

# THE NEXT LEVEL OF CONVENIENCE

Available Lexus Enform<sup>11</sup> elevates connected technology into a new era of concierge-level convenience. From emergency assistance to a live destination specialist and more, our premium suite of connected technology offers peace of mind with every drive.

## SAFETY CONNECT

Whether you're involved in an accident, your vehicle is stolen, or the unexpected occurs, assistance can be sent directly to your vehicle's GPS location.<sup>12</sup>

## SERVICE CONNECT

Keeping up with your vehicle's health has never been easier. Get updates on everything from fuel level and mileage, to maintenance alerts and more via e-mail or the mobile app.<sup>13</sup>

## REMOTE

The Lexus Enform Remote<sup>7</sup> mobile app helps you lock and unlock doors, start the engine, resume climate settings, find your vehicle in a parking lot and monitor guest drivers.

## DESTINATIONS

Get directions and destinations delivered by a real person with 24-hour, en-route navigation assistance.<sup>11</sup>

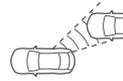

## APP SUITE

Search local listings, stream music, place restaurant reservations, buy movie tickets and more—all from the center console.<sup>11</sup>

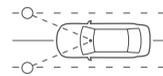

### ADVANCED PRE-COLLISION SYSTEM

Among the many ways the LS is ahead of its time, the available Advanced Pre-Collision System<sup>14</sup> is engineered to detect an imminent frontal collision and, while retracting the front seatbelts, automatically helps to provide increased braking pressure the moment you step on the brake pedal. It's also designed to detect three-dimensional objects in the vehicle's path, and it can apply the brakes to help reduce vehicle speed and bring the vehicle to a complete stop at speeds up to 24 mph.

### BLIND SPOT MONITOR

To help you change lanes with confidence, the available Blind Spot Monitor<sup>15</sup> is designed to detect and warn you of vehicles approaching or positioned in the adjacent lanes. And when you're backing out of a parking spot, the Rear Cross-Traffic Alert<sup>16</sup> is designed to notify you of approaching vehicles that might be out of camera view.

### LANE KEEP ASSIST

Available Lane Keep Assist<sup>17</sup> uses a camera to monitor visible lane markings. Should you ever begin to drift, the system is so advanced that it warns you and takes corrective measures to help steer you back into your lane.

### DRIVER ATTENTION MONITOR

Included with the available Advanced Pre-Collision System,<sup>14</sup> the Driver Attention Monitor<sup>14</sup> is designed to detect if you have your eyes closed or are facing away from the road when an obstacle is detected ahead. If the system determines either condition is met, it will attempt to warn you, and to help you avoid a potential collision, it's designed to automatically begin braking before impact.

## DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other Lexus features, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled iPad<sup>®33</sup> apps like FaceTime.<sup>®34</sup> Learn more about these complimentary services at [lexus.com/specialists](http://lexus.com/specialists).

# PACKAGES

## COMFORT PACKAGE (Standard on LS LWB)

Front-seat Climate Concierge with climate-comfort front seats  
Heated outboard rear seats (AWD only)

- A Power rear sunshade
- Power trunk open/close

## SEMI-ANILINE LEATHER AND ALCANTARA® UPGRADE PACKAGE

- B Semi-aniline leather-trimmed interior
- Alcantara headliner
- Wood trim on rear ventilation outlets

## ULTRA LUXURY PACKAGE

Four-zone climate control, including rear overhead ducts and air purifier

Four-zone Climate Concierge with climate-comfort front and outboard rear seats

Rear-seat cool box

Power rear and side-window sunshades

Power-adjustable outboard rear seats with memory, two-way power lumbar support, lumbar massage and outboard rear butterfly headrests

Wood-trimmed climate and audio controls in rear-center armrest

Power trunk open/close (standard on LS LWB)

Rear seat-mounted side airbags (SRS)<sup>28</sup>

## ADVANCED PRE-COLLISION SYSTEM PACKAGE

Pre-Collision System<sup>30</sup> with All-Speed Dynamic Radar Cruise Control<sup>31</sup>

Active Pedestrian Detection System<sup>35</sup> with infrared and stereo-camera technology

