

2017 Mercedes-Maybach S-Class

An experience like no other.

Mercedes-Benz

The best or nothing.

Extended length, exclusive details.

With an elegantly lengthened body, the Mercedes-Maybach S 600 exudes majesty, presence and grace. From the intricate vertical details of its chrome double-bar grille, to the sweep of its extended rear quarters, it is genuinely grand in both proportion and detail. And yet it retains the lithe muscle of the acclaimed S-Class, with taut body lines, impossibly tight tolerances, and LED illumination that is at once intriguing and highly effective.

The Mercedes-Maybach S 600 cabin experience

The Mercedes-Maybach S 600 cabin is overflowing with advanced technology. Yet its timeless, thoughtful attention to detail ensures it's never overwhelming. Nappa leather is hand-tailored to virtually every surface, and can even be fitted to the ceiling. Exotic, handcrafted wood trim with LED under lighting ensconces the occupants. It even wraps around the executive rear seats, which are not only heated and ventilated, they also power-recline and can offer a "hot stone" massage.

20" wheels

The majesty of the Mercedes-Maybach S 600 starts from the road up, where substantial 20" alloy wheels bestow it with presence at a standstill and poise underway. The standard multi-spoke design features a shimmering Thulium Silver finish. Exclusive forged-alloy wheels are available in two exclusive designs: a sleek, subtly dished "full disc" wheel is polished to a rich, satiny lustre, and a new multi-spoke wheel conveys the intricate precision and power of its biturbo V-12.

100% LED lighting

The Mercedes-Maybach S 600 provides brilliant illumination without a single lightbulb. From its full-LED headlamps with Adaptive Highbeam Assist and Active Curve Illumination, to its multizone, multicolour ambient cabin lighting, nearly 500 LEDs provide lighting that's more efficient, effective and enduring.

PRE-SAFE Brake

Radar-based technology alerts you if you're approaching a vehicle ahead at a speed and distance that suggest a collision is likely. In addition to alerting the driver, its Adaptive Brake Assist with autonomous braking can apply up to 100% of the car's braking force automatically from speeds up to 105 km/h, to help prevent a collision or reduce its severity.

ATTENTION ASSIST

The first system of its kind, ATTENTION ASSIST can automatically alert the driver if it detects signs of drowsiness on long trips. It continuously monitors up to 70 parameters of driving behaviour, starting in the first few minutes of a drive. The latest generation of this innovation can help detect drivers who begin their trip drowsy, and offer more useful information via the dashboard display.

Advanced driving assists

The groundbreaking systems of Intelligent Drive helps ease your every move. Radar-based DISTRONIC PLUS adapts your cruising speed to the traffic flow, even if it's stop-and-go, while its Steering Assist helps keep you centred in your lane. Active Lane Keeping and Blind Spot Assists keep a virtual eye to either side. Cross-Traffic Assist watches for vehicles and pedestrians in your path. And PRE-SAFE PLUS helps prepare for a rear-end collision before it happens.

Innovative parking assists

PARKTRONIC's ultrasonic sensors help detect obstacles while you're negotiating tight spaces, alerting you with audiovisual indicators in the cabin. Active Parking Assist can help you find a parking spot, then expertly steer you in hands-free – like a virtual valet. The standard rearview camera shows a live colour view of the area behind your vehicle on the in-dash screen, or take a look around with the advanced 360° camera and the advanced Surround View System.

Indulgent comfort, enduring support

Intuitive controls offer 16-way power adjustment of the heated front seats. But that's just the beginning of the car's comforts. The armrests, doors and rear seats are also heated. The seats can add side support in corners, and offer a "hot stone" massage or cooling ventilation. And with such available indulgences as twin lounge seats, a refrigerated compartment and bespoke silver Champagne flutes, the rear cabin rivals the comforts of a private jet.

Digital instruments and touchpad COMAND

Dual 12.3" high-resolution screens combine the analogue-style gauges with animated displays of driving systems, vehicle settings, entertainment and navigation. An intuitive touchpad makes the advanced COMAND system even easier to use, including fingertip gestures and handwriting recognition. The standard Head-Up Display, appears to "float" over the hood, providing useful driving information with minimal "eyes off the road."

COMAND navigation and audio

The COMAND system includes navigation with a 200GB hard drive for maps and data, as well as lane guidance as you approach turns, and LINGUATRONIC voice control that can learn your natural way of speaking. Listening choices are nearly limitless, from standard SiriusXM Radio to Bluetooth wireless audio streaming, two USB ports, and a 10GB Music Register.

Burmester Surround Sound System

One of the most respected names in handcrafted high-end home audio, Germany's Burmester® has developed a superlative surround-sound system for the Mercedes-Maybach S 600. The standard Burmester High-End 3D Surround Sound system aims to be the pinnacle of mobile audio, with 1,520 total watts delivering unsurpassed audio quality via 24 speakers, including 3D speakers in the ceiling.