Lane Keep Assist<sup>17</sup>

Driver Attention Monitor<sup>36</sup> with closed-eye detection

Low-Speed Collision Avoidance Assist<sup>37</sup>

## ALL-WEATHER PACKAGE (Standard on LS AWD)

Windshield wiper de-icer and headlamp washers

Enhanced interior heater for faster heat output in cold weather

Higher-capacity vehicle battery

## EXECUTIVE-CLASS SEATING PACKAGE

(Available on LS LWB)

Includes Semi-Aniline Leather and Alcantara Upgrade Package, plus:

Four-zone climate control, including rear overhead ducts, air purifier and infrared rear-passenger temperature sensor; four-zone Climate Concierge with climate-comfort front and outboard rear seats

Power-adjustable rear seats with memory and two-way power lumbar support; power-adjustable outboard rear butterfly headrests

Right-rear power recliner with ottoman,<sup>8,9,10</sup> knee airbag and multifunction shiatsu massage

- C Rear-Seat Entertainment System (RSES)<sup>38</sup> with Blu-ray Disc™/DVD player, 9.0-inch screen and wireless headphones<sup>39</sup>

Rear-seat cool box

Power rear and rear-door sunshades

- D Wood- and leather-trimmed rear-center console with climate and audio controls, and retractable wood-trimmed table

Leather-trimmed instrument panel and glovebox door

Rear seat-mounted side airbags (SRS)<sup>28</sup>

## F SPORT

Includes all LS standard equipment, plus:

- E F SPORT exterior styling including front bumper, upper and lower grille inserts, rear diffuser

19-inch split-10-spoke forged alloy wheels<sup>3</sup> by BBS

Brembo six-piston front brake calipers with 14.9-inch ventilated discs<sup>4</sup>

TORSEN® limited-slip rear differential<sup>5</sup> (RWD)

F SPORT-tuned, lowered Adaptive Variable Air Suspension

Variable Gear-Ratio Steering (VGRS)

Paddle shifters

F SPORT bolstered front seats with embossed headrests

Aluminum pedals and interior trim

Black headliner

Headlamp washers (standard on LS AWD)

# ACCESSORIES

## F REAR BUMPER APPLIQUÉ

Helps protect your bumper from scratches, gouges and marring.

## ALL-WEATHER FLOOR LINERS<sup>40</sup> WITH CARGO MAT

Tub-style perimeter design helps provide optimal protection and an ideal fit.

## G CARGO NET

An innovative cargo net with integrated storage pouch.

**WARRANTY** Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *LS Warranty and Services Guide* at your Lexus dealer for details.