Advanced locking and starting features.

From its pushbutton KEYLESS-START feature to its power trunk lid, the Mercedes-Maybach S 600 makes getaways easier. Standard KEYLESS-GO lets you unlock and lock the car with a touch of any door handle. And the power trunk closer includes HANDS-FREE ACCESS, which opens or closes the trunk with just a gentle kick of your foot under the rear bumper – ideal when your arms are full.

Purified, and rarified air

Dual charcoal filters team with an ionizer that uses an electrical charge to virtually eliminate impurities and odours from the cabin air. It helps make the air quality more enjoyable and healthier, especially for those with asthma or allergies. A fragrance atomizer introduces any of four distinctive yet subtle aromas via an LED-backlit vial in the glovebox and special ductwork. The scent won't linger on cabin surfaces or your clothes.

Advanced biturbo V-12 power

A superlative biturbo V-12 powers the Mercedes-Maybach S 600 with commanding authority. Such thoroughbred specifications as a diecast alloy block, forged pistons and sodium-filled exhaust valves team with twin-spark ignition, advanced engine controls and an ECO Start/Stop system to improve performance, efficiency emissions. A 7-speed automatic transmission with shift paddles is equally smooth and sporty.

Innovations in comfort and control

The Mercedes-Maybach S 600 takes the industry's most advanced active suspension to a new level. Standard camera-assisted MAGIC BODY CONTROL is an industry-first "proactive" suspension that can actually see bumps ahead, and act to quell them in real time. It also offers a choice of Sport and Comfort modes, plus automatic levelling at all four wheels.

Executive Rear Seating Package

Twin rear seats with a centre console for an experience beyond first class.

Folding tables for rear seats

Twin folding tables, elegantly edged in aluminum, rise from the console so you can work in comfort on the go, or stow away when not desired.

Heated and cooled rear cupholders

Innovative technology helps keep your hot drinks warmer or your chilled drinks cooler at the touch of a button. Colour-keyed red or blue LED lighting illuminates the cupholders while indicating the selected mode.

Executive rear seats with memory

Twin power-reclining seats let rear passengers ride in first-class comfort. In addition to power cushion angle adjustment, the seatbacks recline up to 43 degrees without reducing legroom. Each seat also includes a memory system and power calf rest. The right seat adds a power footrest, plus rear-cabin controls for the right-front seat. This feature lets you expand your legroom by moving the unoccupied front seat forward by an additional three inches, and tilting its seatback.

Rear-cabin refrigerator compartment

Reduces trunk space when installed, but is removable

Keep your favourite beverages perfectly chilled for enjoyment with this compact refrigerated compartment concealed between the rear seatbacks.

Magnetic champagne flutes

A pair of silver-plated champagne flutes is custom-made by Robbe & Berking, German silversmiths for five generations. Magnetic pads in the console help keep them in place while passengers are enjoying them. They nest into a rear-cabin compartment when not in use. (Please obey local laws.)

Extended Leather Package

Extraordinary outfitting that takes the Mercedes-Maybach cabin above first class.

Extended Nappa leather cabin elements

Countless additional cabin surfaces, from the front seat supports to the roof pillars, are exquisitely tailored in indulgent Nappa leather, as are the door sills and centre consoles. The rear cabin includes a pair of two-tone Nappa-covered throw pillows. It's ample evidence that not a single detail of the Mercedes-Maybach S 600 has been left unattended.

Nappa leather roof liner

The ceiling is also lavishly lined in supple Nappa leather, with diamond quilting on the rear vanity-mirror covers. The overhead assist grips and side sun blinds match the ceiling colour.

SPLITVIEW front-seat entertainment system

An exclusive breakthrough in video technology allows the central high-resolution in-dash widescreen to show two different displays to the driver and front passenger. So while the driver continues to enjoy all the functionality of the standard COMAND system, including audio, navigation and easy control of vehicle settings, the passenger can watch a DVD movie using the standard in-dash player, wireless remote and wireless headphones.

20" Mercedes-Maybach Exclusive forged-alloy wheels

A Mercedes-Maybach Exclusive wheel design features a sleek "full disc" design with five mirror-image pairs of ventilation slots around its perimeter. Each prominent, subtly dished wheel's surface is polished to a rich, satiny lustre to convey an understated yet unmistakable sense of style.

20" multi-spoke forged-alloy wheels

Large in size yet light in weight, the multispoke design of these 20" wheels offers an elegant high-tech look befitting the precisely tuned performance of the Mercedes-Maybach. Fitted with high-performance tires, their confident handling is an ideal complement to the car's capable suspension.