**DISCLOSURES** 1. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. 2. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability & accuracy of the information provided by the Navigation System is dependent upon many factors. Use common sense when relying on information provided. Services & programming subject to change. Services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See *Owner's Manual* for details. 3. 18- or 19-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon tire used and driving conditions. 4. High-friction brakes require periodic inspection and measurement as outlined in the *Warranty and Services Guide*. The pads and rotors are expected to experience greater wear than conventional brakes. Pad life may be less than 20,000 miles, and brake rotor life may be less than 50,000 miles depending on driving conditions. It is an inherent characteristic of materials and design of brake pads used in this high-performance brake system that brake noise/squeal may result. 5. TORSEN® is a registered trademark of Zexel Torsen, Inc. 6. Mark Levinson® is a registered trademark of Harman International Industries, Inc. 7. Use only if aware of circumstances surrounding the vehicle, and it is legal & safe to do so (e.g., car uncovered in open area, no people or pets in or nearby). If vehicle has not been driven for over a week, services will not be available until next time vehicle is started. Functionality depends on many factors, such as vehicle and smartphone connectivity. See usage precautions, service limitations & *Owner's Manual*. Data charges may apply. Registration, app download are required. Must have an active Safety Connect subscription. Annual fee required after 1-year trial. 8. Rear-seat leg rest may not fully raise based on height of passenger. Do not allow passengers to sit in a seat that has been fully or severely reclined while driving. This feature is intended for use only when the vehicle is parked. While the vehicle is being driven, all vehicle occupants should have the seatback upright, sit well back in the seat and properly wear the seatbelts provided. In the event of a collision, the more the seat is reclined, the greater the risk of death or personal injury. See *Owner's Manual* for additional information. 9. If leg rest is in use, seating capacity could be reduced from four to three. 10. Do not use the ottoman feature when the vehicle is in motion. Only use when the vehicle is stationary. If the ottoman feature is in use during an accident the lap belt may slide past the hips. This could also result in restraint forces being applied directly to the abdomen or your neck may contact the shoulder belt, increasing the risk of death or serious injury. See *Owner's Manual* for details. 11. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See [lexus.com/enform](http://lexus.com/enform) for details. 12. Contact with the response center may not be available in all areas. Service Agreements required. A variety of subscription terms available; charges will vary. 13. Information provided is based on the last time data was collected from the vehicle and may not be up to date. System functionality depends on vehicle connectivity. 14. Advanced Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. Driver Attention Monitor is designed to alert the driver if a potential hazard is detected ahead and the driver's face appears to be turned away. They are not collision-avoidance systems and are not substitutes for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. See *Owner's Manual* for details. 15. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection, range and clarity of the monitor. See *Owner's Manual* for details. 16. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See *Owner's Manual* for details. 17. Lane Keep Assist is designed to read lane markers under certain conditions. It provides a visual and audible alert and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See *Owner's Manual* for details. 18. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. 19. Preliminary mileage estimates determined by Lexus. EPA mileage estimates not available at time of publishing. Actual mileage will vary. 20. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 21. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting [www.aaloa.org](http://www.aaloa.org). 22. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. 23. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. 24. Always drive safely, obey traffic laws & focus on the road while driving. Siri® is available only on iPhone® 4s or later, iPad® w/Retina® display, iPad® mini, & iPod® touch (5th gen.) & requires Internet access. Siri® is not available in all languages or all areas & features vary by area. Some Siri® functionality & commands are not accessible in the vehicle. Data charges may apply. See [apple.com](http://apple.com) & phone carrier for details. Siri® is a registered trademark of Apple Inc. 25. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See *Owner's Manual* for details. 26. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. A compatible Bluetooth-enabled phone must first be paired. Phone performance depends on software, coverage & carrier. 27. Do not rely exclusively on the Intuitive Parking Assist system. Always look over your shoulder and use your mirrors to confirm clearance. System effectiveness depends on many factors. See *Owner's Manual* for details. 28. All the airbag systems are Supplemental Restraint Systems. All airbags (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: Typically, frontal and knee airbags inflate in frontal collisions; side torso and side curtain airbags inflate in side collisions; and Roll-Sensing Curtain Airbags inflate at a severe roll angle or roll rate. To decrease the risk of injury from an inflating airbag, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating airbag may cause serious injury or death. See *Owner's Manual* for further information/warnings. 29. Vehicle Dynamics Integrated Management (VDIM) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VDIM will be effective in preventing a loss of control. See *Owner's Manual* for further details. 30. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See *Owner's Manual* for details. 31. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness depends on many factors, such as weather, traffic and road conditions. See *Owner's Manual* for details. 32. Intelligent high beams operate at speeds above 21 mph. Factors such as dirty windshield, weather, lighting & terrain limit effectiveness, requiring driver to manually operate the high beams. See *Owner's Manual* for details. 33. iPhone® and iPad® are registered trademarks of Apple Inc. All rights reserved. 34. FaceTime® is a registered trademark of Apple Inc. All rights reserved. 35. The Pedestrian Detection System, part of the Advanced Pre-Collision System, is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. See *Owner's Manual* for details. 36. The Driver Attention Monitor is designed to alert the driver if a potential hazard is detected ahead and the driver's face appears to be turned away. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors. See *Owner's Manual* for details. 37. Low-Speed Collision Avoidance Assist operates at 24 mph or less. It is intended to assist a driver, but it is the driver's responsibility to be aware of the vehicle's surroundings. The system cannot prevent all collisions, and performance is dependent on road, weather and vehicle conditions. See *Owner's Manual* for details. 38. A single-disc DVD player is included. A separate DVD player or game system utilizing the center console's video/audio inputs is required in order to use the split-screen function of the dual-screen system. 39. Headphones are for passenger use only. Do not use while operating vehicle. 40. This floor mat was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat must be secured with its fasteners. Do not install a floor mat on top of an existing floor mat.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See [lexus.com](http://lexus.com) for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, and are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit [lexus.com](http://lexus.com). To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
